Second Opinion An Introduction To Health Sociology:

Second Opinion John Germov, 2009-07-02 *Second Opinion* is the leading health sociology textbook for undergraduate students. Accompanied by a comprehensive online resource centre, this strong teaching text introduces students to the theories, concepts, and contexts that are needed to understand the issues confronting health sociology. **Second Opinion** Jennie Mary Hornosty, John Germov, 2016-07-18 Taking an intersectional approach to the study of health and illness, *Second Opinion* introduces students to the field through an accessible yet authoritative overview of key theories, debates, and research findings. Written in a clear, straightforward style with contributions from both Canadian and international scholars, this comprehensive volume examines a wide range of topics including racialization, disability, aging, the environment, Aboriginal health, and the political economy of the health industry. Themes such as the social determinants of health, health inequalities, intersectionality, and the roles of both structure and agency in creating and maintaining the status quo are integrated throughout. The array of pedagogical features fosters engagement with the material while providing study support and suggestions for further learning. New content and examples on maternal mortality rates, the latest in sociological theory, health care inequalities in Canada, obesity, appearance norms, healthy aging, physician-assisted death, drug costs in Canada, and the world, and integrated health care encourage students to think critically about health care practices and policies in Canada within a global health perspective. Thoroughly revised and up to date with a new visual program to appeal to visual learners and a new chart on the inside cover that details the coverage of social determinants throughout the text, the second Canadian edition of *Second Opinion* ensures that students of health sociology have everything they need to understand this complex discipline right at their fingertips. *Second Opinion* Jennie Mary Hornosty, Professor of Sociology and Pro Vice-Chancellor of the Faculty of Education and Arts, John Germov, 2011-09-30 This thoroughly adapted Canadian edition introduces students to the sociology of health and illness through an accessible yet authoritative overview of the field's key debates, theories, and research findings.
