Romania A Developing Socialist State:

Romania Lawrence S Graham,1982-02-14 **Romania In The 1980s** Daniel N. Nelson,2019-06-04 Among communist states Romania is in several respects a unique case Romania has been the only Warsaw Pact member to deviate consistently from Soviet foreign policy norms and alone within Eastern Europe to avoid oil imports from the USSR The leadership of Nicolae Ceausescu since 1965 has meanwhile governed through a studious commitment to socio economic centralization and control often reminiscent of Stalinist orthodoxy Intellectual freedom artistic liberty and workers rights have changed little relative to Poland Hungary or the transient Prague Spring Such international and domestic policy distinctions as well as a record of impressive industrial growth necessitate an effort to understand the dynamics of Romania s socio economic and political life This volume is meant to delineate trends in political social and economic life which will constitute dynamic elements for the Romanian system during the 1980s and beyond Contributors all scholars with lengthy research experience in Romania the Balkans and communist states generally have sought to identify factors likely to be influential during this and ensuing decades In that sense this is a predictive volume containing not crystal ball gazing but the careful identification and assessment of trends influencing Romanian foreign and domestic policies economic and political performance and societal transformations By suggesting elements crucial to socio economic and political change in Romania we hope to make observing this intriguing communist state somewhat less haphazard and more systematic **Romania** ,1973 *The East European Economy in Context* David Turnock,2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In *The East European Economy in Context* Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism *The East European Economy in Context* provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change **Romanian Politics in the Ceausescu Era** Daniel N. Aalbers,2024-07-19 This book examines the progression of real estate development within the deindustrialization financialization nexus It explores the roles it has in semi peripheral contexts such as Romania where it overlaps with the process of the transformation of state

socialism into neoliberal capitalism viewed at the intersection of global national and local forces The book focuses on real estate development in Romania as a product and a driver of capitalism It contributes to ongoing debates in critical urban theories and Marxist perspectives in urban sociology Focusing on the under researched East European region it decenters social research and fine tunes the political economy theory about state and economic restructuring The book contains methodological and theoretical insights that are useful in other contexts beyond Romania and Central and Eastern Europe especially in other semi peripheral emerging markets The focus of critical inquiry into capitalist transformations adopted in this book can also support political activism It uncovers the varieties of the deindustrialization financialization nexus in real estate built on the dismantled pre 1990 socialist industrial plants The chapters describe the advancement of real estate investments across second and third tier cities displaying uneven development and subordinate financialization at the intersection of local and global processes and political and economic actors It will be of interest to researchers and students of urban sociology economic sociology political economy human geography and political geography Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Romanian Mass Media and Cultural Development

David Berry, 2017-07-05 This compelling book assesses the development of the mass media since the Romanian Revolution in December 1989 and the media's impact on cultural development the public sphere civil society and democracy It controversially claims that Romania's failure to experience a thoroughgoing enlightenment project in its entire history remains a major obstacle for producing democratic ownership of the media and democratic development of society Analyzing both the print and broadcast media and their respective effects on development the book also discusses the effects of Romanian law on media and societal development ethics and media responsibilities It concludes however that far from having an absolutely negative impact on Romanian post communism the media has helped produce a contradictory empirical form that equally contains positive moments in terms of subjective cultural development

Development Policies of Central and Eastern European States Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13 The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics IR and development studies The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors The journey from recipients of aid to aid donors is interesting because not only does it tell us about development policy in CEE states this policy area gives us an insight into governmental structures in CEE states foreign policy priorities public opinion the role of NGOs civil society and how well CEE states have taken on board the EU acquis the EU's rule book The book also explores whether the development cooperation programmes of the majority of CEESs reflect the so called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism It also explores the extent to which these donors are aligned with the approaches of the

DAC donors Finally by extending the scrutiny to the bottom up development activities of non state actors and public opinion the book will analyse the dynamics of the solidarity of the former East with the global South This book was published as a special issue of Perspectives on European Politics and Society

Aspects of Independent Romania's Economic History with Particular Reference to Transition for EU Accession Professor David Turnock,2013-06-28 After fifteen years of transition in the former communist states of Central and Eastern Europe it has become clear that for a substantial number the objective of reform and restructuring process is a market system in line with membership of the EU In this study the long term economic transformation of Romania is studied offering a detailed narrative and thematic account of events from the nineteenth to the twenty first centuries From the first steps towards large scale industrialisation begun prior to the First World War through the accelerated pace set by the communist regime after 1945 and the uncertainty following its subsequent collapse in 1989 the book addresses a wide range of pertinent issues that have shaped Romania s economic development The study also offers an interpretation of a distinctive phase in the modernisation of post communist Romania supported by economic historical surveys of the proceeding century as a context for recent restructuring on the eve of EU accession This is linked with trends in the region as a whole so that a broad perspective is maintained throughout the book By highlighting Romania s position as one of more backward accession states and considering in what ways its experience during transition differs from the more developed states of the region this study offers a valuable insight into both the history of Romania and its future prospects Furthermore it provides a valuable case study that can be compared and contrasted with other countries who are likewise still grappling with the legacy of a centralised economy and in the process of adopting a more market orientated approach in order to gain EU membership As such this study will be of interest not only to historians and economists but anyone with an interest in the expansion of the European Union

The Space of Boredom Bruce O'Neill,2017-03-09 In The Space of Boredom Bruce O Neill explores how people cast aside by globalism deal with an intractable symptom of downward mobility an unshakeable and immense boredom Focusing on Bucharest Romania where the 2008 financial crisis compounded the failures of the postsocialist state to deliver on the promises of liberalism O Neill shows how the city s homeless are unable to fully participate in a society that

is increasingly organized around practices of consumption Without a job to work a home to make or money to spend the homeless who include pensioners abandoned by their families and the state struggle daily with the slow deterioration of their lives O'Neill moves between homeless shelters and squatter camps black labor markets and transit stations detailing the lives of men and women who manage boredom by seeking stimulation from conversation and coffee to sex in public restrooms or going to the mall or IKEA Showing how boredom correlates with the downward mobility of Bucharest's homeless O'Neill theorizes boredom as an enduring affect of globalization in order to provide a foundation from which to rethink the politics of alienation and displacement

The Soviet Bloc In The Imf And The Ibrd Valerie J Assetto, 2019-07-11 In this book the author surveys performance of the Soviet Bloc states in the International Monetary Fund IMF and the International Bank for Reconstruction and Development IBRD for evidence of unusual levels of assistance using aggregate data obtained from IMF and IBRD sources

Communism in Eastern Europe Teresa Rakowska-Harmstone, 1984

The Romanian Revolution of December 1989 Peter Siani-Davies, 2007 The Romanian Revolution of 1989 was the most spectacularly violent and remains today the most controversial of all the East European upheavals of that year Despite or perhaps because of the media attention the revolution received it remains shrouded in mystery How did the seemingly impregnable Ceausescu regime come to be toppled so swiftly and how did Ion Iliescu and the National Salvation Front come to power Was it by coup d'état Who were the mysterious terrorists who wreaked such havoc on the streets of Bucharest and the other major cities of Romania Were they members of the notorious securitate What was the role of the Soviet Union Blending narrative with analysis Peter Siani-Davies seeks to answer these and other questions while placing the events and their immediate aftermath within a wider context Based on fieldwork conducted in Romania and drawing heavily on Romanian sources including television and radio transcripts official documents newspaper reports and interviews this book is the most thorough study of the Romanian Revolution that has appeared in English or any other major European language Recognizing that a definitive history of these events may be impossible Siani-Davies focuses on the ways in which participants interpreted the events according to particular scripts and myths of revolution rooted in the Romanian historical experience In the process the author sheds light on the ways in which history and the conflicting retellings of the 1989 events are put to political use in the transitional societies of Eastern Europe
