Meetings with Remarkable Trees ; Remarkable Trees of the World Thomas Pakenham, 2003 Like a Tree Jean Shinoda Bolen, 2011-04-01 A Powerful and Poetic Call to Ecological Feminist Activism This masterful work by internationally known author and speaker Jean Shinoda Bolen provides an insightful look into the fusion of ecological issues and global gender politics Of trees and women This book on the importance of trees grew out of Bolen s experience mourning the loss of a Monterey pine that was cut down in her neighborhood That combined with her practice of walking among tall trees led to her deep connection with trees and an understanding of their many complexities From their anatomy and physiology to trees as archetypal and sacred symbols Bolen expertly explores the dynamics of ecological activism spiritual activism and sacred feminism And she invites us to join the movement to save trees Stories of those making a difference While there is still much work to be done to address environmental problems there are many stories of individuals and organizations rising up to make a change and help save our planet The words and stories that Bolen weaves throughout this book are both inspirational and down to earth calling us to realize what is happening to not only our trees but our people By writing about both the work of organizations like Greenpeace and the UN Commission on the Status of Women Bolen highlights her passions and shares her unique vision for the world In Like a Tree learn more about The dynamic nature of trees from their anatomy to their role as an archetypal symbol Pressing social issues such as deforestation global warming and overpopulation What it means to be a tree person If you enjoyed books like The Hidden Life of Trees Wise Trees Around the World in 80 Trees or Braiding Sweetgrass then you ll love Like a Tree How Trees Women and Tree People Can Save the Planet **My Journey with a Remarkable Tree** Ken Finn, 2005-02-01 A journey through Cambodia with the simple and romantic ambition to find the folkloric spirit trees the powerful connecting force between man and nature Ken Finn s travels turned out to be anything but simple Back wearing motos immobilizing gastric assaults unexpected road blocks and monkish processions all contributed to the journey but most dramatically instead of enriching forests destruction was found the black market timber trade A new voice was found as Ken followed the trees on their journey to the furniture factories of Vietnam and subsequently a house somewhere on the North Circular London The book chronicles his trip not just through Southeast Asia but the inner transition from traveler to activist It charts the unlocking of a conscience and the discovery of a new sensitivity and passion showing that it is not a major shift in behavior to save the destruction and corruption of the planet and that it is important to care Wilding Isabella Tree, 2019-09-17 An inspiring story about what happens when 3 500 acres of land farmed for centuries is left to return to the wild and about the wilder richer future a natural landscape can bring For years Charlie Burrell and his wife Isabella Tree farmed Knepp Castle Estate and struggled to turn a profit By 2000 with the farm facing bankruptcy they decided to try something radical They would restore Knepp s 3 500 acres to the wild Using herds of free roaming animals to mimic the actions of the megafauna of the past they hoped to bring nature back to their depleted land

But what would the neighbors say in the manicured countryside of modern England where a blade of grass out of place is considered an affront In the face of considerable opposition the couple persisted with their experiment and soon witnessed an extraordinary change New life flooded into Knepp now a breeding hotspot for rare and threatened species like turtle doves peregrine falcons and purple emperor butterflies The fabled English nightingale sings again At a time of looming environmental disaster Wilding is an inspiring story of a farm a couple and a community transformed Isabella Tree's wonderful book brings together science natural history a fair bit of drama and ultimately hope *Proceedings of the Annual Meeting* New York State Agricultural Society, 1854

GURDJIEFF GROUP WORK THE LOFT TAPES Jerry Brewster, 2016-02-19 This book is a record of one and a half years of workdays at the Group's Loft workspace in lower Manhattan during the late 1980s and early 1990s It is documentation of the way Jerry worked with his groups during that time Every generation must find a new way of working What woke up one generation will not necessarily wake up the next When we came to the work these ideas were new and fresh now the ideas are taught in psychology classes in universities But there is a process to waking up and rules that govern it Gurdjieff says Many alarm clocks are necessary and always new ones This book is a testament to the practice of these rules The fourth way requires working together working on yourself and making the ideas your own
