World's Banker 1849-1999 is the second volume of the acclaimed landmark history of the legendary Rothschild banking dynasty Niall Ferguson's *House of Rothschild: Money's Prophets 1798-1848* was hailed as a great biography by Time magazine and named one of the best books of the year by Business Week Now with all the depth, clarity and drama with which he traced their ascent Ferguson, the first historian with access to the long lost Rothschild family archives, concludes his myth-breaking portrait of one of the most fascinating and powerful families of all time From Crimea to World War II wars repeatedly threatened the stability of the Rothschilds' worldwide empire Despite these many global upheavals, theirs remained the biggest bank in the world up until the First World War, their interests extending far beyond the realm of finance Yet the Rothschilds' failure to establish themselves successfully in the United States proved fateful and as financial power shifted from London to New York after 1914, their power waned A stupendous achievement, a triumph of historical research and imagination Robert Skidelsky, *The New York Review of Books* Niall Ferguson's brilliant and altogether enthralling two-volume family saga proves that academic historians can still tell great stories that the rest of us want to read *The New York Times Book Review* Superb An impressive account of the Rothschilds and their role in history *Boston Globe* Niall Ferguson's new book *The Square and the Tower: Networks and Power from the Freemasons to Facebook* will be published in January 2018 *High Financier* Niall Ferguson, 2012-10-25 In this groundbreaking biography based on more than 10,000 hitherto unavailable letters and diary entries Niall Ferguson returns to his roots as a financial historian to tell the story of the extraordinary Siegmund Warburg A refugee from Hitler's Germany Warburg rose to become the dominant figure in the post-war City of London and one of the architects of European financial integration Seared by events in the 1930s when the long-established Warburg bank was first almost destroyed by the Depression and then Aryanized by the Nazis Warburg was determined that his own bank would learn from the past and contribute to the economic recovery of Britain, the unity of Western Europe and the birth of globalization Siegmund Warburg was a complex and ambivalent man as much a psychologist, politician and actor-manager as a banker In *High Financier* Niall Ferguson reveals Warburg's idiosyncracies but above all he recaptures the meticulous business methods and strict ethical code that set Warburg apart from the mere speculators and traders who inhabit today's financial world *Debrett's Bibliography of Business History* Stephanie Zarach, 1987-06-18

The World of Private Banking Youssef Cassis, Philip Cottrell, Iain L. Fraser, 2016-12-05 This is a full and authoritative account of the history of private banking beginning with its development in conjunction with the world markets served by and centred on a few European cities notably Amsterdam and London These banks were usually partnerships, a form of organization which persisted as the role of private banking changed in response to the political and economic transformations of the late 18th and early 19th centuries It was in this period and the succeeding Golden Age of private banking from 1815 to the 1870s that many of the great names this book treats rose to fame Baring, Rothschild, Mallet and Hottinger became synonymous with wealth and economic power as German, French and the remarkably long-lasting Geneva

banks flourished and expanded The last parts of this study detail the way in which private banking adapted to the age of the corporate economy from the 1870s to the 1930s the decline during and after the Great Depression and the post war renaissance It concludes with an appraisal of the causes and consequences of the modern expansion of private banking no longer the exclusive preserve of partnerships the management of investment portfolios of wealthy individuals and institutions is now a major concern of international joint stock banks *Imperialism: Crit Concepts V2* Peter J. Cain, Mark Harrison, 2023-01-06 First published in 2004 This is Volume II in a collection on Imperialism Critical Concepts in Historical Studies and includes Part III on Modern Marxism and Dependency Theories and Part IV on Modern Historians and Imperialism **The Rise and Fall of Modern Empires, Volume III** Sarah Stockwell, 2017-03-02 Few aspects of the history of modern empires are of such significance as their economics and politics These factors are inextricably linked in many analyses have generated extensive historiographical debate and are currently the subject of some of the freshest and liveliest scholarship The articles and chapters which are brought together in this volume relate not only to the European colonial empires but also to the Napoleonic Russian and Japanese empires The collection is strongly comparative in approach with the articles arranged into thematic sections on the place of politics and economics in the rise and fall of modern empires the causal relationship between modern empires and colonial global and metropolitan economic transformations and the technologies of rule which provided the frameworks through which colonial economies were managed and rights defined The collection reflects new approaches as well as the continuing importance of issues addressed in an older historiography and the thematic arrangement produces useful juxtapositions of older and newer literatures The substantial introduction explores the themes and identifies key historiographical trends in relation to each *Armstrong Siddeley Motors* Bill Smith, 2006 What did Armstrong Siddeley Motors achieve A car that looked good did what it was intended to do and was thoroughly reliable Dynasties David S. Landes, 2007-09-25 From the author of the New York Times bestseller *The Wealth and Poverty of Nations* a fascinating look at the crossroads of kin and coin David S Landes has earned a reputation as a brilliant writer and iconoclast among economic historians In his latest acclaimed work he takes a revealing look at the quality that distinguishes a third of today's Fortune 500 companies family ownership From the banking fortunes of Rothschild and Morgan to the automobile empires of Ford and Toyota Landes explores thirteen different dynasties revealing what lay behind their successes and how extravagance bad behavior and poor enterprise brought some of them to their knees A colorful history that is full of surprising conclusions *Dynasties* is an engrossing mix of ambition eccentricity and wealth **Money, Finance, and Empire, 1790-1960** R. F Holland, A. N Porter, 2012-11-12 Scholars have recently begun to pay renewed attention to the economics of empire focusing in particular on the requirements of metropolitan Britain's economy and on the activities of imperial businesses Within this broad field financial questions not least the subject of investment overseas or the export of capital have long had a prominent place and have been equally affected by the development of new approaches The

consensus as to the volume and direction of Britain's overseas investments is being vigorously challenged. Technological advances have encouraged on a greatly enlarged scale the compilation and analysis of information about British investments and shareholdings abroad. The gradual easing of restrictions on business records has increased facilities for the study especially of imperial and colonial banking. Work on the financial policies of central governments is revealing much of interest to students of twentieth century colonial rule and decolonization. This collection of essays brings together a selection of the latest research on these and other themes and for comparative purposes includes examples of recent continental work.

The Money Lenders Anthony Sampson, 2013-05-30 First published in 1981 *The Money Lenders* reveals the power the workings and the personalities of the money men who have made the world go round. The Superbankers including Chase Manhattan's David Rockefeller Citibank's Walter Wriston Lloyds Sir Jeremy Morse and Robert McNamara. The Medicis the Rothschilds the Barings the Barclays whose banks transformed the economic map of the world.

Birdmania Bernd Brunner, 2017-10-21 An exquisitely beautiful book. These stories about birds are ultimately reflections on the curious nature of humanity itself. Helen Macdonald author of *H Is for Hawk*. There is no denying that many people are crazy for birds. Packed with intriguing facts and exquisite and rare artwork *Birdmania* showcases an eclectic and fascinating selection of bird devotees who would do anything for their feathered friends. In addition to well known enthusiasts such as Aristotle Charles Darwin and Helen Macdonald Brunner introduces readers to Karl Russ the pioneer of bird rooms who had difficulty renting lodgings when landlords realized who he was. George Lupton a wealthy Yorkshire lawyer who commissioned the theft of uniquely patterned eggs every year for twenty years from the same unfortunate female guillemot who never had a chance to raise a chick. George Archibald who performed mating dances for an endangered whooping crane called Tex to encourage her to lay and Mervyn Shorthouse who posed as a wheelchair bound invalid to steal an estimated ten thousand eggs from the Natural History Museum in Tring. As this book illustrates people who love birds whether they are amateurs or professionals are as captivating and varied as the birds that give flight to their dreams.
