Nathan Neuharth, *Native Provenance* Gerald Vizenor, 2019-09-01 Gerald Vizenor's *Native Provenance* challenges readers to consider the subtle ironies at the heart of Native American culture and oral traditions such as creation and trickster stories and dream songs. A respected authority in the study of Native American literature and intellectual history, Vizenor believes that the protean nature of many creation stories with their tease and weave of ironic gestures was lost or obfuscated in inferior translations by scholars and cultural connoisseurs and as a result the underlying theories and presuppositions of these renditions persist in popular literature and culture. *Native Provenance* explores more than two centuries of such betrayal of native creativity. With erudite and sweeping virtuosity, Vizenor examines how ethnographers and others converted the inherent confidence of native stories into uneasy sentiments of victimry. He explores the connection between Native Americans and Jews through gossip theory and strategies of cultural survivance and between natural motion and ordinary practices of survivance. Other topics include the unique element of native liberty inherent in artistic milieus, the genre of visionary narratives of resistance and the notions of historical absence, cultural nihilism, and victimry. *Native Provenance* is a tour de force of Native American cultural criticism ranging widely across the terrains of the artistic, literary, philosophical, linguistic, historical, ethnographic, and sociological aspects of interpreting native stories. *Native Provenance* is rife with poignant and original observations and is essential reading for anyone interested in Native American cultures and literature.

Archetypes in Japanese Film Gregory Barrett, 1989 This study examines the significance of the archetypal heroes and heroines of Japanese cinema and traces both their prior development in literature, drama, and folklore and their subsequent variations in popular culture. **Tortured** Suzanne E. Lang, 2017-08-01 She'll do anything to find her brother, even torture a man for answers, but can she handle it when he decides to return the favor? Steph's brother has gone missing and she's found a guy who might have answers, but he's not coughing up the goods. A little torture will loosen Gavin's tongue. But when pain doesn't work, she relies on seduction to get him to talk. Except her plan to tease him into giving her answers backfires, and when Gavin gets loose, he's out for revenge and pleasure. The New Larned History for Ready Reference, Reading and Research Josephus Nelson Larned, 1924 **The Power of Urban Water** Nicola Chiarenza, Annette Haug, Ulrich Müller, 2020-05-05 Water is a global resource for modern societies and water was a global resource for pre-modern societies. The many different water systems serving processes of urbanisation and urban life in ancient times and the Middle Ages have hardly been researched until now. The numerous contributions to this volume pose questions such as: what the basic cultural significance of water was, the power of water in the town and for the town from different points of view. Symbolic, aesthetic, and cult aspects are taken up, as is the role of water in politics, society, and economy in daily life, but also in processes of urban planning or in urban neighbourhoods. Not least, the dangers of polluted water or of flooding presented a challenge to urban society. The contributions in this volume draw attention to the complex manifold relations between water and human beings.

This collection presents the results of an international conference in Kiel in 2018 It is directed towards both scholars in ancient and mediaeval studies and all those interested in the diversity of water systems in urban space in ancient and mediaeval times

Barker, Christopher Courault, Javier Á. Domingo, Dominik Maschek, 2023-07-13 21 papers focus on modelling the costs of construction over the course of 2 500 years from Bronze Age Greece to the early Middle Ages They discuss both broader issues of methodology and particular case studies with particular attention to the exploitation of raw materials e g quarries transport and construction processes on building sites *Danger's Hour* Maxwell Taylor Kennedy, 2009-11-03 Drawing on years of research and firsthand interviews with both American and Japanese survivors Maxwell Taylor Kennedy draws a gripping portrait of men bravely serving their countries in war and the advent of a terrifying new weapon suicide bombing that nearly halted the most powerful nation in the world In the closing months of World War II Americans found themselves facing a new weapon kamikazes the first men to use airplanes as suicide weapons By the beginning of 1945 facing imminent invasion Japan turned to its most idealistic young men and demanded of them the greatest sacrifice On May 11 1945 days after Germany's surrender the USS Bunker Hill with thousands of crewmen and the most sophisticated naval technology available was 70 miles off the coast of Okinawa when pilot Kiyoshi Ogawa flew his plane into the ship killing 393 Americans in the worst suicide attack against America until September 11 From publisher description *Surviving Rome* Kim Bowes, 2025-11-04 A radical revision and worker's eye view of everything we thought we knew about the ancient Roman economy The story of ancient Rome is predominantly one of great men with great fortunes Surviving Rome unearths another history one of ordinary Romans who worked with their hands and survived through a combination of grit and grinding labor Focusing on the working majority Kim Bowes tells the stories of people like the tenant farmer Epimachus Faustilla the moneylender and the pimp Philokles She reveals how the economic changes of the period created a set of bitter challenges and opportunistic hustles for everyone from farmers and craftspeople to day laborers and slaves She finds working people

producing a consumer revolution making and buying all manner of goods from fine pottery to children's toys. Many of the poorest working people probably pieced together a living from multiple sources of income including wages. And she suggests that Rome's most daunting challenge was the struggle to save. Like many modern people saving enough to buy land or start a business was a slow precarious slog. Bowes shows how these economies of survival were shared by a wide swath of the populace blurring the lines between genders, ages and legal status. Drawing on new archaeological and textual evidence, *Surviving Rome* presents a radical new perspective on the economy of ancient Rome while speaking to the challenges of today's laborers and gig workers surviving in an unforgiving global world.

Tribe of Legend: Book 1 The Awakening Markee Drummer, 2021-02-22. *Tribe of Legend Book 1 The Awakening* is an epic coming of age story highlighting the bond between a brother and sister living in the inner cities of South Florida. The pair of siblings strive to discover who they are while taking on staggering social stereotypes and stigmas placed upon them by society and institutions in their surrounding environment. Fighting to carve out and take hold of their own individual identities, the young teenagers will soon find themselves on an arduous journey of growth. An ordinary outing in the city on a Friday evening for the brother and sister with friends suddenly turns into a nightmarish gauntlet of running into reality-breaking encounters and mysteries that will challenge the unity and loyalties of close relationships. In addition, it reveals to the siblings that the world around them has much more beyond its veil to show them than what the average eyes will allow itself to see and lost secrets of the past affecting the balance of the cosmos are directly linked to the siblings.

Capital, Investment, and Innovation in the Roman World Paul Erdkamp, Koenraad Verboven, Arjan Zuiderhoek, 2020-02-18. Investment in capital, both physical and financial, and innovation in its uses are often considered the linchpin of modern economic growth, while credit and credit markets now seem to determine the wealth as well as the fate of nations. Yet was it always thus? The Roman economy was large, complex and sophisticated, but in terms of its structural properties, did it look anything like the economies we know and are familiar with today? Through consideration of the allocation and uses of capital and credit and the role of innovation in the Roman world, the individual essays comprising this volume go straight to the heart of the matter, exploring such questions as how capital in its various forms was generated, allocated and employed in the Roman economy, whether the Romans had markets for capital goods and credit, and whether investment in capital led to innovation and productivity growth. Their authors consider multiple aspects of capital use in agriculture, water management, trade and urban production, and of credit provision, finance and human capital, covering different periods of Roman history and ranging geographically across Italy and elsewhere in the Roman world. Utilizing many different types of written and archaeological evidence and employing a range of modern theoretical perspectives and methodologies, the contributors, an expert international team of historians and archaeologists, have produced the first book-length contribution to focus exclusively on physical and financial capital in the Roman world, a volume that is aimed not only at specialists in the field but also at economic historians and archaeologists.
