Romanticism, Nationalism, and the Revolt Against Theory David Simpson, 1993-06 Why has Anglo American culture for so long regarded theory with intense suspicion In this important contribution to the history of critical theory David Simpson argues that a nationalist myth underlies contemporary attacks on theory Theory's antagonists Simpson shows invoke the same criteria of common sense and national solidarity as did the British intellectuals who rebelled against theory and method during the French Revolution Simpson demonstrates the close association between theory and method and shows that by the mid eighteenth century method had acquired distinctly subversive associations in England Attributed increasingly to the French and the Germans method paradoxically evoked images both of inhuman rationality and unbridled sentimentality in either incarnation it was seen as a threat to what was claimed to be authentically British Simpson develops these paradigms in relation to feminism the gendering of Anglo American culture and the emergence of literature and literary criticism as antitheoretical discourses He then looks at the Romantic poets response to this confining ideology of the cultural role of literature Finally Simpson considers postmodern theory's claims for the radical energy of nonrational or antirationalist positions This is an essential book not only for students of the Romantic period and intellectual historians concerned with the idea of method but for anyone interested in the historical background of today's debates over the excesses and possibilities of theory

From Romanticism to Critical Theory Andrew Bowie, 1997 From Romanticism to Critical Theory explores the philosophical origins of literary theory via the tradition of German philosophy that began with the Romantic reaction to Kant It traces the continuation of the Romantic tradition of Novalis Friedrich Schlegel and Schleiermacher in Heidegger's approaches to art and truth and in the Critical Theory of Benjamin and Adorno Andrew Bowie argues against many current assumptions that the key aspect of literary theory is not the demonstration of

how meaning can be deconstructed but rather the revelation of how questions of language and literature change modern philosophical conceptions of truth He shows how the dialogue between literary theory hermeneutics and analytical philosophy can profit from a re examination of the understanding of language truth and literature in modern German philosophy From Romanticism to Critical Theory will provide a vital new introduction to central theoretical questions for students of philosophy literature German studies cultural and social theory Romantic Theory Leon Chai,2006-07-31 Winner of the Jean Pierre Barricelli Prize given by the International Conference on Romanticism This original study explores the new idea of theory that emerged in the wake of the French Revolution Leon Chai sees in the Romantic age a significant movement across several broad fields of intellectual endeavor from theoretical concepts to an attempt to understand how they arise He contends that this movement led to a spatial treatment of concepts the primacy of development over concepts and the creation of metatheory or the formal analysis of theory Chai begins with P B Shelley on the need for conceptual framework or theory He then considers how Friedrich Wolf and Friedrich Schlegel shift from a preoccupation with antiquity to a heightened self awareness of Romantic nostalgia for that lost past He finds a similar reflexivity in Napoleon s battle plan at Jena and subsequently in Hegel s move from substance to subject Chai then turns to the sciences Xavier Bichat s rejection of the idea of a unitary vital principle for life as process the chemical theory of matter developed by Humphry Davy and the work of variste Galois whose proof of the solvability of equations using radicals ushered in the age of metatheory Chai concludes with reactions to theory Coleridge s proposal of the conflict between reason and understanding as a model of theory Mary Shelley s effort to replace theory with a different kind of relationship to external others and Hlderlin s reflection on the limits of representation and the possibility of fulfillment beyond it **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray,2004 Review Written to stress the crosscurrent of ideas this cultural encyclopedia provides clearly written and authoritative articles Thoughts themes people and nations that define the Romantic Era as well as some frequently overlooked topics receive their first encyclopedic treatments in 850 signed articles with bibliographies and coverage of historical antecedents and lingering influences of romanticism Even casual browsers will discover much to enjoy here The Top 20 Reference Titles of the Year American Libraries May 2004 **The Literary Absolute** Philippe Lacoue-Labarthe,Jean-Luc Nancy,Distinguished Professor of Philosophy Jean-Luc Nancy,1988-01-01 The first authoritative study of the emergence of the modern concept of literature in German romanticism The Theory of the Novel in Early German Romanticism Diana Behler,1978 One of the most significant aspects of the critical revolution brought about by the early romantic school in Germany is undoubtedly the highlighting of the novel as the reigning genre in modern literary consciousness Future oriented divinatory ideas about new possibilities for novelistic art were developed which not only influenced the entire period of romanticism but also left their imprint upon modern literary endeavors as well On the basis of the most recent critical editions of their works including a wealth of posthumous fragments the present study attempts to

develop the theory of the novel according to the leading critics of the romantic school Friedrich Schlegel and Novalis and to relate it to the larger concept of poetry of the early romantics

Fantastic Modernity Orrin N. C.
