Communities, Neighborhoods, and Health Linda M. Burton, Susan P. Kemp, ManChui Leung, Stephen A. Matthews, David T. Takeuchi, 2011-02-15 Place is an important element in understanding health and health care disparities More than merely a geographic location place is a socio ecological force with detectable effects on social life independent well being and health Despite the general enthusiasm for the study of place and the potential it could have for a better understanding of the distribution of health in different communities research is at a difficult crossroads because of disagreements in how the construct should be conceptualized and measured This edited volume incorporates a cross disciplinary approach to the study of place in order to come up with a comprehensive and useful definition of place Topics covered include Social Inequalities Historical Definitions of Place Biology and Place Rural vs Urban Places Racialization of a Place Migration Sacred Places Technological Innovations An understanding of place is essential for health care professionals as interventions often do not have the same effects in the clinic as they do in varied naturalistic social settings

21st Century Sociology: A Reference Handbook Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description

Examining International Land Use Policies, Changes, and Conflicts Hasnat, G. N. Tanjina, Hossain, Mohammed Kamal, 2020-11-06 Though conflicts continue to arise over land use and land cover changes the conversion of forest land to cropland or other land uses such as housing and urban development have

been on the rise in recent years. Decisions regarding land use and land cover influence climate change as well as various natural processes. While proper changes can minimize the effects and speed of climatic changes, the continued adverse changes may be accelerating the deterioration of the world's condition. *Examining International Land Use Policies: Changes and Conflicts* presents the latest research on the present status of land use and land cover changes throughout the world in order to determine appropriate land use policies that can protect earth's present and future condition. The findings of the studies investigate the conflicts behind the land tenure and land uses in different countries of the world and examines existing policies and the reasons behind changes in them. Ultimately, the book provides readers with knowledge on how land can be managed in a sustained manner, how landscape models are helpful for predicting and determining future land uses, how land can be managed with the best architectural measures, and how urban forestry is helpful for better environmental management and adapting or mitigating climate change effects. Land users, agriculturalists, urban planners, policymakers, government officials, researchers, academicians, and students looking to improve their understanding of this topic for better use of land in the future will find this book to be an asset to their current research. *The New Encyclopedia of Southern Culture*

Larry J. Griffin, Peggy G. Hargis, Charles Reagan Wilson, 2012-07-01. This volume of *The New Encyclopedia of Southern Culture* offers a timely, authoritative, and interdisciplinary exploration of issues related to social class in the South from the colonial era to the present. With introductory essays by J. Wayne Flynt and by editors Larry J. Griffin and Peggy G. Hargis, the volume is a comprehensive stand-alone reference to this complex subject which underpins the history of the region and shapes its future. In 58 thematic essays and 103 topical entries, the contributors explore the effects of class on all aspects of life in the South: its role in Indian removal, the Civil War, the New Deal, and the civil rights movement, for example, and how it has been manifested in religion, sports, country and gospel music, and matters of gender. Artisans and the working class, indentured workers and steelworkers, the Freedmen's Bureau and the Knights of Labor are all examined. This volume provides a full investigation of social class in the region and situates class concerns at the center of our understanding of Southern culture. *Companion to Urban and Regional Studies*, Anthony M. Commercial Poultry Production on Maryland's Lower Eastern Shore Solomon I. Omo-Osagie, 2012-06-07 Commercial Poultry Production on Maryland's Lower Eastern Shore traces the beginnings and development of commercial poultry production in this very important region African Americans were mainly involved in poultry production on the labor supply side which was crucial to the expansion of the industry Commercial

poultry production expanded through vertical integration acquisitions mergers and consolidations and became the dominant economic activity on the Lower Maryland Eastern Shore in the 1950s Throughout the years the industry has intermixed with public health and the environment These integrations were problematic on several fronts as the industry sought to maintain a much needed economic lifeline for the region and yet protect public health and ensure a sustainable environment at the same time In all commercial poultry production has continued to fuel the local economy of the Lower Maryland Eastern Shore since its inception in the 1930s **The Impact of Racism on African American Families** Paul C. Rosenblatt,2016-03-03

In spite of the existence of statistics and numerical data on various aspects of African American life including housing earnings assets unemployment household violence teen pregnancy and encounters with the criminal justice system social science literature on how racism affects the everyday interactions of African American families is limited How does racism come home to and affect African American families If a father in an African American family is denied employment on the basis of his race or a wife is demeaned at work by racist slurs how is their family life affected Given the lack of social science literature responding to these questions this volume turns to an alternative source in order to address them literature Engaging with novels written by African American authors it explores their rich depictions of African American family life showing how these can contribute to our sociological knowledge and making the case for the novel as an object and source of social research As such it will appeal to scholars and students of the sociology of the family race and ethnicity cultural studies and literature **Southern Cultures** Harry L. Watson,Jocelyn Neal,2010-04-01 In the Spring 2010 issue of Southern Cultures we float down the Redneck Riviera with Harvey H Jackson III and along Roanoke Island with Bland Simpson we cross the border with Susan Harbage Page we examine gender and sexuality at the Citadel with Steve Estes and we consider our sense of place with William W Falk and Susan Webb Southern Cultures is published quarterly spring summer fall winter by the University of North Carolina Press The journal is sponsored by the University of North Carolina at Chapel Hill s Center for the Study of the American South **Economic Ethics & the Black Church** Wylin D.

Wilson,2017-09-07 This book examines the relationship between race religion and economics within the black church The book features unheard voices of individuals experiencing economic deprivation and the faith communities who serve as their refuge Thus this project examines the economic ethics of black churches in the rural South whose congregants and broader communities have long struggled amidst persistent poverty Through a case study of communities in Alabama s Black Belt this book argues that if the economic ethic of the Black Church remains accommodationist it will continue to become increasingly irrelevant to communities that experience persistent poverty Despite its historic role in combatting racial oppression and social injustice the Church has also perpetuated ideologies that uncritically justify unjust social structures Wilson shows how the Church can shift the conversation and reality of poverty by moving from a legacy of accommodationism and toward a legacy of empowering liberating economic ethics **Queer South Rising** Reta Ugena Whitlock,2013-03-01 Queer South

Rising Voices of a Contested Place is a collection of essays about the South by people who identify as both Southern and queer. The collection's name hints at the provocative nature of its contents, placing Queer and South side by side, challenges readers to think about each word differently. The idea that a queer South might rise undermines the Battle Cry of The South's Gonna Rise Again, embedded in the collective memory of a conservative South. This rising does not refer to a kind of Enlightenment transcendence where the region achieves some sort of distinctive prominence. It suggests instead ruptures like furrows in a plowed field where seeds are sown. The rising Whitlock envisions is akin to breaking and turning over meanings of Southern place. The title further serves to remind readers of the complexities of the place as it calls into question notions of a universal homogenous LGBT queer identity. Queer South Rising is the first truly interdisciplinary collection of essays on the South and queerness that deliberately aims for multiple approaches to the topics. This collection is intended for a wide audience of regular folks. Essays explore multiple intersections of Southern place, religion, politics, sexuality, race, education that transcend regional boundaries. This book counters conventional scholarly texts; it invites all readers interested in the South and queer themes to engage with the narratives it holds and perhaps question their assumptions. Whitlock has sought in collecting these essays to seek out a diverse group of authors across disciplines, professions, and interests to shatter perceptions about a nostalgic romanticized Southern culture in general.

Singlewide Sonya Salamon, Katherine MacTavish, 2017-10-15 In *Singlewide* Sonya Salamon and Katherine MacTavish explore the role of the trailer park as a source of affordable housing. America's trailer parks, most in rural places, shelter an estimated 12 million people, and the authors show how these parks serve as a private solution to a pressing public need. *Singlewide* considers the circumstances of families with school-age children in trailer parks serving whites in Illinois, Hispanics in New Mexico, and African Americans in North Carolina. By looking carefully at the daily lives of families who live side by side in rows of manufactured homes, Salamon and MacTavish draw conclusions about the importance of housing, community, and location in the families' dreams of opportunities and success as signified by eventually owning land and a conventional home. Working poor rural families who engage with what Salamon and MacTavish call the mobile home industrial complex may become caught in an expensive trap starting with their purchase of a mobile home. A family that must site its trailer in a land-lease trailer park struggles to realize any of the anticipated benefits of homeownership. Seeking to break down stereotypes, Salamon and MacTavish reveal the important place that trailer parks hold within the United States' national experience. In so doing, they attempt to integrate and normalize a way of life that many see as outside the mainstream, suggesting that families who live in trailer parks rather than being trailer trash culturally resemble the parks' neighbors who live in conventional homes.

Something in These Hills John M. Coggeshall, 2022-09-07 What is the something in these hills that ties mountain families to family land in the southern Appalachians? This ethnographic examination challenges contemporary theory and explores two interrelated themes: the duality of the southern Appalachians as both a menacing and majestic landscape and the emotional relationship to family

land characteristic of long term residents of these mountains To most outsiders the area conjures images of a beautiful yet dangerous place typified by the movie Deliverance To long term residents these mountains have a fundamental emotional hold so powerful that many mourn the sale or loss of family land as if it were a deceased relative How can the same geographical space be both Using a carefully crafted cultural lens John M Coggeshall explains how family land anthropomorphizes metaphorically becoming another member of kin groups He establishes that this emotional sense of place existed prior to recent land losses contrary to some contemporary scholars Utilizing the voices and perspectives of long term residents the book provides readers with a more fundamental understanding of the something in these hills that holds people in place
