Romantic Predicament:

The Romantic Predicament Geoffrey Thurley, 1983-01-01 *Critical Writings* Paul De Man, Twenty five essays and reviews not previously collected most of which were written before 1970 and eight of which are appearing in English for the first time Valuable for the insights they afford into his development as a critic the essays are also significant in addressing de Man's consistent views of romanticism modernism and the dilemmas central to literature in recent centuries **Romantic Generations** Lene Østermark-Johansen, 2003 Unlike the first two volumes of *ANGLES* on the English Speaking World this special issue does not originate in a set of conference papers The idea of compiling a collection of essays on Romanticism emerged from the unusually strong concentration on Romantic studies among the graduate students of the English Department a couple of years ago This volume places their work in the context of distinguished international scholars of greater seniority scholars who have become academic contacts through conferences and assessment committees and whose contributions I am very pleased to be able to include alongside the works of local contributors The Romantic generations of the title of this volume thus strike a number of different chords generations of scholars in Romantic studies conventional divisions of Romantic poets into first second and possibly third generations the self generative aspect of Romanticism the awareness of poetic reputation and the image and afterlife of the poet The collection spans just over a hundred years from the 1780s to the 1890s and while not in any way attempting to define Romanticism or raise issues of periodization the volume allows for the continued existence of Romantic features right until the end of the nineteenth century Poetry looms large in this issue of *ANGLES* apart from Ian Duncan's essay on Hume Scott and the Rise of Fiction all the other essays are in some way concerned with the Romantic poet and his poetry The Romantic poet is thus represented as a collector and editor of ballads as a political radical and printmaker as other to himself essentially ignorant of the process of poetic composition as a rival and collaborator with other poets or as a poet long dead the subject of successive generations of poetic lament The boundaries between poetry and the visual arts is explored in a couple of the essays indeed the rivalry between portraiture and literature pervades no less than three of the contributions and no matter whether the subject of inquiry is the image of the poet or the image of the poet's mother the Romantic poet displays a high degree of self consciousness with respect to both literary and visual media Romantic generations generate both selves and others in poetry and portraiture

Romanticism and the Human Sciences Maureen N. McLane, 2000-09-14 This study published in 2000 examines the dialogue between Romantic poetry and the human sciences of the period Maureen McLane reveals how Romantic writers participated in a new found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy political economy and anthropology Writers such as Wordsworth Coleridge Mary Shelley and Percy Shelley explored the possibilities and limits of human being language and hope They engaged with the work of theorists of the human sciences Malthus Godwin and Burke among them The book offers original readings of canonical works including

Lyrical Ballads *Frankenstein* and *Prometheus Unbound* to show how the Romantics internalised and transformed ideas about the imagination perfectibility immortality and population which so energised contemporary moral and political debates McLane provides a defence of poetry in both Romantic and contemporary theoretical terms reformulating the predicament of Romanticism in general and poetry in particular *Karen Tei Yamashita* A. Robert Lee, 2018-04-30 Karen Tei Yamashita's novels essays and performance scripts have garnered considerable praise from scholars and reviewers and are taught not only in the United States but in at least half a dozen countries in Asia South America and Europe Her work has been written about in numerous disciplines in the humanities and social sciences Karen Tei Yamashita *Fictions of Magic and Memory* is the first anthology given over to Yamashita's writing It contains newly commissioned essays by established international scholars a recent interview with the author a semiautobiographical keynote address delivered at an international conference that ruminates on her Japanese American heritage and a full bibliography The essays offer fresh and in depth readings of the magic realist canvas of *Through the Arc of the Rain Forest* 1990 the Japanese emigrant portraiture of Brazil *Maru* 1992 Los Angeles as rambunctious geopolitical and transnational fulcrum of the Americas in *Tropic of Orange* 1997 the fraught relationship of Japanese and Brazilian heritage and labor in *Circle K Cycles* 2001 Asian American history and politics of the 1960s in *I Hotel* 2010 and *Anime Wong* 2014 a gallery of performativity illustrating the contested and inextricable nature of East and West This essay collection explores Yamashita's use of the fantastical the play of emerging transnational ethnicity and the narrative tactics of reflexivity and bricolage in storytelling located on a continuum of the unique and the communal of the past and the present and that are mapped in various spatial and virtual realities [Selected Essays of John Berger](#) John Berger, 2008-12-10 The writing career of Booker Prize winner John Berger poet storyteller playwright and essayist has yielded some of the most original and compelling examinations of art and life of the past half century In this essential volume Geoff Dyer has brought together a rich selection of many of Berger's seminal essays Berger's insights make it impossible to look at a painting watch a film or even visit a zoo in quite the same way again The vast range of subjects he addresses the lean beauty of his prose and the keenness of his anger against injustice move us to view the world with a new lens of awareness Whether he is discussing the singleminded intensity of Picasso's *Guernica* the parallel violence and alienation in the art of Francis Bacon and Walt Disney or the enigmatic silence of his own mother what binds these pieces throughout is the depth and fury of Berger's passion challenging us to participate to protest and above all to see *The Fate of Progress in British Romanticism* Mark Canuel, 2022-03-10 What did Romantic writers mean when they wrote about progress and perfection This book shows how Romantic writers inventively responded to familiar ideas about political progress which they inherited from the eighteenth century Whereas earlier writers such as Voltaire and John Millar likened improvements in political institutions to the progress of the sciences or refinement of manners the novelists poets and political theorists examined in this book reimagined politically progressive thinking in multiple genres While embracing a commitment to

optimistic improvement increasing freedom equality and protection from injury they also cultivated increasingly visible and volatile energies of religious and political dissent Earlier narratives of progress tended not only to edit and fictionalize history but also to agglomerate different modes of knowledge and practice in their quest to describe and prescribe uniform cultural improvement But romantic writers seize on internal division and take it less as an occasion for anxiety exclusion or erasure and more as an impetus to rethink the groundwork of progress itself Political entities from Percy Shelley s plans for political reform to Charlotte Smith s motley associations of strangers in *The Banished Man* are progressive because they advance some version of collective utility or common good But they simultaneously stake a claim to progress only insofar as they paradoxically solicit contending vantage points on the criteria for the very public benefit which they passionately pursue The majestic edifices of Wordsworth s imagined university in *The Prelude* embrace members who are republican or pious not to mention the recalcitrant enthusiast who is the poet himself

A SECULAR AGE Charles TAYLOR, 2009-06-30 The place of religion in society has changed profoundly in the last few centuries particularly in the West In what will be a defining book for our time Taylor takes up the question of what these changes mean and what precisely happens when a society becomes one in which faith is only one human possibility among others

Landscapes John Berger, 2018-11-06 Essential reading n 1 Creative and political art criticism on landscape works from the Renaissance to the present from a master storyteller Arundhati Roy author of *The God of Small Things* In this brilliant collection of diverse pieces essays short stories poems translations which spans a lifetime s engagement with art John Berger reveals how he came to his own unique way of seeing He pays homage to the writers and thinkers who influenced him such as Walter Benjamin Rosa Luxemburg and Bertolt Brecht His expansive perspective takes in artistic movements and individual artists from the Renaissance to the present while never neglecting the social and political context of their creation Berger pushes at the limits of art writing demonstrating beautifully how his artist s eye makes him a storyteller in these essays rather than a critic With landscape as an animating liberating metaphor rather than a rigid definition this collection surveys the aesthetic landscapes that have informed challenged and nourished John Berger s understanding of the world *Landscapes* alongside its companion *Portraits* completes a tour through the history of art that will be an intellectual benchmark for many years to come

Thought's Wilderness Greg Ellermann, 2022-09-06 While much recent ecocriticism has questioned the value of nature as a concept *Thought's Wilderness* insists that it is analytically and politically indispensable and that romanticism shows us why Without a concept of nature Greg Ellermann argues our thinking is limited to the world that capitalism has made Defamiliarizing the tradition of romantic nature writing Ellermann contends that the romantics tried to circumvent the domination of nature that is essential to modern capitalism As he shows poets and philosophers in the period such as Immanuel Kant G W F Hegel Mary Wollstonecraft William Wordsworth and Percy Shelley were highly attuned to nature s ephemeral ungraspable forms clouds of vapor a trace of ruin deep silence and the world surrounding ether Further he explains how nature s vanishing its

vulnerability and its flight from apprehension became a philosophical and political problem In response to a nascent industrial capitalism romantic writers developed a poetics of wilderness a poetics that is attentive to fleeting presence and that seeks to let things be Trying to imagine what ultimately eludes capture the romantics recognized the complicity between conceptual and economic domination and they saw how thought itself could become a technology for control This insight Ellermann proposes motivates romantic efforts to think past capitalist instrumentality and its devastation of the world Ultimately this new work undertakes a fundamental rethinking of the aesthetics and politics of nature **Walter Pater** Richmond Crinkley,2021-11-21 This provocative study suggests that Pater usually thought of as a florid prose stylist and second rate adjunct to the Esthetic Movement is in reality an articulate prophet of the twentieth century Pater s work the book indicates shows a consistent concern with the transmission of humanism from one generation to the next through the medium of art The link in that transmission is the human image in a milieu the appearance of man as manifested in painting sculpture prose poetry or drama Pater s fiction as well as his criticism strives to create a milieu extracting both what is unique and what is constant from that milieu His treatment of humanism has seemed introverted bizarre almost obsessional but he prefigured the concerns of such writers as Joyce and Yeats and his esthetic has become an accepted part of our mid twentieth century intellectual structure *The Russian Kurosawa* Olga V. Solovieva,2023-04-03 The Russian Kurosawa offers a new historical perspective on the work of the renowned Japanese film director Akira Kurosawa It uncovers Kurosawa s debt to the intellectual tradition of Japanese Russian democratic dissent reflected in the affinity for Kurosawa s worldview expressed by such Russian directors as Grigory Kozintsev and Andrei Tarkovsky Through a detailed discussion of the Russian subtext of Kurosawa s cinema most clearly manifested in the director s films based on Dostoevsky Tolstoy Gorky and Arseniev the book shows that Kurosawa used Russian intertexts to deal with the most politically sensitive topics of postwar Japan Locating the director in the cultural tradition of Russian inflected Japanese anarchism the book challenges prevalent views of Akira Kurosawa as an apolitical art house director or a conformist studio filmmaker of muddled ideological alliances by offering a philosophically consistent picture of the director s participation in postwar debates on cultural and political reconstruction *The Edge of Knowing* Roy Bing Chan,2016-11-01 Reveals the historical impact of dream rhetoric on Chinese modernity and nation building Realism and the rhetoric of dreams intersected in modern Chinese literature from the May Fourth Era in the early twentieth century through the period just following the end of the Cultural Revolution in 1976 The Edge of Knowing investigates this relationship showing how writers attention to dreams demonstrates the multiple influences of Western psychology utopian desire for revolutionary change and the enduring legacy of traditional Chinese philosophy At the same time modern Chinese writers used their work to represent social reality for the purpose of nation building Recent political usage of dream rhetoric in the People s Republic of China attests to the continuing influence of dreams on the imagination of Chinese modernity By employing a number of critical perspectives The Edge of Knowing will

appeal to readers seeking to understand the complicated relationship between literary form and Chinese history and politics

Alterities Thomas Docherty, 1996 *Alterities* marks an advance to a new stage of critical theory Dealing with literature from Shakespeare and Donne to Calvino with philosophy from the medieval to the contemporary with cinema from popular to art film and with political theory from Marx to Lyotard Baudrillard and Badiou Thomas Docherty intervenes in all the major contemporary cultural debates to propose and practice a new criticism whose theoretical foundations lie in a postmodern ethics ecopolitics and an austere attention to the radical difficulties of art Bound together by the cohesive drive of Docherty's intelligence and the coerciveness of the arguments he enlarges about alterity and historicity *Alterities* rehabilitates the question of why we bother about art and proposes new modes of critical engagement with contemporary culture

Singularities Thomas Adam Pepper, 1997-06-28 The possibility of literary theory has been repeatedly put at risk by the apparently simple question What is a literary text Throughout the twentieth century the epistemological status of literature the problem of language's claim to true representation has challenged our received notions of ontology and being Thus the question What is literature has frequently sponsored highly philosophical interrogations of our inherited ways of comprehending the external world In *Singularities* Thomas Pepper addresses the relationship between textuality value and critical difficulty In a rich sequence of

nuanced close readings of especially demanding philosophical and literary texts Singularities addresses key moments in Adorno Blanchot de Man Derrida Foucault Althusser Levinas and Celan By offering a critique of the very process of thematic reading this book addresses the whole question of truth and being language and value in a series of readings of sustained critical power
