The Form of Greek Romance B. P. Reardon,2014-07-14 In the early Roman Empire a new literary genre began to flourish mainly in the Greek world prose fiction or romance Broadly defined as a love story that offers adventure and a romantic vision of life this form of literature emerged long after the other genres and until recently seemed hardly worthy of critical attention Here B P Reardon addresses the growing interest in ancient fiction by providing a literary and cultural framework in which to understand Greek romance and by demonstrating its importance as an artistic and social phenomenon Beginning with a discussion of Chariton s Chaereas and Callirhoe Reardon sets out the generic characteristics of the romance He then moves through a wide range of works including those of Longus and Heliodorus and reveals their sophistication in terms of social observation technique within a convention and the stance adopted by the authors toward their own creations Although antiquity left behind little discussion of the genre Reardon shows how romance can be assessed within its time period by considering the practice of narrative in other Greek literature and the concept of fiction in antiquity Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

English Romantic Hellenism, 1700-1824 Timothy Webb,1982 *Epic and Romance* William Paton Ker,1897 Love Simon May,2019-03-12 What is love s real aim Why is it

so ruthlessly selective in its choice of loved ones Why do we love at all In addressing these questions Simon May develops a radically new understanding of love as the emotion we feel towards whomever or whatever we experience as grounding our life as offering us a possibility of home in a world that we supremely value He sees love as motivated by a promise of ontological rootedness rather than as two thousand years of tradition variously asserts by beauty or goodness by a search for wholeness by virtue by sexual or reproductive desire by compassion or altruism or empathy or in one of today's dominant views by no qualities at all of the loved one After arguing that such founding Western myths as the Odyssey and Abraham's call by God to Canaan in the Bible powerfully exemplify his new conception of love May goes on to re-examine the relation of love to beauty sex and goodness in the light of this conception offering among other things a novel theory of beauty and suggesting against Plato that we can love others for their ugliness while also seeing them as beautiful Finally he proposes that in the Western world romantic love is gradually giving way to parental love as the most valued form of love namely the love without which one's life is not deemed complete or truly flourishing May explains why childhood has become sacred and excellence in parenting a paramount ideal as well as a litmus test of society's moral health In doing so he argues that the child is the first genuinely modern supreme object of love the first to fully reflect what Nietzsche called the death of God

Romantic Epics and the Mission of Empire Matthew

Leporati, 2023-11-16 The British Romantic period saw an unprecedented explosion in epic poems an understudied literary phenomenon that enabled writers to address unique historical tensions of the era Long associated with empire epic revived at a time when Britain was expanding its imperial reach and when the concept of imperialism itself began to evolve into the notion of a benevolent project of spreading British culture and religion across the globe Matthew Leporati argues that the epic revival not only reflects but also interrogates this evangelical turn The first to examine the impact of the missionary work on epic literature this book offers sustained analysis of both under read and canonical works bringing fresh historical and literary contexts to bear on our understanding of this unique revival of epic poetry This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Grotesque Anatomies David Musgrave, 2014-10-16

Grotesque Anatomies is a study of Menippean satire in English since the Renaissance It consists of revisionist close readings of canonical works such as Eliot's *The Waste Land* and Pope's *Dunciad* among others and investigates how identifying them as Menippean satires changes our understanding of them The initial chapter offers a comprehensive account of the form from antiquity to the present day identifying its bifurcated development in the shorter form Seneca Lucian Julian and the longer more encyclopedic form Varro Petronius Boethius and their subsequent fusion during the Renaissance It also contains

an account of the critical reception of the genre with the term Menippean satire first being used by Justus Lipsius in 1581 Finally Menippean satire is described as a literary version of the grotesque and a brief theory of the grotesque in the modern period as radical heterogeneity is outlined This is also the foundation of a new definition of Menippean satire drawing on previous definitions by Frye Bakhtin and Kirk and revising them for the modern period The following chapters examine iconic works as examples of Menippean satire and of the grotesque Chapter 2 offers an overview of the nose in Menippean satire and comic literature generally and reads Rushdie's *Midnight's Children* in this context It also gives an account of metaphor as a grotesque transformation Chapter 3 examines the figure of the stomach in Menippean satire and symposiastic literature and reads Peacock's *Gryll Grange* in this context The link between the stomach as a figure of thinking in comic literature is the basis for an account of symbolic structuring as grotesque association Chapter 4 is a close reading of the scatological imagery of Pope's *Dunciad* and how scatology generally tends towards a cyclical metaphysics It also relates changes in print technology and copyright laws to the reticular scatological structure of the *Dunciad* Chapter 5 argues for Eliot's *The Waste Land* as a Menippean satire focusing on the rhetorical figure of the enthymeme as a missing premise as an example of undermindedness and as an ironic aspect of the fragmentation typical of late Romantic Menippean satires Chapter 6 examines Urquhart's eccentric *The Jewel* as a satire on the referential function of language reading it in the context of projections for a universal language from this period The final chapter identifies some key works by Derrida and Barthes as Menippean satires noting the resurgence of the form in some postmodern and deconstructive writing
