**Roman Catholics and Shi'i Muslims** James A. Bill,John Alden Williams,2003-08-01 This timely work explores two influential religious traditions that might seem to have little in common Twelver Shi i Islam and Roman Catholicism With the worldwide rise of religious fundamentalism it is imperative that religious movements such as Chri Catholics in England 1950-2000 Michael Hornsby-Smith,1999-12-01 The year 2000 marks the 150th anniversary of the restoration of the Roman Catholic hierarchy of England and Wales following the post Reformation penal times The centenary in 1950 was celebrated with much reflection but what has happened in the momentous half century since which has witnessed the transformation of the Second Vatican Council The book includes Historical perspectives of the period Testimonies by key participants in post war institutional Catholicism including the Papal Commission on Birth Control World Congresses of the Laity in Rome and a variety of experiences in Catholic organizations and public life Empirical studies of English Catholicism from sociological perspectives Concluding reflections and prospects for the new millennium *Transforming Catholicism* David R. prospects of Christian theology in the twenty first century      Catholic Progressives in England after Vatican II Jay P. Corrin, 2013-11-30 In *Catholic Progressives in England after Vatican II* Jay P Corrin traces the evolution of Catholic social and theological thought from the end of World War II through the 1960s that culminated in Vatican Council II He focuses on the emergence of reformist thinking as represented by the Council and the corresponding responses triggered by the Church's failure to expand the promises or expectations of reform to the satisfaction of Catholics on the political left especially in Great Britain The resistance of the Roman Curia the clerical hierarchy and many conservative lay men and women to reform was challenged in 1960s England by a cohort of young Catholic intellectuals for whom the Council had not gone far enough to achieve what they believed was the central message of the social gospels namely the creation of a community of humanistic socialism This effort was spearheaded by members of the English Catholic New Left who launched a path breaking journal of ideas called *Slant* What made *Slant* revolutionary was its success in developing a coherent philosophy of revolution based on a synthesis of the New Theology fueling Vatican II and the New Left's Marxist critique of capitalism Although the English Catholic New Left failed to meet their revolutionary objectives their bold and imaginative efforts inspired many younger Catholics who had despaired of connecting their faith to contemporary social political and economic issues Corrin's analysis of the periodical and of such notable contributors as Terry Eagleton and Herbert McCabe explains the importance of *Slant* and its associated group within the context of twentieth century English Catholic liberal thought and action      **Rome in Australia: The Papacy and Conflict in the Australian Catholic Missions, 1834-1884 (set 2 volumes)** Christopher Dowd, 2008-07-30 The founding of the Catholic missions in Australia coincided with the defining drift of power and prestige within the nineteenth century Church This was a period of chronic dissension among Australia's Catholic communities powerfully drawn by the ultramontane impulse and political manoeuvring to refer their problems to the Pope Roman bureaucratic control exercised through the Sacred Congregation de Propaganda Fide was the single most important factor in the resolution of these problems and consequently in the determinative shaping of the colonial Australian Church Based on extensive archival research this study explores issues of process politics and personality in the formulation of papal policy towards a part of the world that could not be more distant from Rome      *Catholicism in Britain & France Since 1789* Frank Tallett, 1996-07-01 This volume provides an up to date analysis of Catholicism in Britain and France examining various aspects of the faith in the 200 years since the French Revolution By focusing on two countries whose religious establishment and experience were markedly different and by adopting a comparative approach the book is able to offer an unusual perspective on the challenges facing the Catholic church in the modern world and on its impact not only on believers but also on the two societies as a whole      *American Catholic* Charles Morris, 2011-08-24 A cracking good story with a wonderful cast of rogues ruffians and some remarkably holy and sensible people Los Angeles Times Book Review Before the potato famine ravaged Ireland in the 1840s the Roman Catholic Church was barely a thread in the American cloth

Twenty years later New York City was home to more Irish Catholics than Dublin Today the United States boasts some sixty million members of the Catholic Church which has become one of this country's most influential cultural forces In American Catholic The Saints and Sinners Who Built America's Most Powerful Church Charles R Morris recounts the rich story of the rise of the Catholic Church in America bringing to life the personalities that transformed an urban Irish subculture into a dominant presence nationwide Here are the stories of rogues and ruffians heroes and martyrs from Dorothy Day a convert from Greenwich Village Marxism who opened shelters for thousands to Cardinal William O Connell who ran the Church in Boston from a Renaissance palazzo complete with golf course Morris also reveals the Church's continuing struggle to come to terms with secular pluralist America and the theological sexual authority and gender issues that keep tearing it apart As comprehensive as it is provocative American Catholic is a tour de force a fascinating cultural history that will engage and inform both Catholics and non Catholics alike The best one volume history of the last hundred years of American Catholicism that it has ever been my pleasure to read What's appealing in this remarkable book is its delicate sense of balance and its soundly grounded judgments Andrew Greeley      **Conscience First, Tradition Second** Patrick H. McNamara,1992-02-06 For this study of American religion the author surveyed over 2000 Catholic high school seniors during a fourteen year period exploring changes in religiosity and attitudes toward the recent teachings of the Church Fifty four of these people were resurveyed eight and nine years after graduation probing whether and in what direction their viewpoints had shifted

Modern Catholic Social Teaching Joe Holland,2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical Rerum novarum was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people Modern Catholic Social Teaching traces this historic shift as it played out in the writings of Leo and the popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergen      Fortress Church Kester Aspden,2002      **The Third Spring** Adam Schwartz,2005-02 This book is the first detailed examination of these four authors as part of a Roman Catholic counter modern community of discourse It is informed by extensive research in the writers works scholarship on them and their personal papers      **Religion and American Politics** Mark A. Noll,Luke E. Harlow,2007 These essays examine how religious beliefs and practices have shaped political thought and behaviour and vice versa and how in certain periods religious and political thought has coincided or moved in

opposition and how minority perspectives have challenged majority views      **Boston Catholics** Thomas H. O'Connor, 1998  
In this engaging work now available in paperback Thomas H O Connor chronicles the activities achievements and failures of the Church's leaders and parishioners over the course of two centuries      **In Search of Foundations for African**

**Catholicism** Mika Vähäkangas, 2016-05-18 This study deals with the interaction between neo Thomism and African traditional thinking in Charles Nyamiti's theological methodology The approach of the study is groundbreaking as it is the first monograph published on the theological method of any African theologian The question about the position and relevance of Western philosophical theological systems in a non Western context also has a wider relevance concerning contextual theologies in general Nyamiti's theology is a germane and a fruitful choice for the study of this issue because of his programmatic attempt to build a coherent African Roman Catholic theological system His theology is also well known for its strong African flavor in elaborating theological questions within the framework of orthodox Roman Catholic doctrine

*Catholic Social Thought* Jonathan Boswell, Francis P. McHugh, Johan Verstraeten, 2000 These essays are an attempt to recover something of the form style and force of Catholic non official social thinking in the face of contemporary social thought and contemporary injustice in advanced societies After an opening essay by the doyen of Catholic writers in this field Jean Yves Calvez SJ the book is divided into three sections The first and largest group of essays discuss patterns and predicaments of Catholic social thought in general terms and from different points of view The context here is partly the debate on modernity high modernity and post modernity partly the issue of how far and in what ways Catholic Social Thought can claim to be distinctive relative to contemporary secular thought The second section of the book focusses on relationships between Catholic social thought and its restatement and a number of contemporary debates on public issues Particular attention is given in successive essays to issues of anti poverty human rights economic theory and international finance A third and shorter section describes a number of institutional projects which attempt to carry Catholic social values forward into concrete action focussing on work in health and welfare grass roots economic co operation anti poverty and international peace and justice Final contributions by the reputed international scholar in this field John Coleman SJ and the book editors respectively evaluate the collection as a whole and discuss further steps      *Religious Identity and the Problem of Historical Foundation* Judith Frishman, Willemien Otten, Gerard Rouwhorst, 2004-02-01 The essays collected in this book deal with the question how throughout the history of Christianity Christian communities have tried to construct their identity by anchoring their views in authoritative and normative sources The main focus is upon the problem of historical foundation through textual traditions but other authoritative sources role of religious leaders ritual traditions are taken into consideration as well The book takes as its point of departure the fact that with the rise of modernity the former dependence of western church and society on authoritative sources was called into question Ever since appeal to such sources is no longer self evident at times it is even regarded as problematic Based on this radical change brought about by modernity the book is divided in two

main parts The first part deals with the question how Christian churches and confessions Roman Catholic and Protestant confronted modernity and which role was played by authoritative sources in the tradition to the modern era Special attention will be paid to the way in which Judaism reacted to many of the same impulses both societal and religious ones The second part deals with the premodern period from early Christianity to the post Reformation era and focuses on the role authoritative traditions textual or otherwise have played in providing various Christian communities with a relative stable identity The aim of the book is to elucidate processes resulting in the formation of authoritative traditions as well as the effects of these traditions on the identity of Christian and Jewish communities In addition the book attempts to clarify the various ways in which Christian and Jewish communities have reacted to the growing suspicion authoritative traditions aroused in the western world since the rise of modernity
