Romanticism Economics The Question Of Culture:

Romanticism, Economics and the Question of 'culture' Philip Connell, 2005 Drawing upon a wide range of source material this study reassesses the idea that the Romantic defence of spiritual and humanistic culture developed as a reaction to the perceived individualistic philistine values of the science of political economy **The Romanticism Handbook** Sue Chaplin, Joel Faflak, 2011-03-10 A one stop resource containing introductory material through to practical case studies in reading primary and secondary texts to introducing criticism and new directions in research *Romanticism, Economics and the Question of 'culture'* Philip Connell, 2001 Drawing upon a wide range of source material this study reassesses the idea that the Romantic defence of spiritual and humanistic culture developed as a reaction to the perceived individualistic philistine values of the science of political economy **Economics, Culture and Development** Eiman O. Zein-Elabdin, 2017-09-19 This book examines the treatment of culture and development in the discipline of economics thereby filling a conspicuous gap in current literature Economics has come a long way to join the cultural turn that has swept the humanities and social sciences in the last half century This volume identifies some of the issues that major philosophies of economics must address to better grasp the cultural complexity of contemporary economies This book is an extensive survey of the place of culture and development in four theoretical economic perspectives Neoclassical Marxian Institutional and Feminist Organized in nine chapters with three appendices and a compendium of over 50 interpretations of culture by economists this book covers vast grounds from classical political economy to contemporary economic thought The literatures reviewed include original and new institutionalism cultural economics postmodern Marxism economic feminism and the current culture and development discourse on subjects such as economic growth in East Asia businesswomen entrepreneurs in West Africa and comparative development in different parts of Europe Zein Elabdin carries the project further by borrowing some of the insights from postcolonial theory to call for a more profound rethinking of the place of culture and of currently devalued cultures in economic theory This book is of great interest for those who study Economic development International relations feminist economics and Economic geography *Romanticism and the Gold Standard A*. Dick, 2013-04-08 Through a close analysis of the pamphlets reviews lectures journalism editorials poems and novels surrounding the introduction of the gold standard in 1816 this book examines the significance of monetary policy and economic debate to the culture and literature of Britain during the age of Romanticism *Romantic Periodicals in the Twenty-First Century* Mason Nicholas Mason, 2020-09-04 Maps a coherent subfield of Romantic periodical studies through studying the trailblazing Blackwood's Edinburgh Magazine An introduction by two established scholars that articulates a case for the more sustained systematic study of Romantic periodicals and justifies the volume's focus by retracing Blackwood's emergence as the era's most innovative influential and controversial literary magazine Features eleven essays modelling how the wide ranging commentary reviews and original fiction and verse published in Blackwood's during its first two decades

1817-37 might meaningfully inform many of the most vibrant contemporary discussions surrounding British Romanticism. Contributes to field-wide bicentenary celebrations and reappraisals both of Blackwood's and the authors and works including Shelley's *Frankenstein*, Byron's *Don Juan* and Keats's *Poems* whose reputations the magazine helped shape. This book pioneers a subfield of Romantic periodical studies distinct from its neighbours in adjacent historical periods. Eleven chapters by leading scholars in the field model the range of methodological, conceptual and literary-historical insights to be drawn from careful engagements with one of the age's landmark literary periodicals, Blackwood's *Edinburgh Magazine*. Engaging with the research potential unlocked by new digital resources for studying Romantic periodicals, they argue that the wide-ranging commentary, reviews and original fiction and verse published in Blackwood's during its first two decades (1817-37) should inform many of the most vibrant contemporary discussions surrounding British Romanticism. *The Routledge Companion to Victorian Literature* Dennis Denisoff, Talia Schaffer, 2019-11-11. The Routledge Companion to Victorian Literature offers 45 chapters by leading international scholars working with the most dynamic and influential political, cultural and theoretical issues addressing Victorian literature today. Scholars and students will find this collection both useful and inspiring. Rigorously engaged with current scholarship that is both historically sensitive and theoretically informed, the Routledge Companion places the genres of the novel, poetry and drama and issues of gender, social class and race in conversation with subjects like ecology, colonialism, the Gothic, digital humanities, sexualities, disability, material culture and animal studies. This guide is aimed at scholars who want to know the most significant critical approaches in Victorian studies, often written by the very scholars who helped found those fields. It addresses major theoretical movements such as narrative theory, formalism, historicism and economic theory as well as Victorian models of subjects such as anthropology, cognitive science and religion. With its lists of key works, rich cross-referencing, extensive bibliographies and explications of scholarly trajectories, the book is a crucial resource for graduate students and advanced undergraduates while offering invaluable support to more seasoned scholars.

Romanticism, Medicine and the Natural Supernatural Gavin Budge, 2012-10-17. This fascinating interdisciplinary study examines the relationship between literary interest in visionary kinds of experience and medical ideas about hallucination and the nerves in the first half of the nineteenth century, focusing on canonical Romantic authors, the work of women writers influenced by Romanticism and visual culture.

The Known Economy Colin Danby, 2017-06-26. Why do critics and celebrants of globalization concur that international trade and finance represent an inexorable globe-bestrident force with a single logic? The Known Economy shows that both camps rest on the same ideas about how the world is scaled. Two centuries ago, romantic and rationalist theorists concurred that the world was divided into discrete nations moving at different rates toward a modernity split between love and money. Though differing over whether this history is tragedy or triumph, they united in projecting an empty international space in which a Moloch-like global capitalism could lurk. The Known Economy tracks the colonial development of national accounting and re-examines the ways

gender and heteronormativity are built in to economic representation It re interprets the post WWII spread of standardized economic statistics as the project of international organizations looking over the shoulders of national governments rather than the expanding power of national governments over populations

Blind and Blindness in Literature of the Romantic Period Edward Larrissy, 2007-06-19 In the first full length literary historical study of its subject Edward Larrissy examines the philosophical and literary background to representations of blindness and the blind in the Romantic period In detailed studies of literary works he goes on to show how the topic is central to an understanding of British and Irish Romantic literature While he considers the influence of Milton and the Ossian poems as well as of philosophers including Locke Diderot Berkeley and Thomas Reid much of the book is taken up with new readings of writers of the period These include canonical authors such as Blake Wordsworth Scott Byron Keats and Percy and Mary Shelley as well as less well known writers such as Charlotte Brooke and Ann Batten Cristall There is also a chapter on the popular genre of improving tales for children by writers such as Barbara Hofland and Mary Sherwood Larrissy finds that despite the nostalgia for a bardic age of inward vision the chief emphasis in the period is on the compensations of enhanced sensitivity to music and words This compensation becomes associated with the loss and gain involved in the modernity of a post bardic age Representations of blindness and the blind are found to elucidate a tension at the heart of the Romantic period between the desire for immediacy of vision on the one hand and on the other the historical self consciousness which always attends it

of Starving in Victorian Literature, Medicine, and Political Economy Andrew Mangham,2020-04-24 The Science of Starving in Victorian Literature Medicine and Political Economy is a reassessment of the languages and methodologies used throughout the nineteenth century for discussing extreme hunger in Britain Set against the providentialism of conservative political economy this study uncovers an emerging dynamic way of describing literal starvation in medicine and physiology No longer seen as a divine punishment for individual failings starvation became in the human sciences a pathology whose horrific symptoms registered failings of state and statute Providing new and historically rich readings of the works of Charles Kingsley Elizabeth Gaskell and Charles Dickens this book suggests that the realism we have come to associate with Victorian social problem fiction learned a vast amount from the empirical materialist objectives of the medical sciences and that within the mechanics of these intersections we find important re examinations of how we might think about this ongoing humanitarian issue *The 'Invisible Hand' and British Fiction, 1818-1860* E. Courtemanche,2011-04-12 The invisible hand

Adam Smith s metaphor for the morality of capitalism is explored in this text as being far more subtle and intricate than is usually understood with many British realist fiction writers Austen Dickens Gaskell Eliot having absorbed his model of ironic causality in complex societies and turned it to their own purposes *Look Round for Poetry* Brian McGrath,2022-05-17 Poetry is dead Poetry is all around us Both are trite truisms that this book exploits and challenges In his 1798 Advertisement to Lyrical Ballads William Wordsworth anticipates that readers accustomed to the poetic norms of the day might not recognize his experiments as poems and might signal their awkward confusion upon opening the book by looking round for poetry as if seeking it elsewhere Look Round for Poetry transforms Wordsworth s idiomatic expression into a methodological charge By placing tropes and figures common to Romantic and Post Romantic poems in conjunction with contemporary economic technological and political discourse Look Round for Poetry identifies poetry s untimely echoes in discourses not always read as poetry or not always read poetically Once one begins looking round for poetry McGrath insists one might discover it in some surprising contexts In chapters that spring from poems by Wordsworth Lucille Clifton John Keats and Percy Bysshe Shelley McGrath reads poetic examples of understatement alongside market demands for more the downturned brow as a figure for economic catastrophe Romantic cloud metaphors alongside the rhetoric of cloud computing the election of the dead as a poetical and not just a political act and poetic investigations into the power of prepositions as theories of political assembly For poetry to retain a vital power McGrath argues we need to become ignorant of what we think we mean by it In the process we may discover critical vocabularies that engage the complexity of social life all around us [The](#)

Romantic Legacy of Charles Dickens Peter Cook, 2018-08-29 This book explores the relationship between Dickens and canonical Romantic authors Blake Wordsworth Coleridge Byron Percy and Mary Shelley and Keats Addressing a significant gap in Dickens studies four topics are identified Childhood Time Progress and Outsiders which together constitute the main aspects of Dickens's debt to the Romantics Through close readings of key Romantic texts and eight of Dickens's novels Peter Cook investigates how Dickens utilizes Romantic tropes to express his responses to the exponential growth of post revolutionary industrial technological culture and its effects on personal life and relationships In this close study of Dickensian Romanticism Cook demonstrates the enduring relevance of Dickens and the Romantics to contemporary culture

Radical Spaces Christina Parolin, 2010-12-01 RADICAL SPACES explores the rise of popular radicalism in London between 1790 and 1845 through key sites of radical assembly the prison the tavern and the radical theatre Access to spaces in which to meet agitate and debate provided those excluded from the formal arenas of the political nation the great majority of the population a crucial voice in the public sphere RADICAL SPACES utilises both textual and visual public records private correspondence and the secret service reports from the files of the Home Office to shed new light on the rise of plebeian radicalism in the metropolis It brings the gendered nature of such sites to the fore finding women where none were thought to gather and reveals that despite the diversity in these spaces there existed a dynamic and symbiotic relationship between radical culture and the sites in which it operated These venues were both shaped by and helped to shape the political identity of a generation of radical men and women who envisioned a new social and political order for Britain

Representations of the Gypsy in the Romantic Period Sarah Houghton-Walker, 2014-10-16 In early eighteenth century texts the gypsy is frequently figured as an amusing rogue by the Victorian period it has begun to take on a nostalgic romanticized form abandoning sublimity in favour of the bucolic fantasy propagated by George Borrow and the founding members of the Gypsy Lore Society *Representations of the Gypsy in the Romantic Period* argues that in the gap between these two situations the figure of the gypsy is exploited by Romantic period writers and artists often in unexpected ways Drawing attention to prominent writers including Wordsworth Austen Clare Cowper and Bront as well as those less well known Sarah Houghton Walker examines representations of gypsies in literature and art from 1780 1830 alongside the contemporary socio historical events and cultural processes which put pressure on those representations She argues that raising troubling questions by its repeated escape from the categories of enlightenment discourses which might seek to know or understand in empirical ways the gypsy exists both within and outside of conventional English society The figure of the gypsy is thus available to writers and artists to facilitate the articulation of dilemmas and anxieties taking various forms and especially as a lens through which questions of knowledge and identity which is often mutable and troubling might be focussed
