Study in Tone and Vision Donald Stone (jr.),1966 *Voice and Vision in Ronsard's Les Sonnets Pour Helene* Jean M. Music, Authorship, and the Book in the First Century of Print Kate van Orden, 2013-10-19 What does it mean to author a piece of music What transforms the performance scripts written down by musicians into authored books In this fascinating cultural history of Western music's adaptation to print Kate van Orden looks at how musical authorship first developed through the medium of printing When music printing began in the sixteenth century publication did not always involve the composer printers used the names of famous composers to market books that might include little or none of their music Publishing sacred music could be career building for a composer while some types of popular song proved too light to support a reputation in print no matter how quickly they sold Van Orden addresses the complexities that arose for music and musicians in the burgeoning cultures of print concluding that authoring books of polyphony gained only uneven cultural traction across a century in which composers were still first and foremost performers

Grafting Helen Matthew Gumpert, 2012-11 History is a love story a tale of desire and jealousy abandonment and fidelity abduction and theft rupture and reconciliation This contention is central to Grafting Helen Matthew Gumpert's original and dazzling meditation on Helen of Troy as a crucial anchor for much of Western thought and literature Grafting Helen looks at classicism the privileged rhetorical language for describing cultural origins in the West as a protracted form of cultural embezzlement No coin in the realm has been more valuable more circulated more coveted or more counterfeited than the one that bears the face of Helen of Troy Gumpert uncovers Helen as the emblem for the past as something to be stolen appropriated imitated extorted and coveted once again Tracing the figure of Helen from its classical origins through the Middle Ages the French Renaissance and the modern era Gumpert suggests that the relation of current Western culture to the past is not like the act of coveting it is the act of coveting he argues for it relies on the same strategies the same defenses the same denials and the same delusions
