Catherine Majumdar,2012-12-06 This conference brought together experts from 15 countries to discuss application of Artificial Intelligence AI techniques to the nuclear industry It was apparent from the meeting that even those active in the field were surprised at the extent of work and the progress made There was a strong impression that application of this technology to nuclear power plants is inevitable The benefits to improved operation design and safety are simply too significant to be ignored This is a much different conclusion than might have been reached a few years ago when the technology was new and people were struggling to understand its significance We believe that this meeting reflects a major turning point for the technology It has moved from being a topic understood only by specialists to a situation where users are the most active people in the field A broad array of innovative work is described from all of the participating countries The activity in the u s is large and diverse Although there is no nationally focussed policy for AI research in the U S many of these activities are reported here Japan and France have a strong drive to integrate AI technology into their nuclear plants and this is reflecteq in these proceedings      **Daily Graphic** Sam Clegg,1992-04-09

*VBA For Excel Made Simple* Keith Darlington,2012-08-06 This book provides an introduction to VBA for Excel for new users It covers basic concepts of VBA and of macro programming and takes the reader through the process of constructing interactive working applications Features which make it particularly suitable for new and non technical users are step by step approach avoidance of jargon clear explanation of all new concepts symbols and objects emphasis on correct use of VBA development environment plentiful examples and the use of complete programs rather than disconnected fragments
