Trinitas David Coffey, 1999-09-09 Recent years have seen a resurgence of interest in the doctrine of the Trinity following a long period in which it was considered irrelevant to the rest of theology and to the challenge of Christian life In this book David Coffey claims that this resurgence is caused by a renewed appreciation of the fact that salvation itself has a Trinitarian

structure He argues that we cannot understand salvation without a solid understanding of the Trinity Coffey considers the full range of issues surrounding this central doctrine of Christian faith Viewing the doctrine of the Trinity in its historical and ecumenical context he seeks to arrive at a balanced vision that incorporates the insights of both the Western and the Eastern Churches In particular he wants to keep in sight both the immanent Trinity the Godhead considered in itself and the economic Trinity that is its role within the economy of salvation In Coffeys own model of the Trinity the Holy Spirit is seen as the objectivization of the mutual love of the Father and the Son This idea is most closely associated with St Augustine and Richard of St Victor Coffey however takes it much further presenting it as an explanation of the origin of the Son and the Holy Spirit and of the manner of operation of the Trinity in the economy From this model he is also able to derive a suggestion for resolving the ecumenical problem of Filioquism vs Monopatristism concerning the procession of the Holy Spirit the issue that has divided East from West for nearly a millennium Presenting a new perspective on a topic of renewed theological interest this comprehensive study has important implications for ecumenical discussions of the Trinity

Justice Nicholas Wolterstorff, 2010-05-02 Wide ranging and ambitious Justice combines moral philosophy and Christian ethics to develop an important theory of rights and of justice as grounded in rights Nicholas Wolterstorff discusses what it is to have a right and he locates rights in the respect due the worth of the rights holder After contending that socially conferred rights require the existence of natural rights he argues that no secular account of natural human rights is successful he offers instead a theistic account Wolterstorff prefaces his systematic account of justice as grounded in rights with an exploration of the common claim that rights talk is inherently individualistic and possessive He demonstrates that the idea of natural rights originated neither in the Enlightenment nor in the individualistic philosophy of the late Middle Ages but was already employed by the canon lawyers of the twelfth century He traces our intuitions about rights and justice back even further to Hebrew and Christian scriptures After extensively discussing justice in the Old Testament and the New he goes on to show why ancient Greek and Roman philosophy could not serve as a framework for a theory of rights Connecting rights and wrongs to God's relationship with humankind Justice not only offers a rich and compelling philosophical account of justice but also makes an important contribution to overcoming the present day divide between religious discourse and human rights
