Romantic Love And Sexual Behavior Perspectives From The Social Sciences:

Romantic Love and Sexual Behavior Victor C. de Munck, 1998-04-16 Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated **Sex**

Offenders and the Internet Dennis Howitt, Kerry Sheldon, 2009-09-28 Online the opportunity to commit a crime is never more than a few clicks away *Sex Offenders and the Internet* explores the nature of online sex offenders in order to help practitioners understand and treat this new category of client Kerry Sheldon and Dennis Howitt examine the research base by reviewing case studies and psychological profiles with a particular focus on paedophilic Internet sex offenders Issues covered include child pornography the often overlooked excuses for paedophilia and how we can move forward The result is a book that comprehensively details the nature of Internet sex offenders bringing together the relevant research into one essential volume *Sexuality in Adolescence* Susan Moore, Doreen Rosenthal, Susan M. Moore, Doreen A.

The Structure of Digital Partner Choice Andreas Schmitz, 2016-11-01 This work approaches the modern phenomenon of online dating examining the ways people make use of its technical and social potential In particular the users mate preferences choices strategies and interactions are analyzed using the innovative method of click stream observations and web questionnaire data For the purpose of these analyses two major theories are used an explicit theory of individual mate choice and the more general relational theory developed by Pierre Bourdieu which helps to highlight the social structures both underlying and resulting from mating online Results show that online dating is not a partner market free from social

structure but that the traditional social conditions found offline are also reproduced in this virtual setting In contrast to the picture drawn by media discourse and advertising online dating represents a partner market which fulfills the promise of happiness in a socially differential way

Romantic Love in Cultural Contexts Victor Karandashev, 2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought

provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations Flix Neto Professor of Psychology Faculdade de Psicologia e de Ciências da Educação Universidade do Porto Portugal Intimacies William R.
