Second Metropolis Pragmatic Pluralism In Gilded Age Chicago Silver Age Moscow And Meiji Osaka:

Second Metropolis Blair A. Ruble, 2001-05-28 By exploring and comparing North America's Russia's and Japan's second cities Chicago Moscow and Osaka *Second Metropolis* discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive political resource pragmatic pluralism *The City as Subject* Jeffrey E. Hanes, 2002-05-10 After three years of advanced study in Europe at the turn of the twentieth century during which he engaged Marxism and later steeped himself in the exciting new field of social economics Seki was transformed into a progressive BOOK JACKET Function-Based Spatiality and the Development of Korean Communities in Japan David Rands, 2014-05-21 *Function Based Spatiality and the Development of Korean Communities in Japan* utilizes the theoretical model of complex adaptive systems and introduces the concept of function based spatiality to investigate the roles of the urban environments of Tokyo and Osaka in the development of Korean communities in Japan Analysis of distinct Korean communities allows for the examination of urban factors of each city which contributed to the patterns of Korean immigration and community formation By utilizing a comparative narrative of the two cities distinctions between the organic growth of Osaka and the planned city of Tokyo are illuminated Additionally the discussion utilizes the concept of function based spatiality to show how each city interacted with its surrounding regional national and global spheres The functions of Tokyo as a gateway to Western modernization and center of the Japanese state shaped the interactions with Korean immigrants Likewise Osaka's functions as a center of mercantilism and second city played a large role in how Koreans were incorporated into the urban ethnoscape Taken together these two examples provide insight to the dynamics of urban systems on the development of immigrant communities

The Fragmented Politics of Urban Preservation Yue Zhang, 2013-08-01 While urban preservation is almost as old as cities themselves it has become increasingly controversial in modern cities In this book Yue Zhang presents a cross national comparative analysis of the politics of urban preservation Based on comprehensive archival research and more than two hundred in depth interviews in Beijing Chicago and Paris Zhang finds that urban preservation provides a tool for diverse political and social actors to frame their propositions and advance their favored courses of action In cities from West to East divergent political and economic interests have caused urban preservation to become contested Exploring three of the world's great cities Zhang deftly navigates readers through each case study illustrating the complexities of the politics of urban

preservation in each city In Beijing urban preservation was integral to promoting economic growth and enhancing the city's image during the lead up to the 2008 Olympics in Chicago it is used to increase property values and revitalize neighborhoods and in Paris it offers a channel for national and municipal governments to compete for control over urban space Although urban preservation serves various purposes in these cities Zhang explains how different types of political fragmentation have affected the implementation of preservation initiatives in predictable ways thus generating distinct patterns of urban preservation A comparative urban politics study of unusual breadth *The Fragmented Politics of Urban Preservation* gives us insight into the complex policy process of urban preservation through which political institutions are intertwined with interests and inclinations fundamentally shaping the direction of urban development the physical forms of cities and the lives of citizens **Gendering Spaces in European Towns, 1500-1914** Elaine Chalus, Marjo Kaartinen, 2019-03-13 Towns are

the complexity of the economy and society in the brief period between the revolution of 1905 and the outbreak of war in 1914 and shows how the widely accepted narrative about pre war late Imperial Russia has failed in significant ways While providing a unique synthesis of the historiography Dowler also uses reportage from two newspapers to create a fuller impression of the times This engaging and important study will appeal both to Russian studies scholars and serious readers of history
