## **Review Of The Us Department Of Energys Heavy Vehicle Technologies Program:**

**Review of the U.S. Department of Energy's Heavy Vehicle Technologies Program** National Research Council, Commission on Engineering and Technical Systems, Board on Energy and Environmental Systems, Committee on Review of DOE's Office of Heavy Vehicle Technologies, 2000-12-01 As national priorities have been focused both on reducing fuel consumption and improving air quality attention has increased on reducing emissions from many types of vehicles including light duty medium duty and heavy duty diesel powered vehicles Meeting the recently promulgated and proposed emission standards and simultaneously increasing fuel economy will pose especially difficult challenges for diesel powered vehicles and will require the development of new emission reduction technologies In response to a request from the director of OHVT the National Research Council formed the Committee on Review of DOE s Office of Heavy Vehicle Technologies to conduct a broad independent review of its research and development R D activities

**Review of the U.S. Department of Energy's Heavy Vehicle Technologies Program**, 2000

**Review of the 21st Century Truck Partnership** National Research Council, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee to Review the 21st Century Truck Partnership, 2008-09-19 The 21st Century Truck Partnership 21CTP a cooperative research and development partnership formed by four federal agencies with 15 industrial partners was launched in the year 2000 with high hopes that it would dramatically advance the technologies used in trucks and buses yielding a cleaner safer more efficient generation of vehicles Review of the 21st Century Truck Partnership critically examines and comments on the overall adequacy and balance of the 21CTP The book reviews how well the program has accomplished its goals evaluates progress in the program and makes recommendations to improve the likelihood of the Partnership meeting its goals Key recommendations of the book include that the 21CTP should be continued but the future program should be revised and better balanced A clearer goal setting strategy should be developed and the goals should be clearly stated in measurable engineering terms and reviewed periodically so as to be based on the available funds

**Review of the 21st Century Truck Partnership, Second Report** National Research Council, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee to Review the 21st Century Truck Partnership, Phase 2, 2012-07-04 In July 2010 the National Research Council NRC appointed the Committee to Review the 21st Century Truck Partnership Phase 2 to conduct an independent review of the 21st Century Truck Partnership 21CTP The 21CTP is a cooperative research and development R D partnership including four federal agencies the U S Department of Energy DOE U S Department of Transportation DOT U S Department of Defense DOD and the U S Environmental Protection Agency EPA and 15 industrial partners The purpose of this Partnership is to reduce fuel consumption and emissions increase heavy duty vehicle safety and support research development and demonstration to initiate commercially viable products and systems This is the NRC s second report on the topic and it includes the committee s review of the Partnership as a whole its major areas of focus

21CTP's management and priority setting efficient operations and the new SuperTruck program      **Effectiveness and Impact of Corporate Average Fuel Economy (CAFE) Standards** National Research Council, Transportation Research Board, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee on the Effectiveness and Impact of Corporate Average Fuel Economy (CAFE) Standards, 2002-01-29 Since CAFE standards were established 25 years ago there have been significant changes in motor vehicle technology globalization of the industry the mix and characteristics of vehicle sales production capacity and other factors This volume evaluates the implications of these changes as well as changes anticipated in the next few years on the need for CAFE as well as the stringency and or structure of the CAFE program in future years      *Hidden Costs of Energy* National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Committee on Health, Environmental, and Other External Costs and Benefits of Energy Production and Consumption, 2010-05-26 Despite the many benefits of energy most of which are reflected in energy market prices the production distribution and use of energy causes negative effects Many of these negative effects are not reflected in energy market prices When market failures like this occur there may be a case for government interventions in the form of regulations taxes fees tradable permits or other instruments that will motivate recognition of these external or hidden costs The Hidden Costs of Energy defines and evaluates key external costs and benefits that are associated with the production distribution and use of energy but are not reflected in market prices The damage estimates presented are substantial and reflect damages from air pollution associated with electricity generation motor vehicle transportation and heat generation The book also considers other effects not quantified in dollar amounts such as damages from climate change effects of some air pollutants such as mercury and risks to national security While not a comprehensive guide to policy this analysis indicates that major initiatives to further reduce other emissions improve energy efficiency or shift to a cleaner electricity generating mix could substantially reduce the damages of external effects A first step in minimizing the adverse consequences of new energy technologies is to better understand these external effects and damages The Hidden Costs of Energy will therefore be a vital informational tool for government policy makers scientists and economists in even the earliest stages of research and development on energy technologies      Use of Lightweight Materials in 21st Century Army Trucks National Research Council, Division on Engineering and Physical Sciences, National Materials Advisory Board, Committee on Lightweight Materials for 21st Century Army Trucks, 2003-04-02 In order to achieve the Army's envisioned Objective Force related to deployability transportability and mobility the Committee on Lightweight Materials for the 21st Century Army Trucks was asked to identify research and technology development opportunities related to the introduction of new lightweight structural materials for light medium and heavy Army trucks      **Energy and Water Development Appropriations for 2006** United States.
