Muscovy and the Mongols Donald Ostrowski, 2002-06-20 The importance of the Mongols impact on the Rus lands has been recognised by many scholars but its precise nature and extent is very contentious While diverse opinions exist on the origins and development of Muscovy the author argues that no society arises ex nihilo and that Muscovy is no exception In this 1998 book Donald Ostrowski considers the outside origins and influences as well as indigenous origins and development in order that the reader may gain a clearer understanding of Muscovy as a political entity its political institutions and political culture He shows that during the early period of Muscovy 1304 1448 the ecclesiastical and secular institutions were affected by two different outside influences Byzantium and the Qipchaq Khanate respectively In considering these outside influences he has set out to study Muscovy as an integral and important part of world history

Tatar Empire Danielle Ross, 2020-02-04 An in depth study of the relationship between the Russian government and its first Muslim subjects who served in the vanguard of the empire s colonialism In the 1700s Kazan Tatar Muslim scholars of Kazan and scholarly networks stood at the forefront of Russia s expansion into the South Urals western Siberia and the Kazakh steppe It was there that the Tatars worked with Russian agents established settlements and spread their own religious and intellectual culture that helped shaped their identity in the nineteenth and early twentieth centuries Kazan Tatars profited economically from Russia s commercial and military expansion to Muslim lands and began to present themselves as leaders capable of bringing Islamic modernity to the rest of Russia s Muslim population Danielle Ross bridges the history of Russia s imperial project with the history of Russia s Muslims by exploring the Kazan Tatars as participants in the construction of the Russian empire Ross focuses on Muslim clerical and commercial networks to reconstruct the ongoing interaction among Russian imperial policy nonstate actors and intellectual developments within Kazan s Muslim community and also considers the evolving relationship with Central Asia the Kazakh steppe and western China Tatar Empire offers a more Muslim centered narrative of Russian empire building making clear the links between cultural reformism and Kazan Tatar participation in the Russian eastward expansion This is a rich study that makes important contributions to the historiography of the Russian Empire sharpening our picture of an empire in which lines between colonizer and colonized were far from clear

The Middle Ground Journal

The Tragedy of Great Power Politics John J. Mearsheimer, 2003-01-17 A superb book Mearsheimer has made a significant contribution to our understanding of the behavior of great powers Barry R Posen *The National Interest* The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty first century Can China rise peacefully In clear eloquent prose John Mearsheimer explains why the answer is no a rising China will seek to dominate Asia while the United States determined to

remain the world's sole regional hegemon will go to great lengths to prevent that from happening. The tragedy of great power politics is inescapable. *Reins of Liberation* Xiaoyuan Liu, 2006. The author's purpose in writing this book is to use the Mongolian question to illuminate much larger issues of twentieth century Asian history: how war, revolution and great power rivalries induced or restrained the formation of nationhood and territoriality. He thus continues the argument he made in *Frontier Passages* that on its way to building a communist state the CCP was confronted by a series of fundamental issues pertinent to China's transition to nation statehood. The book's focus is on the Mongolian question which ran through Chinese politics in the first half of the twentieth century. Between the Revolution of 1911 and the Communists' triumph in 1949 the course of the Mongolian question best illustrates the genesis, clashes and convergence of Chinese and Mongolian national identities and geopolitical visions.

Two alphabetically arranged volumes explore such conflicts as the Russo-Polish Wars, the Great Northern War, the Russo-Turkish Wars, the Napoleonic Wars, the Crimean War, the Russo-Japanese War, World War I, World War II and the Cold War including the Soviet invasion of Afghanistan. Cross references and further readings in each entry serve as jumping off points for further exploration.

Imperial Cities in the Tsarist, the Habsburg, and the Ottoman Empires Ulrich Hofmeister, Florian Riedler, 2023-08-24. This book explores the various ways imperial rule constituted and shaped the cities of Eastern Europe until World War I in the Tsarist, Habsburg and Ottoman empires. In these three empires the cities served as hubs of imperial rule; their institutions and infrastructures enabled the diffusion of power within the empires while they also served as the stages where the empire was displayed in monumental architecture and public rituals. To this day many cities possess a distinctively imperial legacy in the form of material remnants, groups of inhabitants or memories that shape the perceptions of in and outsiders. The contributions to this volume address in detail the imperial entanglements of a dozen cities from a long term perspective reaching back to the eighteenth century. They analyze the imperial capitals as well as smaller cities in the periphery. All of them are imperial cities in the sense that they possess traces of imperial rule. By comparing the three empires of Eastern Europe this volume seeks to establish commonalities in this particular geography and highlight trans-imperial exchanges and entanglements. This volume is essential reading to students and scholars alike interested in imperial

and colonial history urban history and European history The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Contesting Europe, 2019-12-09 While the term Europe was used sporadically in ancient and medieval times it proliferated between the fifteenth and sixteenth centuries and gained a prevalence in the seventeenth and eighteenth centuries which it did not possess before Although studies on the history of the idea of Europe abound much of the vast body of early modern sources has still been neglected Assuming that discourses tend to transcend linguistic historical and generic boundaries this book has gathered experts from various fields of study who examine vernacular and Latin negotiations of Europe from the late fifteenth to the early eighteenth century This multi angled approach serves to identify similarities and differences in the discourses on Europe within their different national and cultural communities Contributors are Ovanes Akopyan Volker Bauer Piotr Chmiel Nicolas Detering Stefan Ehrenpreis Niels Grøne Peter Hanenberg Ulrich Heinen Ronny Kaiser Niall Oddy Katharina N. The Birth of a Great Power System, 1740-1815 Hamish Scott, 2014-07-22 The Birth of a Great Power System 1740-1815 examines a key development in modern European history the origins and emergence of a competitive state system H. M. Scott demonstrates how the well known and dramatic events of these decades the emergence of Russia and Prussia the three partitions of Poland the continuing retreat of the Ottoman Empire the unprecedented territorial expansion of Revolutionary and Napoleonic France halted by the final defeat of Napoleon were part of a wider process that created the modern great power system dominated by Europe's five leading states Enhanced by maps and a chronology of principal events this comprehensive and accessible textbook is fully up to date in its coverage of recent scholarship Unlike many other treatments of this period Scott extends his beyond the French Revolution of 1789 in order to demonstrate how events both before and after this great upheaval merged to produce the central political development in modern European history This book addresses the crucial phase in the emergence of the modern international system which with the subsequent addition of the USA Japan and Russia has prevailed until the present day

Russia in the Time of Cholera John P. Davis, 2018-03-09 As the nineteenth century drew to a close and epidemics in western Europe were waning the deadly cholera vibrio continued to wreak havoc in Russia outlasting the Romanovs Scholars have since argued that cholera eventually fell prey to better sanitation and strict quarantine under the Soviets citing as evidence imperial mismanagement a backward tsarist medical system and physicians anachronistic environmental interpretations of the disease Drawing on extensive archival research and the so called material turn in historiography however John P Davis here demonstrates that Romanov era physicians' environmental approach to disease was not ill grounded nor a consequence of neo liberal or populist political leanings but born of pragmatic scientific considerations The physicians confronted cholera in a broad and sophisticated way essentially laying the foundations for the system of public health that the Soviets successfully used to defeat cholera during the New Economic Policy 1922-1928 By focusing for the first time on the conclusion of the cholera epoch in Russia Davis adds an indispensable layer of nuance to the existing conception of Romanov Russia and its complicated legacy in the Soviet period

Russia's European Choice T. Hopf, 2008-05-26 Russia has never been able to escape its relationship with Europe or Europe with Russia Geography and history have conspired to make them both neighbors and unavoidable factors in each other's daily lives From the early 1700s until the collapse of the Soviet Union in 1991 Europe and Moscow both relied on material power to balance against any threats emerging from East and West More recently Europe and the EU have adopted a different strategy make Russia non threatening by making it European like us Meanwhile Russia's resistance to Europe's assimilationist mission is increasingly robust fuelled by energy exports to Europe and the world Contributors to this volume wrestle with the question of whether the European project is feasible desirable or even ethical

Islam in Russia: The Politics of Identity and Security Shireen Hunter, 2016-09-16 This richly detailed study traces the shared history of Russia and Islam in expanding compass from the Tatar civilization within the Russian heartland to the conquered territories of the Caucasus and Central Asia to the larger geopolitical and security context of contemporary Russia on the civilizational divide The study's distinctive analytical drive stresses political and geopolitical relationships over time and into the very complicated present Rich with insight the book is

also an incomparable source of factual information about Russia's Muslim populations, religious institutions, political organizations and ideological movements. *Strategic Partners* Jeanne Lorraine Wilson, 2004. Russia's foreign policy experience in the first post-Soviet decade was marked by disappointments as well as surprising turns. Expectations that Russia would join the Western powers as an equal partner were frustrated while relations with the People's Republic of China warmed considerably. Today Russia's relationship with China is an important component of its overall foreign policy orientation as the two states, one greatly diminished, the other clearly on the rise, have found themselves sharing an interest in curbing the power of the United States. In analyzing Russia's evolving foreign policy vis-à-vis China, the author takes into account the legacy of Soviet-era precedents, the simultaneous processes of economic policy change and integration into global economic structures and military relations. By shedding light on the role of political realism, decision makers and exogenous factors in Russian foreign policy, this analysis of an important bilateral relationship contributes to the larger project of understanding international relations and the dynamics of domestic and foreign policy change.

Quest for Status Deborah Welch Larson, Alexei Shevchenko, 2019-01-01. A look at how the desire to improve international status affects Russia's and China's foreign policies. Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia. Applying social identity theory, the idea that individuals derive part of their identity from larger communities to nations, they contend that China and Russia have used various modes of emulation, competition and creativity to gain recognition from other countries and thus validate their respective identities. To make this argument, they analyze numerous cases including Catherine the Great's attempts to westernize Russia, China's identity crises in the nineteenth century and both countries' responses to the end of the Cold War. The authors employ a multifaceted method of measuring status, factoring in influence and inclusion in multinational organizations, military clout and cultural sway among other considerations. Combined with historical precedent, this socio-psychological approach helps explain current trends in Russian and Chinese foreign policy.
