Love Sex And Power Women In Southeast Asia:

Love, Sex and Power Susan Blackburn, 2001 This book presents new trends in writing about women in Southeast Asia applying concepts of power in unusual areas What really are the impediments to women sharing power How do Vietnamese ideals of romantic love that effectively subordinate women to men Frank interviews explode the myth that marital rape does not happen in Indonesia There are historical and contemporary examples of the liberating influence of new work for women and the story of how the Indonesian state spread the message of family planning And delving into the discipline of cross cultural women s studies itself is a considered perspective on power relations between the Western scholar and the Asian women she is studying *Islam, Women's Sexuality and Patriarchy in Indonesia* Irma Riyani, 2020-11-26 This book explores the intimate marital relationships of Indonesian Muslim married women As well as describing and analysing their sexual relationships the book also investigates how Islam influences discourses of sexuality in Indonesia and in particular how Islamic teachings affect Muslim married women s perceptions and behaviour in their sexual relationships with their husbands Based on extensive original research the book reveals that Muslim women perceive marriage as a social cultural and religious obligation that they need to fulfil that they realise that finding an ideal marriage partner is complicated with some having the opportunity for a long courtship and others barely knowing their partner prior to marriage and that there is a strong tendency with some exceptions for women to consider a sexual relationship in marriage as their duty and their husband s right Religious and cultural discourses justify and support this view and consider refusal a sin dosa or taboo pamali Both discourses emphasise obedience towards husbands in marriage Gender, Violence and Power in Indonesia Katharine McGregor, Ana Dragojlovic, Hannah Loney, 2020-03-13 This book uses an interdisciplinary approach to chart how various forms of violence domestic military legal and political are not separate instances of violence but rather embedded in structural inequalities brought about by colonialism occupation and state violence The book explores both case studies of individuals and of groups to examine experiences of violence within the context of gender and structures of power in modern Indonesian history and Indonesia related diasporas It argues that gendered violence is particularly important to consider in this region because of its complex history of armed conflict and authoritarian rule the diversity of people that have been affected by violence as well as the complexity of the religious and cultural communities involved The book focuses in particular on textual narratives of violence visualisations of violence commemorations of violence and the politics of care

Sex and Sexualities in Contemporary Indonesia Linda Rae Bennett, Sharyn Graham Davies, 2014-12-05 Winner of the 2015 Ruth Benedict Prize for Outstanding Edited Volume Sex sexuality and sexual relationships are hotly debated in Indonesia triggering complex and often passionate responses This innovative volume explores these issues in a variety of ways It highlights historical and newer forms of sexual diversity as well as the social responses they provoke It critiques differing representations of sexuality pointing to the multiplicity of discourses within which sexuality and the sexual are

A Life of Worry Allen L Tran, 2023-08-29 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more Who what and how we fear reflects who we are In less than half a century people in Vietnam have gone from fearing bombing raids political persecution and starvation to worrying about decisions over the best career path or cell phone plan This shift in the landscape of people's anxieties is the result of economic policies that made Vietnam the second fastest growing economy in the world and a

triumph of late capitalist development Yet as much as people marvel at the speed of progress all this change can be difficult to handle A Life of Worry unpacks an ethnographic puzzle What accounts for the simultaneous rise of economic prosperity and anxiety among Ho Chi Minh City's middle class The social context of anxiety in Vietnam is layered within the development of advanced capitalism the history of the medical and psychological sciences and new ways of drawing the line between self and society At a time when people around the world are turning to the pharmaceutical and wellness industries to soothe their troubled minds it is worth considering the social and political dynamics that make the promises of these industries so appealing

Culture and Customs of Thailand Arne Kislenko, 2004-05-30 Thailand is rapidly industrializing dramatically improving the living standards of its people and gradually developing a more democratic society Despite such profound changes traditional Thai culture has not only survived but has also in many respects prospered Although famous for its food and despite its increasing popularity as a tourist destination Thailand remains relatively unknown to most Westerners Culture and Customs of Thailand presents the traditional culture and customs against the backdrop of modern times Thailand has always been an important Southeast Asian country With a long reigning monarchy it is the only country in the region that has never been colonized by a Western power or suffered bloody revolutions and wars It was the first Asian country to establish diplomatic relations with the United States and has remained a constant ally Thailand has emerged as a considerable economic force as the world's largest rice and rubber producer and remains a regional political power Against this historical framework Kislenko deftly introduces the traditional and modern strands of the dominant Buddhist faith and other religions such as animism Coverage includes literature the arts architecture including the Thai Wat food and dress gender and marriage festivals and fun and social customs Kislenko also balances the portrait with discussions of threats from globalization AIDS and sex tourism the drug trade and corruption in business and government Evocative photos a country map a timeline and a chronology complete the coverage This reference is the best source for students and general readers to gain substantial sweeping insight into the Thais and their land of smiles

Linking Destinies Peter Boomgaard, Dick Kooiman, Henk Schulte Nordholt, 2008-01-01 Trade flows cities and kinship relations can all be seen as elements of complex networks In this collection of essays all of which deal with Asia we argue that there are good reasons to envisage them as various dimensions of the same networks Nevertheless it is fairly rare to find trade cities and kinship relations as intimately linked as we have portrayed them in this volume because they are usually classified within different sub disciplines of history whose practitioners are all too often not inclined to talk to people outside their own field The Australian born historian Heather Sutherland who recently retired from the VU university in Amsterdam is an exception in this respect because most of her work gravitates towards an approach which aims to integrate this trinity of topics This collection of essays written by a number of her students and close colleagues has taken its cue from her approach It is not the case that all the contributions deal with all three topics but they as a collective demonstrate how flows of trade cities both as urban centres and nodes in

wider networks and kinship relations hang together and how the study of one topic opens new vistas on the other two revealing causal links that otherwise would have remained hidden Thus the essays in this collective volume support the idea that trade towns and kin although often dealt with quite separately can be viewed as various aspects of the same networks connecting people places and commodities

Eastwards / Westwards Clara Sarmiento, 2009-03-26 Eastwards Westwards Which Direction for Gender Studies in the XXIst Century is a collection of essays which focus on themes and methods that characterize the current research on gender in Asian countries in general under a comparative approach that tries to cut across the boundaries of time and space In this collection ideas derived from Gender Studies as they are practised all over the world have been subjected to scrutiny for their utility in helping to describe and understand regional phenomena But the concepts of local and global with their discursive productions have not functioned here as a binary opposition localism and globalism are mutually constitutive and the authors have interrogated those spaces of interaction between the self and the other bearing in mind their own embeddedness in social and cultural structures and their own historical memory Eastwards Westwards Which Direction for Gender Studies in the XXIst Century provides a critical transnational perspective on some of the complex effects of the dynamics of cultural globalization by exploring the relation between gender and education politics economics anthropology linguistics historiography sociology literature and popular culture as agents of the re invention of old and new male and female identities their conversion into concepts and their circulation through time and space

limitations of various parts of the Indonesian pro democracy movement are discussed providing case studies of three groups of actors the student movement the women s movement and the labour movement focusing on times when they have joined forces to form social movements The shortcomings and successes of the pro democracy movement are discussed as are the prospects for civil society in the future **Paths Not Taken** Michael D. The Asian Mystique Sheridan Prasso, 2009-04-29 Few Westerners escape the images expectations and misperceptions that lead us to see Asia as exotic sensual decadent dangerous and mysterious Despite and because of centuries of East West interaction the stereotypes of Western literature stage and screen remain pervasive icons the tea pouring submissive sexually available geisha girl the steely cold dragon lady dominatrix as well as the portrayal of the Asian male as effeminate and asexual These Oriental illusions color our relations and relationships in ways even well respected professional Asia hands and scholars don t necessarily see *The Asian Mystique* lays out a provocative challenge to see Asia and Asians as they really are with unclouded deeroticized eyes It traces the origins of Western stereotypes in history and in Hollywood examines the phenomenon of yellow fever then goes on a reality tour of Asia s go go bars middle class homes college campuses business districts and corridors of power providing intimate profiles of women s lives and vivid portraits of the human side of an Asia we usually mythologize too well to really understand It strips away our misconceptions and stereotypes revealing instead the fully dimensional human beings beyond our usual perceptions *The Asian Mystique* is required reading for anyone with interest in or interaction with Asia or Asian origin people as well as any serious student or practitioner of East West relations

Global Youth? Pam Nilan, Carles Feixa, 2006-11-22 This innovative collection of studies by international youth researchers critically addresses questions of global youth incorporating material from regions as diverse as Sydney Tehran Dakar and Manila and advancing our knowledge about young people around the globe Exploring specific local youth cultures whilst mediating global mass media and consumption trends this book traces subaltern youth landscapes and tells subaltern youth stories previously invisible in predominantly western youth cultural studies and theorizing The chapters here serve as a refutation of the colonialist discourse of cultural globalization Showcasing previously unpublished youth research from outside the English

speaking world alongside the work of well known researchers such as Huq and Holden these accounts of youth cultural practices highlight much that is predictably different but also a great deal of common ground This book goes inside creative cultural formation of youth identities to critically examine the global in the local Bringing together an internationally diverse group of researchers who describe and analyze youth cultures throughout Europe the Americas Asia Africa and Oceania this volume presents the first comprehensive review of global youth cultures practices and identities and as such is a valuable read for students and researchers of youth studies cultural studies and sociology *From the Ground Up* Patrick Daly, 2003-08-01 The tsunami that struck a dozen countries around the Indian Ocean on 26 December 2004 evoked international sympathy on a scale beyond any previous natural disaster The international relief effort broke all records both in scale and diversity with seven billion U S dollars donated from all over the world through public and private agencies for Sumatra alone Simply as a reconstruction effort therefore the disbursement of those funds and the rebuilding of housing infrastructure and economy posed major national and international challenges However this was not simply a reconstruction effort Aceh at that time was a war zone with Indonesia s military engaged in a major operation to crush a separatist rebellion that had been simmering since 1976 Even though the funds had been donated for tsunami relief any real reconstruction of Aceh had to consider the impact of the conflict on the well being of the population as well as governance and administrative capacities This volume serves the purpose not only of discussing some of the lessons of the Aceh reconstruction and peace processes but also of maintaining critical links between Aceh and the international community after the initial tranches of aid expire
