**Poetry** George Klawitter,2017-09-01 Andrew Marvell Sexual Orientation and Seventeenth Century Poetry examines the important Interregnum Restoration poet Andrew Marvell against a background of his contemporary lyric poets His major works from the early elegies to the later political pieces are discussed with a view to unmasking the poet s own sexuality and his reflection of prevailing sexual attitudes Popular poems like the Mower poems and The Nymph Complaining for the Death of her Fawn are explicated in depth as well as lesser known poems like The Unfortunate Lover and The Gallery Marvell often described as a chameleon has teased readers for hundreds of years This new book will help both new readers as well as established Marvellians to understand cryptic sexual meanings and references in the verses Poems are explicated against current heteronormative theory as well as recent work on homoeroticism autoeroticism and celibacy George Klawitter has devoted much of his recent scholarly life to a study of Marvell s lyric pieces and brings to this new book fresh insights into the suggestive intent of the poet s works      *Literature in Protestant England, 1560-1660 (Routledge Revivals)* Alan

Sinfield,2009-07-15 The hardline uncompromising theology preached by the English Church in the 16th and 17th Centuries had disturbing effects on the literature of the period This study originally published in 1983 assesses the importance of the prevailing religious climate to the work of several major writers both in and out of sympathy with the contemporary

protestantism It is argued that the accepted view of the period as essentially Christian Humanist obscures the harsher aspects of a Calvinism which throws into relief the agonies of a writer like Donne the acceptances of one like George Herbert Many writers rejected more or less explicitly the Christian dogma through the heroic assertion of human potential in Shakespearean and other dramatic characters the nihilism of Marlowe or the secular rationalism of Bacon and Hobbes Milton is central to this complex web of belief and rejection piety and atheism acceptance of predestination and determination to accept fate that characterises the period Finally Sinfield shows how this protestantism disintegrated under the strain of internal contradictions and external pressures and in the process helped to stimulate secularism In this original and clearly written book scholarship is deployed unobtrusively to place many major works in an unaccustomed and stimulating perspective

*Mystical Love in the German Baroque* Isabella van Elferen, 2009 Mystical Love in the German Baroque Theology Poetry Music identifies the cultural and devotional conventions underlying expressions of mystical love in poetry and music of the German baroque It sheds new light on the seemingly erotic overtones in settings of the Song of Songs and dialogues between Christ and the faithful soul in late 17th and early 18th century cantatas by Heinrich Schütz Dieterich Buxtehude and Johann Sebastian Bach While these compositions have been interpreted solely as a secularizing tendency within devotional music of the baroque period Isabella van Elferen demonstrates that they need to be viewed instead as intensifications of the sacred Based on a wide selection of previously unedited or translated 17th and 18th century sources van Elferen describes the history and development of baroque poetic and musical love discourses from Schütz's early works through Buxtehude's cantatas and Bach's cantatas and Passions This long and multilayered discursive history of these compositions considers the love poetry of Petrarch European reception of petrarchan imagery and traditions its effect on the madrigal in Germany and the role of Catholic medieval mystics in baroque Lutheranism Van Elferen shows that Bach's compositional technique based on the emotional characteristics of text and music rather than on the depiction of single words allows the musical expression of mystical love to correspond closely to contemporary literary and theological conceptions of this affect

*The Cambridge Companion to English Poetry, Donne to Marvell* Thomas N. Corns, 1993-11-18 English poetry in the first half of the seventeenth century is an outstandingly rich and varied body of verse which can be understood and appreciated more fully when set in its cultural and ideological context This student Companion consisting of fourteen new introductory essays by scholars of international standing informs and illuminates the poetry by providing close reading of texts and an exploration of their background There are individual studies of Donne Jonson Herrick Herbert Carew Suckling Lovelace Milton Crashaw Vaughan and Marvell More general essays describe the political and

**To Our Bodies Turn We Then** Felecia Wright McDuffie, 2005-05-06 From his early love poetry to his late religious writing John Donne speaks of the human body as a book to be read and interpreted Unlike modern thinkers who understand the body as a purely material phenomenon or post modern critics who see in it a text produced by culture Donne understands the body as a scriptural text written by God In this study McDuffie offers a comprehensive interpretation of Donne's reading of the body In Donne's imaginative universe the human person lies at the center of the great interconnected web of God's signs and acts As such he makes it the touchstone of his own theology While his anthropology is basically orthodox the emphasis Donne places on the body and the role it plays in his religious poetics are distinctive Refusing to restrict God's revelation to the written words of Scripture Donne turns habitually to the book of the human body as a collection of signs that indicate God's nature his intent and the human condition He also at times represents the human body not as a mere sign but as sacrament a seal of the promises of God that conveys his presence and grace In his reading of the book of the body Donne discerns the narrative of salvation history the trajectory proceeding from creation through fall to redemption and resurrection He sets the body and salvation history into a dialogical relationship always reading one in terms of the other Donne reads in the body God's great love for the material the ravages of the Fall God's redemptive action in Christ and in the lives of the saints and the literal and figurative deaths that serve as gateways to resurrection and eschatological fulfillment

*The Life and Poems of William Cartwright.* William Cartwright, 1983      *The Life and Poems of William Cartwright*

William Cartwright, 1918      Romantic Love in Cultural Contexts Victor Karandashev, 2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places

throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations Flix Neto Professor of Psychology Faculdade de Psicologia e de Ciências da Educação Universidade do Porto Portugal
