Indo-Pacific? Nguyen Hung Son, Nguyen Thi Lan Anh, 2025-01-16 This open access book focuses on the geopolitical competition in the South China Sea an area with highly concentrated choke points in the Indo Pacific presenting ideas and recommendations to manage this competition and foster cooperation to maintain a peaceful and stable environment and promote sustainable governance of the South China Sea and of the Indo Pacific in a broader sense The increasingly complex geopolitics of the Indo Pacific has made the South China Sea the epicenter of strategic competition between the great powers with a rising China on the one hand and the United States its allies and partners on the other In this strategic chessboard the South China Sea is a test of resilience of the rules based international order such as versus grey zone operations as well as disruptive technological developments in both traditional and non traditional domains The book incorporates foreign policy analysis methods to analyze and forecast key players goals intentions and behaviors within the competitive strategic environment of the South China Sea The success or failure of managing major power competition in the South China Sea one of the hot spots of the Indo Pacific region will determine the future structure of international relations In addition as a dynamically developing region of the world promoting collaborative ideas particularly in areas related to conflict management is essential for maintaining a peaceful and stable environment restoring economic growth and progressing toward a sustainable future This book is of interest to politicians policy makers experts scholars researchers and other readers who are interested in how regional issues can shape the global order

Navigational Rights and Freedoms, and the New Law of the Sea Donald R. Rothwell, W. S. Walter Samuel Grono Bateman, 2000-11-14 Navigational rights and freedoms have been central to the development of the law of the sea since the original debates over whether the seas were open or closed to maritime traffic The 1982 UN Convention on the Law of the Sea recognises the legitimate rights of coastal states to proclaim sovereignty and assert jurisdiction over vast areas of maritime space In return maritime states are given a range of navigational rights over waters ranging from the territorial sea through to the high sea The new regime of the law of the sea created by the Convention presents an opportunity to review developments in the law of navigational rights and freedoms This book assesses the navigational regime established by the 1982 Convention with emphasis given to the continuing importance of the freedom of the seas Navigation in the territorial sea and international straits is reviewed especially in the Straits of Malacca and Singapore and the Torres Strait Archipelagic navigation from the perspective of two claimant states Indonesia and the Philippines and a user state South Korea is also considered The interaction of environmental concerns with navigational rights is an important feature of the current law of the sea regime with relevant conventions assessed and the role of the International Maritime Organization in developing navigational standards considered Both European and Canadian practice in the protection of sensitive marine environments and the impact upon navigational rights is also considered Finally the roles of the International Tribunal for the Law of the Sea and the International Maritime Organization in dispute resolution are reviewed before a concluding consideration of the future for
