Roots Of Nationalism Sri Lanka:

The History of Sri Lanka Patrick Peebles, 2006-08-30 Sri Lanka an island nation located in the Indian Ocean has a population of approximately 19 million Despite its diminutive size however Sri Lanka has a long and complex history The diversity of its people has led to ethnic religious and political conflicts that continue to exist Peebles describes the experiences of the country from its earliest settlers to civil war to its current state allowing readers to better understand this often misunderstood country With an emphasis on the 20th century chapters discuss the economy religion culture and government of Sri Lanka A timeline outlines key events in Sri Lankan history as well as biographies of notable people and a bibliographic essay

The Separatist Conflict in Sri Lanka Asoka Bandarage, 2008-11-19 The book provides a detailed historically based analysis of the origin evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces This conflict between the Sri Lankan government and the secessionist LTTE Liberation Tigers of Tamil Eelam is one of the world's most intractable contemporary armed struggles The internationally banned LTTE is considered the prototype of modern terrorism It is known to have introduced suicide bombing to the world and recently became the first terrorist organization ever to acquire an air force The iron law of ethnicity the assumption that cultural difference inevitably leads to conflict has been reinforced by the 9/11 attacks and conflicts like the one in Sri Lanka However the connections among ethnic difference conflict and terrorism are not automatic This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces It develops a multipolar analysis which takes into account diverse ethnic groups intra ethnic social class caste and other variables at the local regional and international levels Overall this book presents a conceptual framework useful for comparative global conflict analysis and resolution shedding light on a host of complex issues such as terrorism civil society diasporas international intervention and secessionism

Sri Lankan Tamil Nationalism A. Jeyaratnam Wilson, Alfred Jeyaratnam Wilson, 2000 Through a succession of key stages since Sri Lanka formerly Ceylon became independent in 1948 its Tamil minority historically concentrated in the north and east but with an important segment in Colombo became alienated from the Sinhalese majority and after peaceful opposition failed to secure its rights resorted to an armed struggle The Tamil Tigers LTTE today appear to hold the key to their people's future While they have suffered setbacks including the loss of the Tamil capital Jaffna they remain a potent guerrilla force able to strike with impunity at both military and civilian targets The Tigers grip on the Tamil population seems secure as does their overseas support and funding from Tamil exiles in Britain Canada and Australia This book offers a concise history of the Sri Lankan Tamil nation its culture social make up and political evolution In a final

chapter A J V Chandrakanthan gives a first hand account of life and attitudes inside the embattled Tamil areas today A Jeyaratnam Wilson teaches in the Department of Political Science at the University of New Brunswick He is the author of The Break Up of Sri Lanka and S J V Chelvanayakam and the Crisis of Sri Lankan Tamil Nationalism A J V Chandrakanthan teaches in the Department of Theology at Concordia University Montreal From Coffee to Tea Cultivation in Ceylon, 1880-1900 Roland Wenzlhuemer, 2008-01-01 In the early 1880s a disastrous plant disease diminished the yields of the hitherto flourishing coffee plantation of Ceylon Coincidentally world market conditions for coffee were becoming increasingly unfavourable The combination of these factors brought a swift end to coffee cultivation in the British crown colony and pushed the island into a severe economic crisis When Ceylon re emerged from this crisis only a decade later its economy had been thoroughly transformed and now rested on the large scale cultivation of tea This book uses the unprecedented intensity and swiftness of this process to highlight the socioeconomic interconnections and dependencies in tropical export economies in the late nineteenth century and it shows how dramatically Ceylonese society was affected by the economic transformation

The Oxford History of the British Empire: Volume V: Historiography Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future **Human Rights Mechanism in South Asia** Shveta Dhaliwal, 2016-10-04 Shveta Dhaliwal teaches at the Rajiv Gandhi National University of Law Punjab Patiala India Her areas of specialisation are geopolitics regional human rights systems comparative political thought and international relations She has published more than 40 research papers and presented over 150 papers in international and national conferences She has authored and three edited books to her credit She is member of the Indian Political Science Association and the Indian Society of International Law and South Asian Foundation **Colors of**

Sovereignty, Space and Civil War in Sri Lanka Anoma Pieris,2018-10-25 Analyses of the Sri Lankan civil war 1983 2009 overwhelmingly represent it as an ethnonationalist contest prolonging postcolonial arguments on the creation and dissolution of the incipient nation state since independence in 1948 While colonial divide and rule policies the rise of ethnonationalist lobbies structural discrimination and majoritarian

democracy have been established as grounds for inter ethnic hostility there are other significant transformative forces that remain largely unacknowledged in postcolonial analyses This ambitious multiscalar spatial study of civil war in Sri Lanka offers an intersectional de ethnicised analysis of political sovereignty drawn out by the struggle for territory Based on vital retrospective findings from the five year postwar period when wartime hostilities were still festering it convincingly links ethnonationalism to postnational border politics marketisation militarised securitisation and illiberal democracy This book argues that internecine conflict exposes the implicit violence within nation state formations mass human displacements heighten collective and individual ontological insecurity and neoliberalism makes the nation porous in unforeseen ways Based around three themes normative spaces human mobilities and exilic states it is organised into ten comprehensive chapter based explorations of a range of spatial units including homes cities routes camps and experiences of ruin that were irrevocably politicised by protracted conflict Focusing on their material transformations over a thirty seven year period the book explores what can be known of the war if we look beyond ethnicity to other salient shared geographical features of this embattled history The book uncovers how fealty to exclusionary cultures of political sovereignty aligns us with their violence limiting our capacity for empathy a boundary seemingly exacerbated by neoliberal opportunities Making use of Sri Lanka as a case study to test geographic architectural and urban methodologies for understanding violence this book acts as a provocation to rethink current readings of the particular case study while reflecting on the more general impact of marketisation and militarisation in Asia It will be of interest to an interdisciplinary audience including those scholars interested in South Asian history politics and civil war South Asian studies border studies geography and architecture and urban studies

Sri Lanka in the Modern Age Nira Wickramasinghe, 2006-03-31 Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis conventional histories of the country by liberal and Marxist scholars in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities The entire history of the twentieth century has been tied to this one key issue Sri Lanka in the Modern Age offers a fresh perspective based on new research Above all the author has written a history of the peoples of Sri Lanka rather than a history of the nation state

The Origins of Religious Violence Nicholas F. Gier, 2014-08-20 Religiously motivated violence caused by the fusion of state and religion occurred in medieval Tibet and Bhutan and later in imperial Japan but interfaith conflict also followed colonial incursions in India Sri Lanka and Burma Before that time there was a general premodern harmony among the resident religions of the latter countries and only in the late nineteenth and twentieth centuries did religiously motivated violence break out While conflict caused by Hindu fundamentalists has been serious and widespread a combination of medieval Tibetan Buddhists and modern Sri Lankan Japanese and Burmese Buddhists has caused the most violence among the Asian religions However the Chinese Taiping Christians have the world record for the number of religious killings by one single sect A theoretical investigation reveals that specific aspects of the Abrahamic religions an insistence on the purity of revelation a deity who intervenes in history but one who still is primarily transcendent may be primary causes of religious conflict Only one factor a mystical monism not favored in Judaism Christianity and Islam was the basis of a distinctively Japanese Buddhist call for individuals to identify totally with the emperor and to wage war on behalf of a divine ruler

The Origins of Religious Violence An Asian Perspective uses a methodological heuristic of premodern modern and constructive postmodern forms of thought to analyze causes and offer solutions to religious violence
