Pioneer Photographers from the Mississippi to the Continental Divide
Peter E. Palmquist, Thomas R. Kailbourn, 2005 This biographical dictionary of some 3 000 photographers and workers in related trades active in a vast area of North America before 1866 is based on extensive research and enhanced by some 240 illustrations most of which are published here for the first time. The territory covered extends from central Canada through Mexico and includes the United States from the Mississippi River west to but not including the Rocky Mountain states. Together this volume and its predecessor *Pioneer Photographers of the Far West: A Biographical Dictionary 1840-1865* comprise an exhaustive survey of early photographers in North America and Central America excluding the eastern United States and eastern Canada. This work is distinguished by the large number of entries by the appealing narratives that cover both professional and private lives of the subjects and by the painstaking documentation. It will be an essential reference work for historians libraries and museums as well as for collectors of and dealers in early American photography. In addition to photographers the book includes photographic printers retouchers and colorists and manufacturers and sellers of photographic apparatus and stock. Because creators of moving panoramas and optical amusements such as dioramas and magic lantern performances often fashioned their works after photographs the people behind those exhibitions are also discussed.
