Roosevelt Lewis And The New Deal 1933-1940:

Class Struggle and the New Deal Rhonda F. Levine, 1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR's policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle

Historical Dictionary of the Great Depression, 1929-1940 James S. Olson, 2001-09-30 Today when most Americans think of the Great Depression they imagine desperate hoboes riding the rails in search of work unemployed men selling pencils to indifferent crowds bootleggers hustling illegal booze to secrecy shrouded speakeasies FDR smiling or Judy Garland skipping along the yellow brick road Hard times have become an abstraction But there was a time when economic suffering was real when hunger stalked the land and Americans tried to forget their troubles in movie theaters or in front of a radio From the stock market crash of October 1929 to Germany's invasion of Norway France and the Low Countries in 1940 the Great Depression blanketed the world economy Its impact was particularly deep and direct in the United States This was the era when the federal government became a major player in the national economy and Americans bestowed the responsibility for maintaining full employment and stable prices on Congress and the White House making the Depression years a major watershed in U S history In more than 500 essays this book provides a ready reference to those hard times covering the diplomacy popular culture intellectual life economic problems public policy issues and prominent individuals of the era

An Appalachian New Deal Jerry Bruce Thomas, 1998-01-01 The Depression had already begun in West Virginia before the stock market crash of November 1929 and lasted until the coming of war in 1941 In tracing the responses of the people and government of West Virginia during the Depression historian Jerry Thomas not only deals with politics and institutions but also tells about ordinary people during the worst conditions in the state's history 18 photos

Burton K Wheeler 1882 1975 may have been the most powerful politician Montana ever produced and he was one of the most influential and controversial members of the United States Senate during three of the most eventful decades in American history A New Deal Democrat and lifelong opponent of concentrated power whether economic military or executive he consistently acted with a righteous personal and political independence that has all but disappeared from the public sphere *Political Hell Raiser* is the first book to tell the full story of Wheeler a genuine maverick whose successes and failures were woven into the political fabric of twentieth century America Wheeler came of political age amid antiwar and labor unrest in Butte Montana during World War I As a crusading United States attorney he battled Montana s powerful economic interests championed farmers and miners and won election to the U S Senate in 1922 There he made his name as one of the Montana scandalmongers uncovering corruption in the Harding and Coolidge administrations Drawing on extensive research and new archival sources Marc C Johnson follows Wheeler from his early backing of Franklin D Roosevelt and ardent support of the New Deal to his forceful opposition to Roosevelt s plan to expand the Supreme Court and in a move widely viewed as political suicide his emergence as the most prominent spokesman against U S involvement in World War II right up to three days before Pearl Harbor Johnson provides the most thorough telling of Wheeler s entire career including all its accomplishments and contradictions as well as the political storms that the senator both encouraged and endured The book convincingly establishes the place and importance of this principled hell raiser in American political history Roosevelt, Lewis, and the New Deal Charles K. History of America from 1876 1973 Annual Report of the American Historical Association American Historical Association, 1985 *American Orators of the Twentieth Century* Bernard K. Duffy, Halford Ross Ryan, 1987 A collection of encyclopedia styled essays on 58 leading political social and religious speakers American Orators of the Twentieth Century fills an enormous void in the literature on American public address Each assesses the orator's impact on American life and delineates such aspects of his or her speaking as argumentation style persuasive techniques delivery and methods of speech preparation Appended to each essay is a chronology of the orator's major speeches and a list of information sources that includes leading research collections speech anthologies critical studies and biographies Given the large number of contributors the entries are remarkably even in coverage and clarity On the whole the editors have achieved a sensible balance among mainstream political leaders religious orators and spokesmen and spokeswomen for a variety of historical and contemporary causes If we judge the book on the quality of the essays it contains rather than on the alternative speakers it might have included it deserves high marks Scrupulously edited superbly produced and splendidly bound it will be the standard reference work on its subject for years to come Amazon.com
