The Archaeology of the Roman Economy Kevin Greene, 1986 Kevin Greene shows how archaeology can help provide a more balanced view of the Roman economy by informing the classical historian about geographical areas and classes of society that received little attention from the largely aristocratic classical writers whose work survives

Roman Pottery Kevin Greene, 1992 00 The sheer abundance of pottery found on Roman sites throughout Europe and Asia makes it essential to our understanding of the

ancient societies that created it This book explains how traditional methods of classification have been supplemented by modern scientific and computer based analysis thereby encouraging specialists to ask an ever widening range of questions Whether the answers include the date of an excavated deposit the technology of manufacture or the wealth and trading activity of the settlement the conclusions that can now be drawn from Roman pottery are proving invaluable in our efforts to interpret the past The sheer abundance of pottery found on Roman sites throughout Europe and Asia makes it essential to our understanding of the ancient societies that created it This book explains how traditional methods of classification have been supplemented by modern scientific and computer based analysis thereby encouraging specialists to ask an ever widening range of questions Whether the answers include the date of an excavated deposit the technology of manufacture or the wealth and trading activity of the settlement the conclusions that can now be drawn from Roman pottery are proving invaluable in our efforts to interpret the past

The Directory of Museums & Living Displays Kenneth

Hudson, Ann Nicholls, 1985-06-18 **The Romans** Kevin M McGeough, 2009-03-17 The Romans provides an accessible introduction to the history society and scholarship of one of the most captivating and enduring civilizations in human history From the establishment of the monarchy and the Republican era to the decline of the Empire this comprehensive volume examines every aspect of Roman culture from both historical and archaeological perspectives In addition to surveying the well established subjects of Roman history author Kevin McGeough discusses the latest events in the archaeological investigation of Rome such as the recent excavations at the Temple of Castor and Pollux in the Roman Forum and the controversial identification of an ossuary thought by some to hold the body of James the brother of Jesus The text is accompanied by carefully chosen illustrations maps a glossary and chronology Throughout general readers and students will gain a vivid understanding of Roman civilization and of why it still captures our imagination today **Roman Finds** Richard Hingley, Steven Willis, 2007-04-10 Studies on finds in Roman Britain and the Western Provinces have come to greater prominence in the literature of recent years The quality of such work has also improved and is now theoretically informed and based on rich data sets Work on finds over the last decade or two has changed our understanding of the Roman era in profound ways and yet despite such encouraging advances and such clear worth there has to date been little in the way of a dedicated forum for the presentation and evaluation of current approaches to the study of material culture The conference at which these papers were initially presented has gone some way to redressing this and these papers bring the very latest studies on Roman finds to a wider audience Twenty papers are here presented covering various themes **Clash of Cultures?** Roger White, Mike Hodder, 2018-02-21 The general perception of the west midlands region in the Roman period is that it was a backwater compared to the militarized frontier zone of the north or the south of Britain where Roman culture took root early in cities like Colchester London and St Albans and lingered late at cities like Cirencester and Bath with their rich late Roman villa culture The west midlands region captures the transition between these two areas of the military north and civilized south Where it differed and why are important questions in understanding the regional diversity of Roman Britain They are addressed by this volume which details the archaeology of the Roman period for each of the modern counties of the region written by local experts who are or have been responsible for the management and exploration of their respective counties These are placed alongside more thematic takes on elements of Roman culture including the Roman Army pottery coins and religion Lastly an overview is taken of the important transitional period of the fifth and sixth centuries Each paper provides both a developed review of the existing state of knowledge and understanding of the key characteristics of the subject area and details a set of research objectives for the future immediate and long term that will contribute to our evolving understanding of Roman Britain This is the third volume in a series The Making of the West Midlands that explores the archaeology of the English west midlands region from the Lower Palaeolithic onwards **Local Economies?** , 2016-04-26 The Roman economy was operated significantly above subsistence level with production being

stimulated by both taxation and trade Some regions became wealthy on the basis of exporting low value agricultural products across the Mediterranean In contrast it has usually been assumed that the high costs of land transport kept inland regions relatively poor This volume challenges these assumptions by presenting new research on production and exchange within inland regions The papers supported by detailed bibliographic essays range from Britain to Jordan They reveal robust agricultural economies in many interior regions Here some wealth did come from high value products which could defy transport costs However ceramics also indicate local exchange systems capable of generating wealth without being integrated into inter regional trading networks The role of the State in generating production and exchange is visible but often co existed with local market systems Contributors are Alyssa A Bandow Fanny Bessard Michel Bonifay Kim Bowes Stefano Costa Jeremy Evans Elizabeth Fentress Piroska H rshegyi Adam Izdebski Luke Lavan Tamara Lewit Phil Mills Katalin Ottom nyi Peter Sarris Emanuele Vaccaro Agn s Vokaer Mark Whittow and Andrea Zerbinì Excavations at Mucking Helena Hamerow, 2013-01-15 The complex multi period archaeological landscape at Mucking provided the first opportunity between 1965 and 1978 to excavate an Anglo Saxon settlement and associated cemeteries simultaneously With two cemeteries at least 53 posthole buildings and over 200 sunken huts Grubenh user Mucking remains the most extensive Anglo Saxon settlement excavated to date and one of the earliest The distribution of finds and pottery suggests a gradually shifting settlement beginning in the early fifth century as a relatively dense group of buildings at the southern end of the site then gradually moving northwards in the course of the sixth and seventh centuries The latest recognisable phase datable at least to the end of the seventh century consisted of a number of widely dispersed farmsteads This report concentrates on the structures and artefacts from the settlement and gives special consideration to developments in the ceramic assemblage Specialist contributions examine the environment and technological evidence for example plant and animal resources and metalworking technology The discussion focuses on changes in the size and layout of this community which was situated at the interface of the Anglo Saxon kingdoms of Kent and Essex its historical and geographical contexts and its relationship to the preceding Romano British landscape This report includes a full inventory of the finds and pottery in their contexts

Tell el Hesi (Lachish), Hyksos and Israelite Cities William Matthew Flinders Petrie, 2013-09-19 Reissued here together these two illustrated excavation reports published in 1891 and 1906 cover discoveries in Palestine and Egypt respectively

The Celt, the Roman, and the Saxon Thomas Wright, 1902 The Mysteries, Resurrection, and 1 Corinthians 15 Terri Moore, 2018-09-15 Often ignored misunderstood or compared with Christian belief in a haphazard or inconsistent manner the Mysteries of the Graeco Roman world when handled carefully and consistently can aid in elucidating the context of New Testament texts By closely examining the Eleusinian Mysteries and the Mysteries of Isis and particularly their promises of a pleasant afterlife in Hades for those initiated into the cults this work offers insight into difficult interpretational issues in First Corinthians 15 The work proceeds from a methodological commitment to understanding the Mysteries in their own

right and without an overlay of Christian belief The book includes a broad overview of the Eleusinian Mysteries and the Mysteries of Isis and their place in Graeco Roman culture taking a deep and careful dive into conceptions of the afterlife in these cults In each instance available historical data is considered from works of mythology to dramas to archeological fragments all with a focus on afterlife beliefs With an ultimate goal to better understand Paul s writing in First Corinthians 15 the study includes an overview of Corinthian society and a particular examination of the available evidence concerning the impact of the Mysteries on Corinthians expectation of the afterlife Having considered the Mysteries independently the work turns to First Corinthians 15 with a brief exegetical overview before drawing careful comparisons between Paul s teaching and the afterlife beliefs of the Mysteries The book concludes with suggestions for interpretational issues on Paul s teaching in first Corinthians 15 regarding death and resurrection and baptism for the dead

Julia Velva, A Roman Lady from York
Patrick Ottaway, 2021-05-30 An intriguing examination of what we can learn about life in Roman Britain using one woman s third century tombstone as a starting point The tombstone of Julia Velva one of the best preserved examples from Roman Britain was found close to a Roman road just outside the center of York Fifty years old when she died in the early third century Julia Velva was probably from a wealthy family able to afford a fine monument Patrick Ottaway uses the tombstone as the starting point to investigate what the world she lived in was like Drawing on the latest archaeological discoveries and scientific techniques the author describes the development of Roman York s legionary fortress civilian town and surrounding landscape He also looks at manufacturing and trade and considers the structure of local society along with the latest analytical evidence for people of different ethnic backgrounds Aspects of daily life discussed include literacy costume cosmetics and diet There are also chapters dedicated to the abundant York evidence for religion and burial customs This book presents a picture of what one would have found on the edge of a great empire at a time when York itself was at the height of its importance With dozens of photographs specially prepared plans and illustrations this is an excellent study of one of Roman Britain s most important places

Romano-British Settlement and Cemeteries at Mucking Sam Lucy, Christopher Evans, 2016-11-30 Excavations at Mucking Essex between 1965 and 1978 revealed extensive evidence for a multiphase rural Romano British settlement perhaps an estate center and five associated cemetery areas 170 burials with different burial areas reserved for different groups within the settlement The settlement demonstrated clear continuity from the preceding Iron Age occupation with unbroken sequences of artefacts and enclosures through the first century AD followed by rapid and extensive remodeling which included the laying out a Central Enclosure and an organized water supply with wells accompanied by the start of large scale pottery production After the mid second century AD the Central Enclosure was largely abandoned and settlement shifted its focus more to the Southern Enclosure system with a gradual decline though the 3rd and 4th centuries although continued burial pottery and artefactual deposition indicate that a form of settlement continued possibly with some low level pottery production Some of the latest Roman pottery was strongly associated with the

earliest Anglo Saxon style pottery suggesting the existence of a terminal Roman settlement phase that essentially involved an Anglo Saxon community Given recent revisions of the chronology for the early Anglo Saxon period this casts an intriguing light on the transition with radical implications for understandings of this period Each of the cemetery areas was in use for a considerable length of time Taken as a whole Mucking was very much a component place complex it was its respective parts that fostered its many cemeteries whose diverse rites reflect the variability and roles of the settlement s evidently varied inhabitants
