Roman Private Law, Founded on the 'Institutes' of Gaius and Justinian Richard William Leage, 1920 Roman Private Law Richard William Leage, 2015-07-06 Excerpt from Roman Private Law Founded on the Institutes of Gaius and Justinian This is an attempt to meet a want which I have felt in teaching Roman Law at Oxford viz sonic book which is content to give as simply as possible the subject matter of the Institutes of Gaius and Justinian following in the main the original order of treatment It has proved impossible to keep strictly within these limits and while I have sometimes judged it expedient to omit minor details of little practical importance such as some of the degrees of cognatic relationship I have also found it necessary in order to make a coherent statement to add information not contained in the Institutes but derived from the Digest Code Novels or from modern Civilians In some cases where the evidence is weak or controversy rages I have ventured to state dogmatically what in a more pretentious work would require qualification The Historical Introduction presupposes a knowledge of the elements of Roman Constitutional History About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Roman Private Law, Founded on the 'Institutes' of Gaius and Justinian** Richard William Leage, Charles Hugo Ziegler, 1930 **Private Law Among the Romans from the Pandects by John George Phillimore** John George Phillimore, 1863 *Roman Private Law Founded on the Institutes of Gaius and Justinian*, 1906 Private Foundations: Law & Practice John Goldsworth, 2011

Roman Private Law R. W. Leage,1994 *Swedish Perspectives on Private Law Europeanisation* Annina H Persson,Eleonor Kristoffersson,2017-01-12

As part of the European integration an ambitious programme of harmonisation of European private law is taking place This new edition in the Swedish Studies in European Law series the work of both legal scholars and politicians aims to create a modern codification in the tradition of the great continental codifications such as the BGB and the Code Civil A significant step towards this development was taken in 2009 with the creation of the Draft Common Frame of Reference which contains model rules for a large part of central private law The process raises a number of questions What are the advantages and disadvantages of such an intensive process of harmonisation Are there lessons to be learnt from the Europeanisation of private law through history Are there any further steps which have been taken in order to create a European private law What is the future of European private law These crucial questions were discussed at a conference in Stockholm sponsored by the Swedish Network of European Legal Studies This important volume includes the answers offered by leading scholars in the field

The Construction, Sources, and Implications of Consensualism in Contract Kane Abry, 2023-09-28 This book offers a comprehensive introduction to French contract law with a focus on the role of consent and the evolution of consensualism considering its immediate historical sources The book provides a clear in depth and analytical discussion of the contingency of consensualism and how the development of consensual ideas across time and transnational geographical settings has specifically underpinned modern French contract law which has inspired other legal systems and continues to do so It also challenges the macro narratives of European legal history and redefines consensualism so that it may be properly understood addressing its manifest contemporary misinterpretations Thorough engaging well structured and inventive there is no other English language scholarly work that offers a similar analysis This monograph makes an evident contribution to the field by offering an original interpretation of several provisions in the Code Civil which relate to the law of contract The author demonstrates an impressive grasp of Latin French and English sources as well as knowledge of Roman law legal history and contemporary French law It is well referenced and offers an extensive bibliography Dr Stephen Bogle Senior Lecturer in Private Law University of Glasgow UK The author brings a critical perspective to bear throughout the monograph and develops a clear and quite sophisticated position on the interaction between consensualism and formalism in Roman and French law and the intervening European ius commune Prof Hector MacQueen Emeritus Professor of Private Law University of Edinburgh UK

The Making of European Private Law J. M. Smits, 2002 The private law of the Member States of the European Union has become more and more European The fact that the European Union is making ever more use of directives as an instrument to achieve private law goals is in this context not the most important development Of much more substance is the fact that one increasingly realises that a uniform European private law has to be created in one way or another in the near future if a truly common European market is to function at all Over the last decade Europe has witnessed the emergence of a vigorous debate about the need for and the feasibility of a future European ius commune in the field of private law This book critically discusses this debate and provides a systematic overview of the various initiatives taken and describes the fragmentary European private law that already exists by way of European directives international conventions etc In addition the author aims at making a contribution to the debate by suggesting that the experience good or bad of the so called mixed legal systems is of great importance to the European private law venture and to the development of a uniform private law for Europe This idea is supported by insights from Law Economics and illustrated by South African law in particular This idea of European private law as a mixed legal system is then applied to the law of contracts torts and property

This book takes up the challenge to give a critical examination on the various methods of creating this *ius commune*. A detailed table of contents, list of abbreviations, bibliography, table of cases and index complete the book and make it a valuable study for everyone interested in European private law.
