Revolution And Genocide:

Revolution and Genocide Robert Melson,1992 **Revolution and Genocide** Robert Melson,1996-06 In a study that compares the major attempts at genocide in world history Robert Melson creates a sophisticated framework that links genocide to revolution and war He focuses on the plights of Jews after the fall of Imperial Germany and of Armenians after the fall of the Ottoman as well as attempted genocides in the Soviet Union and Cambodia He argues that genocide often is the end result of a complex process that starts when revolutionaries smash an old regime and in its wake try to construct a society that is pure according to ideological standards **Essay** Vahakn N. Dadrian,1994 **Genocide** Donald Bloxham,A. Dirk Moses,2022 A collection of essays on the key themes of genocide addressing imperial violence and military contexts for genocide predicting preventing and prosecuting genocide gender ideology the state memory transitional justice and ecocide

can be utilized to attempt the prevention of genocide in the future

New Directions in Genocide Research Adam

Jones, 2012-03-12 Genocide studies is a relatively new field of comparative inquiry but recent years have seen an increasing range of themes and subject matter being addressed that reflect a variety of features of the field and transformations within it This edited book brings together established scholars with rising stars and seeks to capture the range of new approaches theories and case studies in the field The book is divided into three broad sections Section I focuses on broad theories of comparative genocide covering a number of different perspectives Section II critically reconsiders core themes of genocide studies and unfolds a range of challenging new directions including cultural genocide gender and genocide as it pertains to both women and men structural violence and the novel application of remote sensing technologies to the detection and study of genocide Section III is case study focused seeking to place both canonical and little known cases of genocide in broader comparative perspective Cases analyzed include genocide in North America the Nazi Holocaust the Armenian genocide and the Sri Lankan genocide The combination of cutting edge scholarship and innovative approaches to familiar subjects makes this essential reading for all students and scholars in the field of genocide studies

Preventing Genocide David A.

Hamburg, 2015-11-17 Genocide has been called a problem from hell and despite vehement declarations of never again it is a problem that continues to plague the world From the beginning of history to the most recent massacres in Bosnia Rwanda and Darfur genocide defies resolution And given today's worldwide access to highly lethal weapons and advanced communications technology facilitating incitement to hate we can expect to see this problem grow It is often claimed that genocide occurs without warning taking both local and global communities by surprise Yet as David Hamburg convincingly shows we have had long term advance knowledge of most modern genocides dating back to the early 20th century Armenian tragedy in Turkey and before In this book Dr Hamburg applies a groundbreaking new perspective the medical model of prevention to the scourge of genocide in the world Preventing genocide is not only possible Dr Hamburg contends but essential given its high cost in lives human rights and international security Here he maps out numerous practical steps to recognise genocidal conflicts early and stem their tides of violence before they become acute He also outlines several institutions in place and programs underway at the UN EU and NATO devoted to preventing future genocides before they erupt He draws lessons both from missed opportunities and successful experiences and makes many constructive suggestions about strengthening international institutions governments and NGOs for this purpose

Identity Politics in the Age of Genocide David B. MacDonald, 2007-09-28

In an era of globalization and identity politics this book explores how Holocaust imagery and vocabulary have been appropriated and applied to other genocides The author examines how the Holocaust has impacted on other ethnic and social groups asking whether the Holocaust as a symbol is a useful or destructive means of reading non Jewish history This volume explains the rise of the Holocaust as a gradual process charting how its importance as a symbol has evolved providing a theoretical framework to understand how and why non Jewish groups

choose to invoke holocausts to apply to other events explores the Holocaust in relation to colonialism and indigenous genocide with case studies on America Australia and New Zealand analyzes the Holocaust in relation to war and genocide with case studies on the Armenian genocide the Rape of Nanking Serbia and the Rwandan genocide examines how the Holocaust has been used to promote animal rights Demonstrating both the opportunities and pitfalls the Holocaust provides to non Jewish groups who seek to represent their collective histories this book fills a much needed gap on the use of the Holocaust in contemporary identity politics and will be of interest to students and researchers of politics the Holocaust and genocide

Fifty Key Thinkers on the Holocaust and Genocide Paul R. Bartrop, Steven L. Jacobs, 2013-03-01 This unique volume critically discusses the works of fifty of the most influential scholars involved in the study of the Holocaust and genocide Studying each scholar's background and influences the authors examine the ways in which their major works have been received by critics and supporters and analyse each thinker's contributions to the field Key figures discussed range from historians and philosophers to theologians anthropologists art historians and sociologists including Hannah Arendt Christopher Browning Primo Levi Raphael Lemkin Jacques Semelin Saul Friedländer Samantha Power Hans Mommsen Emil Fackenheim Helen Fein Adam Jones Ben Kiernan A thoughtful collection of groundbreaking thinkers this book is an ideal resource for academics students and all those interested in both the emerging and rapidly evolving field of Genocide Studies and the established field of Holocaust Studies

Revolution and Genocide in Ethiopia and Cambodia Edward Kissi, 2006-03-20 Revolution and Genocide in Ethiopia and Cambodia is the first comparative study of the Ethiopian and Cambodian revolutions of the early 1970s One of the few comparative studies of genocide in the developing world this book presents some of the key arguments in traditional genocide scholarship but the book's author Edward Kissi takes a different position arguing that the Cambodian genocide and the atrocious crimes in Ethiopia had very different motives Kissi's findings reveal that genocide was a tactic specifically chosen by Cambodia's Khmer Rouge to intentionally and systematically annihilate certain ethnic and religious groups whereas Ethiopia's Dergue resorted to terror and political killing in the effort to retain power Revolution and Genocide in Ethiopia and Cambodia demonstrates that the extent to which revolutionary states turn to policies of genocide depends greatly on how they acquire their power and what domestic and international opposition they face This is an important and intriguing book for students of African and Asian history and those interested in the study of genocide

The Specter of Genocide Robert Gellately, Ben Kiernan, 2003-07-07 Genocide mass murder and human rights abuses are arguably the most perplexing and deeply troubling aspects of recent world history This collection of essays by leading international experts offers an up to date comprehensive history and analyses of multiple cases of genocide and genocidal acts with a focus on the twentieth century The book contains studies of the Armenian genocide the victims of Stalinist terror the Holocaust and Imperial Japan Several authors explore colonialism and address the fate of the indigenous peoples in Africa North America and Australia As well there is extensive coverage of the post 1945 period including the

atrocities in the former Yugoslavia Bali Cambodia Ethiopia Rwanda East Timor and Guatemala The book emphasizes the importance of comparative analysis and theoretical discussion and it raises new questions about the difficult challenges for modernity constituted by genocide and other mass crimes

A Companion to the Holocaust Simone Gigliotti, Hilary Earl, 2020-04-24 Provides a cutting edge nuanced and multi disciplinary picture of the Holocaust from local transnational continental and global perspectives Holocaust Studies is a dynamic field that encompasses discussions on human behavior extremity and moral action A diverse range of disciplines history philosophy literature social psychology anthropology geography amongst others continue to make important contributions to its scholarship A Companion to the Holocaust provides exciting commentaries on current and emerging debates and identifies new connections for research The text incorporates new language geographies and approaches to address the precursors of the Holocaust and examine its global consequences A team of international contributors provides insightful and sophisticated analyses of current trends in Holocaust research that go far beyond common conceptions of the Holocaust s causes unfolding and impact Scholars draw on their original research to interpret current agenda setting historical and historiographical debates on the Holocaust Six broad sections cover wide ranging topics such as new debates about Nazi perpetrators arguments about the causes and places of persecution of Jews in Germany and Europe and Jewish and non Jewish responses to it the use of forced labor in the German war economy representations of the Holocaust witness and many others A masterful framing chapter sets the direction and tone of each section s themes Comprising over thirty essays this important addition to Holocaust studies Offers a remarkable compendium of systematic comparative and precise analyses Covers areas and topics not included in any other companion of its type Examines the ongoing cultural social and political legacies of the Holocaust Includes discussions on non European and non Western geographies inter ethnic tensions and violence A Companion to the Holocaust is an essential resource for students and scholars of European German genocide colonial and Jewish history as well as those in the general humanities

Pioneers of Genocide Studies Steven Jacobs, 2017-07-05 From the early efforts that emerged in the struggle against Nazism and over the past half century the field of genocide studies has grown in reach to include five genocide centers across the globe and well over one hundred Holocaust centers This work enables a new generation of scholars researchers and policymakers to assess the major foci of the field develop ways and means to intervene and prevent future genocides and review the successes and failures of the past The contributors to Pioneers of Genocide Studies approach the questions of greatest relevance in a personal way crafting a statement that reveals one s individual voice persuasions literary style scholarly perspectives and relevant details of one s life The book epitomizes scholarly autobiographical writing at its best The book also includes the most important works by each author on the issue of genocide Among the contributors are experts in the Armenian Bosnian and Cambodian genocides as well as the Holocaust against the Jewish people The

contributors are Rouben Adalian M Cherif Bassiouni Israel W Charney Vahakn Dadrian Helen Fein Barbara Harff David Hawk Herbert Hirsch Irving Louis Horowitz Richard Hovannisian Henry Huttenbach Leo Kuper Raphael Lemkin James E Mace Eric Markusen Robert Melson R J Rummel Roger W Smith Gregory H Stanton Ervin Staub Colin Tatz Yves Ternan and the co editors The work represents a high watermark in the reflections and self reflections on the comparative study of genocide

State Identities and the Homogenisation of Peoples Heather Rae, 2002-08-15 Why are forced displacement ethnic cleansing and genocide an enduring feature of state systems In this book Heather Rae locates these practices of pathological homogenisation in the processes of state building Political elites have repeatedly used cultural resources to redefine bounded political communities as exclusive moral communities from which outsiders must be expelled Showing that these practices predate the age of nationalism Rae examines cases from both pre nationalist and nationalist eras the expulsion of the Jews from fifteenth century Spain the persecution of the Huguenots under Louis XIV and in the twentieth century the Armenian genocide and ethnic cleansing in former Yugoslavia She argues that those atrocities prompted the development of international norms of legitimate state behaviour that increasingly define sovereignty as conditional Rae concludes by examining two threshold cases the Czech Republic and Macedonia to identify the factors that may inhibit pathological homogenization as a method of state building

Pioneers of Genocide Studies (Clt) Samuel Totten, Steven Leonard Jacobs, 2002 New areas of research are not the result of a snap of the finger They are carved out of the marrow of human existence The study of genocide well illustrates this raw fact From the early efforts that emerged in the struggle against Nazism and over the past half century the field has now reached a point where there at least five genocide centers across the globe and well over one hundred Holocaust centers This work emerged out of an earlier effort at an oral history project one that would enable a new generation of scholars researchers and policy makers to assess the major foci of the field efforts to develop ways and means to intervene and prevent future genocides and review the successes and failures of the field The editors of *Pioneers of Genocide Studies* emphasize that contributors should approach the questions of greatest relevance in a personal way crafting a statement that reveals ones individual voice persuasions literary style scholarly perspectives and relevant details of ones life The book succeeds admirably in the above aims and in so doing epitomizes scholarly autobiographical writing at its best The book also includes the most important works by each author on the issue of genocide As a result the collective portrait enhances the usefulness of the volume for those new to the field Among the contributors are experts in the Armenian Bosnian Cambodian genocides as well as the Holocaust against the Jewish people The contributors are Rouben Adalian M Cherif Bassiouni Israel W Charney Vahakn Dadrian Helen Fein Barbara Harff David Hawk Herbert Hirsch Irving Louis Horowitz Richard Hovannisian Henry Huttenbach Leo Kuper Raphael Lemkin James E Mace Eric Markusen Robert Melson R J Rummel Roger W Smith Gregory H Stanton Ervin Staub Colin Tatz Yves Ternan and the co editors The work has been five years in the making and represents a high watermark in the reflections and self

reflections on the comparative study of genocide Samuel Totten is professor of curriculum and instruction in the College of Education and Health Professions at the University of Arkansas Fayetteville He is the editor of First Person Accounts of Genocidal Acts and Century of Genocide Eyewitness Accounts and Critical Views and book review editor for the Journal of Genocide Research Steven Leonard Jacobs is associate professor and Aaron Aronov Chair of Judaic Studies in the department of religious studies at the University of Alabama Tuscaloosa He is the author of Shirot Bialik A New and Annotated Translation of Chaim Nachman Bialiks Epic Poems Raphael Lemkins Thoughts on Nazi Genocide Not Guilty and Contemporary Christian and Contemporary Jewish Religious Responses to the Shoah *Extremely Violent Societies* Christian Gerlach,2010-10-14 In this groundbreaking book Christian Gerlach traces the social roots of the extraordinary processes of human destruction involved in mass violence throughout the twentieth century He argues that terms such as genocide and ethnic cleansing are too narrow to explain the diverse motives and interests that cause violence to spread in varying forms and intensities From killings and expulsions to enforced hunger collective rape strategic bombing forced labour and imprisonment he explores what happened before during and after periods of widespread bloodshed in countries such as Armenia Indonesia Bangladesh Nazi occupied Greece and in anti guerilla wars worldwide in order to highlight the crucial role of socio economic pressures in the generation of group conflicts By focussing on why so many different people participated in or supported mass violence and why different groups were victimized he offers us a new way of understanding one of the most disturbing phenomena of our times *Complying with Genocide* E.N. Anderson,Barbara A. Anderson,2020-12-04 Drawing on a powerful Native American metaphor to frame this work E N Anderson and Barbara Anderson examine complicity in genocide stressing that it only through feeding the good wolf that a moral and social order of inclusion and tolerance can be built while feeding the bad wolf will result in fear hatred exclusion and violence In *Complying with Genocide The Wolf You Feed* Anderson and Anderson illustrate how everyday frustration and fear combined with hatred and social othering toward rivals and victims of discrimination can lead individuals and whole nations to become complicit in genocide Anderson and Anderson propose powerful actions that can both protect against complicity and create social change as exemplified from populations recovering from genocidal regimes This book is recommended for students and scholars of anthropology sociology public health psychology criminal justice and political science **Genocide, Mass Atrocity, and War Crimes in Modern History** James Larry Taulbee,2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law *Genocide Mass Atrocity and War Crimes in Modern History* Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the

need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs
