Roman Villas A Study In Social Structure:

Roman Villas J.T. Smith,2012-10-12 Roman Villas explores the social structures of the Roman world by analysing the plans of buildings of all sizes from slightly Romanized farms to palaces The ways in which the rooms are grouped together how they intercommunicate and the ways in which individual rooms and the house are approached reveal various social patterns which question traditional ideas about the Roman family and household J T Smith argues that virtually all houses were occupied by groups of varying composition challenging the received wisdom that they were single family houses whose size reflected only the owner s wealth and number of servants Roman Villas provides a meticulously documented and scholarly examination of the relationship between the living quarters of the Roman and their social and economic development which introduces a new area in Roman studies and a corpus of material for further analysis The inclusion of almost 500 ground plans drawn to a uniform scale allows the reader to compare the similarities and differences between house structure as well as effectively illustrating the arguments

Roman Villas David E. Johnston,1979 **Roman Villas in Central Italy** Annalisa Marzano,2007-08-31 This volume which was awarded Honorable Mention and a Silver Medal from the Premio Romanistico Internazionale G rard Boulvert investigates the socio economic role of elite villas in Roman Central Italy drawing on both documentary sources and material evidence Through the composite picture emerging from the juxtaposition of literary texts and archaeological evidence the book traces elite ideological attitudes and economic behavior caught between what was morally acceptable and the desire to invest capital intelligently The analysis of the biases affecting the application of modern historiographical models to the interpretation of the archaeology frames the discussion on the identification of slave quarters in villas and the putative second century crisis of the Italian economy The book brings an innovative perspective to the debate on the villa system and the decline of villas in the imperial period

Complex Assemblages, Complex Social Structures Wendy A. Morrison,2015-10-28 Late Iron Age and Early Roman Britain has often been homogenised by models that focus on the resistance assimilation dichotomy during the period of transition Complex Assemblages examines the rural settlements of this period through the lens of Cultural Theory in order to tease out the more nuanced and diverse human landscape that the material suggests This approach develops new ways of thinking about the variability observed in rural settlements from the end of the Middle Iron Age MIA to the early 2nd century AD the selected study area is the Upper and Middle Thames Valley This book uses the grid group designations of Mary Douglas Cultural Theory as a tool to produce a more multifaceted picture of the period exploring the assemblages of these rural settlements to understand the nature of the socio political structures of the region beyond the anonymity of tribal affiliation and the faceless economic dichotomy of high and low status

Designing for Luxury on the Bay of Naples Mantha Zarmakoupi,2014 This study explores Roman luxury villa lifestyle and architecture to shed light on the villas design as a dynamic process related to cultural social and environmental factors Through an analysis of five villas from around the bay of Naples it shows how the

Romans developed a sophisticated interplay between architecture and landscape

Farming in the First Millennium AD P. J. Fowler, 2002-11-14 Peter Fowler has written an authoritative account of farming in Britain in the first millennium AD This is the first synthesis of our knowledge on this topic for a generation Successive chapters assemble and analyse the latest evidence on farms fields technology food diet and society New interpretations are offered on subjects ranging from implements to illuminated manuscripts and evidence drawn from Northern England Scotland and Wales contributes significantly to the story The book concludes with a magisterial review of the ways in which agriculture shaped early Britain's societies and landscapes It also proposes a chronological model of British agriculture for the whole millennium

An Environmental History of Ancient Greece and Rome Lukas Thommen, 2012-03-08 In ancient Greece and Rome an ambiguous relationship developed between man and nature and this decisively determined the manner in which they treated the environment On the one hand nature was conceived as a space characterized and inhabited by divine powers which deserved appropriate respect On the other a rationalist view emerged according to which humans were to subdue nature using their technologies and to dispose of its resources This book systematically describes the ways in which the Greeks and Romans intervened in the environment and thus traces the history of the tension between the exploitation of resources and the protection of nature from early Greece to the period of late antiquity At the same time it analyses the comprehensive opening up of the Mediterranean and the northern frontier regions both for settlement and for economic activity The book's level and approach make it highly accessible to students and non specialists

Dacia Ioana A. Oltean, 2007-08-07 Providing a detailed consideration of previous theories of native settlement patterns and the impact of Roman colonization Dacia offers fresh insight into the province Dacia and the nature of Romanization It analyzes Roman native interaction from a landscape perspective focusing on the core territory of both the Iron Age and Roman Dacia Oltean considers the nature and distribution of settlement in the pre Roman and Roman periods the human impact on the local landscapes and the changes which occurred as a result of Roman occupation Dealing with the way that the Roman conquest and organization of Dacia impacted on the native settlement pattern and society this book will find itself widely used amongst students of ancient Rome

The Oxford Handbook of Roman Britain Martin Millett, Louise Revell, Alison Moore, 2016-08-04 This book provides a twenty first century perspective on Roman Britain combining current

approaches with the wealth of archaeological material from the province This volume introduces the history of research into the province and the cultural changes at the beginning and end of the Roman period The majority of the chapters are thematic dealing with issues relating to the people of the province their identities and ways of life Further chapters consider the characteristics of the province they lived in such as the economy and settlement patterns This Handbook reflects the new approaches being developed in Roman archaeology and demonstrates why the study of Roman Britain has become one of the most dynamic areas of archaeology The book will be useful for academics and students interested in Roman Britain

Housing in Late Antiquity Luke Lavan, Lale Özgenel, Alexander Constantine Sarantis, 2007 This collection of papers arising from the conference series Late Antique Archaeology examines the housing in the late antique period through thematic and regional syntheses complemented by case studies and two bibliographic essays

Style and Function in Roman Decoration Ellen Swift, 2018-04-19 This important book puts forward a new interpretation of Roman decorative art focusing on the function of decoration in the social context It examines the three principal areas of social display and conspicuous consumption in the Roman world social space entertainment and dress and discusses the significance of the decoration of objects and interiors within these contexts drawing examples from both Rome and its environs and the Western provinces from the early Imperial period to Late Antiquity Focusing on specific examples including mosaics and other interior and silver plate glass and pottery vessels and jewellery and other dress accessories Swift demonstrates the importance of decoration in creating and maintaining social networks and identities and fostering appropriate social behaviour and its role in perpetuating social convention and social norms It is argued that our understanding of stylistic change and the relationship between this and the wider social context in the art of the Roman period is greatly enhanced by an initial focus on the particular social relationships fostered by decorated objects and spaces The book demonstrates that an examination of so called minor art is fundamental in any understanding of the relationship between art and its social context and aims to reinvigorate debate on the value of decoration and ornament in the Roman period and beyond

The Cambridge Companion to Ancient Rome Paul Erdkamp, 2013-09-05 Rome was the largest city in the ancient world As the capital of the Roman Empire it was clearly an exceptional city in terms of size diversity and complexity While the Colosseum imperial palaces and Pantheon are among its most famous features this volume explores Rome primarily as a city in which many thousands of men and women were born lived and died The thirty one chapters by leading historians classicists and archaeologists discuss issues ranging from the monuments and the games to the food and water supply from policing and riots to domestic housing from death and disease to pagan cults and the impact of Christianity Richly illustrated the volume introduces groundbreaking new research against the background of current debates and is designed as a readable survey accessible in particular to undergraduates and non specialists

Gendering Roman Imperialism, 2022-10-24 For more than fifty years the standard debates about Roman Imperialism were written more or less entirely in terms of male agency male competition and male

participation Not only have women been marginalized in these narratives as just so much collateral damage but there has been little engagement with gender history more widely with the linkages between masculinity and warfare with the representation of relations of power in terms of gender differentials with the ways social reproduction entangled the production of gender and the production of empire This volume explores how we might gender Roman Imperialism

Peterborough and the Soke Ron Baxter, Jackie Hall, Claudia Marx, 2019-07-03 The British Archaeological Association Conference held at Peterborough in 2015 provided a welcome opportunity for a new analysis of the cathedral's architecture sculpture and artistic production and a reassessment of the relationship between the former abbey the city and its institutions and the Soke over which it held sway This ambitious volume casts new light on the Roman occupation of the Nene valley and the rich Anglo Saxon sculptural and manuscript context that preceded the construction of the present cathedral as well as exploring the vital Romanesque tradition of the Soke and the essential contribution of the Barnack quarries But inevitably the most exciting new disclosures concern the church its high quality building campaigns during the 12th to 16th centuries its abbots tombs and the reconstruction of the lost 14th century High Altar screen from descriptions and loose fragments Peterborough has attracted the attention of antiquarian scholars since its sacking by Cromwell's men during the Civil War and as its secrets are gradually revealed it continues to stimulate the historical imagination *The*

Ancient Art of Emulation Elaine K. Gazda, 2002 Are copies of Greek and Roman masterpieces as important as the originals they imitate **Housing in the Ancient Mediterranean World** J. A. Baird, April Pudsey, 2022-07-21 One of the greatest benefits of studying the ancient Greek and Roman past is the ability to utilise different forms of evidence in particular both written and archaeological sources The contributors to this volume employ this evidence to examine ancient housing and what might be learned of identities families and societies but they also use it as a methodological locus from which to interrogate the complex relationship between different types of sources Chapters range from the recreation of the house as it was conceived in Homeric poetry to the decipherment of a painted Greek lekythos to build up a picture of household activities to the conjuring of the sensorial experience of a house in Pompeii Together they present a rich tapestry which demonstrates what can be gained for our understanding of ancient housing from examining the interplay between the words of ancient texts and the walls of archaeological evidence **An End to Enmity** L. L. Welborn, 2011-10-27 An End to Enmity

casts light upon the shadowy figure of the wrongdoer of Second Corinthians by exploring the social and rhetorical conventions that governed friendship enmity and reconciliation in the Greco Roman world The book puts forward a novel hypothesis regarding the identity of the wrongdoer and the nature of his offence against Paul Drawing upon the prosopographic data of Paul's Corinthian epistles and the epigraphic and archaeological record of Roman Corinth the author shapes a robust image of the kind of individual who did Paul wrong and caused pain to both Paul and the Corinthians The concluding chapter reconstructs the history of Paul's relationship with an influential convert to Christianity at Corinth

Across Space and Time Patrick Haughey, 2017-07-12 Modernity tends to be considered a mostly Western chronologically recent concept Looking at locations in Brazil Java India Georgia and Yugoslavia among others *Across Space and Time* provides architectural and cultural evidence that modernity has had an impact across the globe and for much longer than previously conceived This volume moves through space and time to illustrate the way global modernity has been negotiated through architecture urban planning design pedagogies preservation and art history in diverse locations around the world Bringing together emerging and established architecture and art history scholars each chapter focuses on a particular site where modernity was defined challenged or reinterpreted The contributors examine how architectures landscapes and design thinking influence and are influenced by conflicts between cultural economic technological and political forces By invoking well researched histories to ground their work in a post colonial critique they closely examine many prevailing myths of modernity Notable topics include emerging architectural history in the Indian subcontinent and the connection between climate change and architecture Ultimately *Across Space and Time* contributes to the ongoing critique of architecture and its history both as a discipline and within the academy The authors insist that architecture is more than a style It is a powerful expression of representational power that reveals how a society negotiates its progress **A**
