Emde, John K. Hewitt, 2001-04-19 Behavioral genetics is a fast growing multidisciplinary field which attempts to explain the influence of genetic and environmental factors on behavior through the lifespan The preferred investigative technique for teasing out the differences between genetics and the environment is the longitudinal twin study This book is the first complete publication from the MacArthur Longitudinal Twin Study MALTS that is by far the most ambitious and comprehensive longitudinal twin study to date The goal of such an in depth study was not to merely provide thorough descriptions of developmental change between the ages of one and three years but to offer an original theoretical framework that explains how change occurs in different domains and how genetics and the environment influence those changes This rigorous study will set the agenda for developmental psychology and behavioral genetics for decades to come **Moral Psychology** Daniel K Lapsley, 2018-10-08 This book a review of the psychological literatures with allied traditions in ethics emphasizes parenting and educational strategies for influencing moral behavior reasoning and character development and charts a line of research for the post Kohlbergian era in moral

psychology **Learning to Live Together** David A. Hamburg, Beatrix A. Hamburg, 2004 With a view to deepening our understanding of sources of hatred and prejudice this book uses a developmental and evolutionary perspective to explore and explain the process by which our beliefs are conveyed to the youngest members of society Discussing the psychological obstacles to peaceful relations between groups the authors focus on the developmental processes by which we can work to diminish ethnocentrism prejudice and hatred which children learn from a very early age Until now scholarship and practice in international relations have gravely neglected crucial psychological aspects of these terrible problems and have not yet explored the educational opportunities related to them Addressing these promising lines of inquiry and innovation this book fosters a more humane and less violent development in childhood and adolescence Educators religious leaders developmental and social psychologists will find this a valuable resource as will a socially concerned segment of the public who are looking for practical ways to work for peace **Autism Spectrum Disorders** Tim Williams, 2011-09-06 Autism spectrum disorders are a major topic for research The causes are now thought to be largely genetic although the genes involved are only slowly being traced The effects of ASD are often devastating and families and schools have to adapt to provide the best for people with ASD to attain their potential This book describes some of the interventions and modifications that can benefit people with ASD **Nature And Determinants of Socio-Moral Development: Theories, Methods and Applications** Alessandra Geraci, Paola Rigo, Laura Franchin, Aner Govrin, 2023-11-09 *UnSelfie* Michele Borba, 2017-05-23 Includes a Touchstone reading group guide in unnumbered pages at end of work **Socioemotional Development in the Toddler Years** Celia A. Brownell, Claire B. Kopp, 2010-06-03 This volume explores the key developmental transitions that take place as 1 to 3 year olds leave infancy behind and begin to develop the social and emotional knowledge skills and regulatory abilities of early childhood Leading investigators examine the multiple interacting factors that lead to socioemotional competence in this pivotal period covering both typical and atypical development Presented is innovative research that has yielded compelling insights into toddlers relationships emotions play communication prosocial behavior self control autonomy and attempts to understand themselves and others The final chapter presents a systematic framework for socioemotional assessment
