Rommel Drives On Deep Into Egypt:

Rommel Drives on Deep Into Egypt Richard Brautigan,1970 Rommel Drives on Deep into Egypt is Richard Brautigan's eighth poetry publication and includes 58 poems The title of the book echoes a 1942 San Francisco Chronicle headline describing a successful operation by Rommel during the North African Campaign of World War II Wikipedia viewed April 27 2021 **Chicorel Index to Poetry in Anthologies and Collections in Print** Marietta Chicorel,1974 *Die at the Right Time!* Eric v.d. Luft,2009-09-21 Parts will make you laugh parts will make you think parts will make you angry parts will make you sick Go for it all **Jubilee Hitchhiker** William Hjortsberg,2012-04-01 Confident and robust Jubilee Hitchhiker is an comprehensive biography of late novelist and poet Richard Brautigan author of Troutfishing in America and A Confederate General from Big Sur among many others When Brautigan took his own life in September of 1984 his close friends and network of artists and writers were devastated though not entirely surprised To many Brautigan was shrouded in enigma erratic and unpredictable in his habits and presentation But his career was formidable an inspiration to young writers like Hjortsberg trying to get their start Brautigan's career wove its way through both the Beat influenced San Francisco Renaissance in the 1950s and the Flower Power hippie movement of the 1960s while he never claimed direct artistic involvement with either period Jubilee Hitchhiker also delves deeply into the spirited times in which he lived As Hjortsberg guides us through his search to uncover Brautigan as a man the reader is pulled deeply into the writer's world Ultimately this is a work that seeks to connect the Brautigan known to his fans with the man who ended his life so abruptly in 1984 while revealing the close ties between his writing and the actual events of his life Part history part biography and part memoir this etches the portrait of a man destroyed by his genius **Robert Creeley's Life and Work** John Wilson,1987 A critical retrospective of Creeley's work from 1952 to 1982 **Knowing Fear** Jason Colavito,2007-11-26 Tracing the development of horror entertainment since the late 18th century this study argues that scientific discovery technological progress and knowledge in general have played an unparalleled role in influencing the evolution of horror Throughout its many subgenres biological horror cosmic horror and others and formats film literature comics horror records humanity's uneasy relationship with its own ability to reason understand and learn The text first outlines a loose framework defining several distinct periods in horror development then explores each period sequentially by looking at the scientific and cultural background of the period its expression in horror literature and its expression in horror visual and performing arts **No Requiem for the Space Age** Matthew D. Tribbe,2014-06-06 During the summer of 1969 the summer Americans first walked on the moon musician and poet Patti Smith recalled strolling down the Coney Island Boardwalk to a refreshment stand where pictures of Jesus President Kennedy and the astronauts were taped to the wall behind the register Such was the zeitgeist in the year of the moon Yet this holy trinity of 1960s America would quickly fall apart Although Jesus and John F Kennedy remained iconic by the time the Apollo Program came to a premature end just three years later few Americans mourned its passing Why did

support for the space program decrease so sharply by the early 1970s Rooted in profound scientific and technological leaps rational technocratic management and an ambitious view of the universe as a realm susceptible to human mastery the Apollo moon landings were the grandest manifestation of postwar American progress and seemed to prove that the United States could accomplish anything to which it committed its energies and resources To the great dismay of its many proponents however NASA found the ground shifting beneath its feet as a fierce wave of anti rationalism arose throughout American society fostering a cultural environment in which growing numbers of Americans began to contest rather than embrace the rationalist values and vision of progress that Apollo embodied Shifting the conversation of Apollo from its Cold War origins to larger trends in American culture and society and probing an eclectic mix of voices from the era including intellectuals religious leaders rock musicians politicians and a variety of everyday Americans Matthew Tribbe paints an electrifying portrait of a nation in the midst of questioning the very values that had guided it through the postwar years as it began to develop new conceptions of progress that had little to do with blasting ever more men to the moon No Requiem for the Space Age offers a narrative of the 1960s and 1970s unlike any told before with the story of Apollo as the story of America itself in a time of dramatic cultural change

Between Science and Literature Ira Livingston,2010-10-01 Between Literature and Science follows through to its emerging 21st century future the central insight of 20th century literary and cultural theory that language and culture along with their subsystems and artifacts are self referential systems The book explores the workings of self reference and the related performativity in linguistic utterances and assorted texts through examples of the more open social discursive systems of post structuralism and cultural studies and into the sciences where complex systems organized by recursive self reference are now being embraced as an emergent paradigm This paradigmatic convergence between the humanities and sciences is autopoetics adapting biologist Hubert Maturana s term for self making systems and it signals a long term epistemological shift across the nature culture divide so definitive for modernity If cultural theory has taught us that language because of its self referential nature cannot bear simple witness to the world the new paradigmatic status of self referential systems in the natural sciences points toward a revived kinship of language and culture with the world language bears witness to the world The main movement of the book is through a series of model explications and analyses operational definitions of concepts and terms more extended case studies vignettes and thought experiments designed to give the reader a feel for the concepts and how to use them while working to expand the autopoetic interneer by putting cultural self reference in dialogue with the self organizing systems of the sciences Along the way the reader is introduced to self reference in epistemology Foucault sociology Luhmann biology Maturana Varela Kauffman and physics and cosmology Smolin Livingston works through the fundamentals of cultural literary and science studies and makes them comprehensible to a non specialist audience
