Despite the prejudices of critics popular romance fiction remains a complex dynamic genre. It consistently maintains the largest market share in the American publishing industry even as it welcomes new subgenres like queer and BDSM romance. Digital publishing originated in erotic romance and savvy online communities have exploded myths about the genre's readership. Romance scholarship now reflects this diversity transformed by interdisciplinary scrutiny, new critical approaches, and an unprecedented international dialogue between authors, scholars, and fans. These eighteen essays investigate individual romance novels, authors, and websites; rethink the genre's history and explore its interplay of convention and originality. By offering new twists in enduring debates, this collection inspires further inquiry into the emerging field of popular romance studies.

Consumerism and Prestige Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts such as the cover, binding, typography, and paper stock reflect or even determine their cultural status. In many cases, for example, the distinctions between highbrow and lowbrow taste have little to do with the content of the texts themselves; as books often function as markers of socioeconomic status like clothing or home decor. One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment. The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology, literacy, and social power.

Sociology in Everyday Life David Allen Karp, William C. Yoels, Barbara Holcombe Vann, 2004 *Masculinities in Post-Millennial Popular Romance* Eirini

Arvanitaki, 2022-05-12 This book focuses on the projection of the hero's masculinity in a selection of post-millennial popular romance narratives and attempts to discover if and to what extent this projection reinforces or challenges patriarchal ideas about gender. In the majority of these narratives, the hero is often presented as a hegemonic alpha male. However, hegemonic masculinity is not a fixed concept. Rather, it is subject to continuous change, which allows for the emergence of various dominant masculinities. Under a poststructuralist lens and through a close textual analysis approach and a gender reading of romance narratives, the book suggests that to a certain extent the romance hero could be described as a platform onto which different forms of dominant masculinity are displayed and highlights that these masculinities do not necessarily clash, depend on, or function as a prerequisite for each other.
