Roots Of National Socialism:

The Cultural Roots of National Socialism Hermann Glaser, 2019-06-26 Originally published in 1978 this book discusses some of the most important problems of 20th Century The central concern of the volume is the deep rooted provincialism which has pervaded the German cultural scene since the middle of the 19th Century The causes and consequences of cultural developments which made the most tragic period of German history possible are reflected upon in this outstanding work *The Roots of National Socialism, 1783-1933* Rohan d'Olier Butler, 1968 *The Russian Roots of Nazism* Michael Kellogg, 2005-05-12 This book analyses the contributions of White migr s anti Bolshevik Russian exiles to Nazism Scientific Origins of National Socialism Daniel Gasman, "The" Roots of National Socialism Rohan D'Olier Butler, 1961 *The Roots of National Socialism* Rohan d'Olier Butler, 1942 **Catholicism and the Roots of Nazism** Derek Hastings, 2011 Derek Hastings illuminates an important and largely overlooked aspect of Nazi history revealing National Socialism s close early ties with Catholicism in the years immediately after World War I when the movement first emerged Jacket **The Occult in National Socialism** Stephen E. Flowers, 2022-09-20 A critical history of the roots of Nazi occultism and its continuing influence Explores the occult influences on various Nazi figures including Adolf Hitler Albert Speer Rudolf Hess Alfred Rosenberg and Heinrich Himmler Examines the foundations of the movement laid in the 19th century and continuing in the early 20th century Explains the rites and runology of National Socialism the occult dimensions of Nazi science and how many of the sensationalist descriptions of Nazi Satanic practices were initiated by Church propaganda after the war In this comprehensive examination of Nazi occultism Stephen E Flowers Ph D offers a critical history and analysis of the occult and esoteric streams of thought active in the Third Reich and the growth of occult Nazism at work in movements today Sharing the culmination of five decades of research into primary and secondary sources many in the original German Flowers looks at the symbolic occult scientific and magical traditions that became the foundations from which the Nazi movement would grow He details the influences of Theosophy Volkism and the work of the Brothers Grimm as well as the impact of scientific culture of the time Looking at the early 20th century he describes the impact of Guido von List Lanz von Liebenfels Rudolf von Sebottendorf Friedrich Hielscher and others Examining the period after the Nazi Party was established in 1919 and more especially after it took power in 1933 Flowers explores the occult influences on key Nazi figures including Adolf Hitler Albert Speer Rudolf Hess and Heinrich Himmler He analyzes Hitler s usually missed references to magical techniques in Mein Kampf revealing his adoption of occult methods for creating a large body of supporters and shaping the thoughts of the masses Flowers also explains the rites and runology of National Socialism the occult dimensions of Nazi science and the blossoming of Nazi Christianity Concluding with a look at the modern mythology of Nazi occultism Flowers critiques postwar Nazi related literature and unveils the presence of esoteric Nazi myths in modern occult and political circles **Right-Wing Radicalism and National Socialism in Germany** Ingvar Kolden, 2021-04-23 This book

explores the total resistance to Nazism among the Catholic Christian voters of the Zentrum party in the elections in German states in the Interwar period Kolden explains the unique Catholic resistance by comparing the diverging evolutions of Catholic and Protestant cultures and mentalities since the awakening of German nationalism in the late eighteenth century During the Empire 1871-1918 both socialists and Catholics were regarded as pariah groups by the dominant non socialist Protestant majority and more so after the WWI defeat when the pariah parties together with Protestant liberals tried to accommodate the new democratic circumstances with their Weimar Constitution When right wing radicals and eventually the Nazis increased their support largely on behalf of the rapidly shrinking number of liberals the Catholic church leaders showed a stubborn stance against the rightists issuing several resolutions of condemnation whereas no such appeared from their Protestant counterparts In contrast many local Protestant clergymen agitated for the Nazi party The anti Catholic sentiment obvious among prominent Nazis enhanced the antagonism especially after the publication of Alfred Rosenberg's *The Myth of the 20th Century* in 1930 The basic and profound confessional difference appears in the less Christian profiled agrarian parties anti Semitic and right wing radical Protestant parties confronted by one left wing and democratic Catholic party By 1945 the bulk of the former rightist Protestants sided with the Catholics who reorganized their party to the non denominational CDU which has been the mightiest proponent in Europe of the former party's ambitions of democracy stability anti racism human rights and European unity

The Scientific Origins of National Socialism Daniel Gasman, 2017-07-12 Many studies of the origins of National Socialism claim that the *volkisch* and proto Nazi movement arose largely as a reaction to the materialistic ideas of nineteenth century science and especially to the naturalistic philosophy of Ernst Haeckel and the German Monist League Using hitherto unexplored material Daniel Gasman calls this generalization into question Arguing that the importance of science has been relatively neglected in accounts of the intellectual origins of Nazism he attempts to show that Haeckel's scientific Darwinism and his movement the German Monist League were proto Nazi in character Contrary to popular belief Haeckel's type of social Darwinism actually played a critical role in the formation of National Socialist ideology In his new introduction Gasman notes that recent research goes far to confirm Haeckel's role as an ideological progenitor of fascist ideology This is true not only for Germany but also for the birth of fascist thought in Italy and France In general Gasman claims the history of science plainly reveals how Haeckel's social Darwinism nourished the roots of fascism no less than avant garde modernism When *The Scientific Origins of National Socialism* initially appeared the *Times Literary Supplement* called it a very well argued thesis that is completely successful and leaves the reader to extract his own moral lessons *Medical History* in its review of *The Scientific Origins of National Socialism* said His book is essential for understanding modern Germany It has a general message derived from the events in Germany where scientific data were permitted to take on a mystical significance with ghastly consequences Bruce Chatwin in the *New York Review of Books* called the book brilliant Now available in paperback with a new introduction by the author
