Second Crusade Scope And Consequences

ed. by Jonathan Phillips

Second Crusade Scope And Consequences:

The Second Crusade Jonathan Phillips, Martin Hoch, 2001 The Second Crusade 1145-49 was an unprecedented attempt to expand the borders of Christianity in the Holy Land, the Baltic and the Iberian peninsula. This wide-ranging collection offers a series of original interpretations of new and partially explored evidence of the crusade. The essays examine the planning, execution and consequences of the crusade for Western Europe, the Crusader States of the Holy Land and the Muslim Near East. The Second Crusade. Scope and Consequences. Ed. by Jonathan Phillips ed. by Jonathan Phillips, 2001 **A**

Cumulative Bibliography of Medieval Military History and Technology, Update 2004 Kelly DeVries, 2004-12-01 This is the first update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002. It is meant to do two things: to present references to works on medieval military history and technology not included in the first volume and to present references to all books and articles published on medieval military history and technology from 2000 to 2002. These references are divided into the same categories as in the first volume and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages. It also continues to cover the same geographical area as the first volume in essence Europe and the Middle East or again influences on and from this area. The languages of these bibliographical references reflect this geography.

Crusading and the Crusader States Andrew Jotischky, 2017-02-17 Crusading and the Crusader States follows the progress of the major crusading expeditions, offers insights into their continuing failure and charts the development of new attitudes towards Islam and its followers. This new edition takes into account the wealth of rich and varied recent research to demonstrate that crusading should be seen as central to the European experience in the Middle Ages and engages in the key historiographical debates of the past decade. This includes new research on how crusades were formed, the political culture, networks, liturgies and crusading culture in the East. It is essential reading for all students of the Crusades and medieval history.

The Crusades and the Expansion of Catholic Christendom, 1000-1714 John France, 2006-02-01 The Crusades and the Expansion of Catholic Christendom 1000-1714 is a fascinating and accessible survey that places the medieval Crusades in their European context and examines for the first time their impact on European expansion. Taking a unique approach that focuses on the motivation behind the Crusades, John France chronologically examines the whole crusading movement from the development of a crusading impulse in the eleventh century through to an examination of the relationship between the Crusades and the imperialist imperatives of the early modern period. France provides a detailed examination of the first Crusade, the expansion and climax of crusading during the twelfth and thirteenth centuries and the failure and fragmentation of such practices in the fourteenth and fifteenth centuries. Concluding with an assessment of the influence of the Crusades across history and replete with illustrations, maps, timelines, guides for further reading and a detailed list of rulers across Europe and the Muslim world, this study provides students with an essential guide to a central

aspect of medieval history **The A to Z of the Crusades** Corliss K. Slack, 2009-07-24 During the late 11th through the early 14th centuries at least seven major expeditions were made between Western Europe and the Holy Land with the goal of ending Muslim control of Jerusalem Ultimately the crusaders were driven out but not before a cultural exchange had taken place that had an immense impact on Western Europe and an equally enormous albeit less positive impact on Arabs and the Islamic world Although the crusades occurred many centuries ago echoes still resound through the current clashes of nations and ideologies kidnappings for ransom assassinations and the declaring of jihad all making the crusades an eminently timely subject This one volume overview provides an accessible reference work for scholars students and general readers on the period with numerous entries on key persons places events battles and sieges use of weapons and armor and the deeper issues of the political and cultural background Complete with a detailed chronology and a bibliography this work allows readers to learn how Europe was changed forever by these battles with Islam **Adrian IV The English Pope (1154-1159)** Brenda Bolton, Anne J. Duggan, 2017-05-15 The year 2000 witnessed the 900th anniversary of the birth of Adrian IV the only Englishman to sit on the papal throne His short pontificate of four and a half years distracted by crisis and controversy and followed as it was by an 18 year schism could be judged a low point in the history of the papacy The studies in this book challenge the view that Adrian was little more than a cipher the tool of powerful factions in the Curia This is the first large scale work on Adrian since 1925 and is supported by a substantial appendix of relevant sources and documents in facing translation Relations with the Empire the Norman kingdom and the Patrimony are all radically reassessed and the authenticity of *Laudabiliter* reconsidered At the same time the spiritual educational and devotional contexts in which he was operating are fully assessed his activities in Catalonia and his legatine mission to Scandinavia are examined in the light of recent research and his special relationship with St Albans is explored through his privileges to this great abbey These studies by leading scholars in the field together with the introductory chapter by Christopher Brooke reveal an active and engaged pope reacting creatively to the challenges and crises of the Church and the world **The Crusades** Alan V. Murray, 2006-08-30 The first multivolume encyclopedia to document the history of one of the most influential religious movements of the Middle Ages the Crusades The Crusades An Encyclopedia surveys all aspects of the crusading movement from its origins in the 11th century to its decline in the 16th century Unlike other works which focus on the eastern Mediterranean region this expansive four volume encyclopedia also includes the struggle of Christendom against its enemies in Iberia Eastern Europe and the Baltic region and also covers the military orders crusades against fellow Christians heretics and more This work includes comprehensive entries on personalities such as Godfrey of Bouillon who refused the title King of Jerusalem and St Bernard of Clairvaux who tore up his own clothing to make symbols of the cross for crusaders as well as key events countries places and themes that shed light on everything from the propaganda that inspired crusading warriors to the ways in which they fought Special coverage of topics such as taxation pilgrimage warfare chivalry and religious orders

give readers an appreciation of the multifaceted nature of these holy wars Seven Myths of the Crusades Alfred J. Andrea, Andrew Holt, 2015-08-21 Seven Myths of the Crusades rebuttal of the persistent and multifarious misconceptions associated with topics including the First Crusade anti Judaism and the Crusades the crusader states the Children s Crusade the Templars and past and present Islamic Christian relations proves once and for all that real history is far more fascinating than conspiracy theories pseudo history and myth mongering This book is a powerful witness to the dangers of the misappropriation and misinterpretation of the past and the false parallels so often drawn between the crusades and later historical events ranging from nineteenth century colonialism to the protest movements of the 1960s to the events of 9 11 This volume s authors have venerable track records in teaching and researching the crusading movement and anyone curious about the crusades would do well to start here Jessalynn Bird Dominican University co Editor of Crusade and Christendom

The Routledge Companion to the Crusades Peter Lock, 2013-04-15 A compilation of facts figures maps family trees summaries of the major crusades and their historiography the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth century and gives a chronological framework and context for modern research on the crusading movement Not just a history of the Crusades but an overview of the logistical economic social and biographical history this is a core text for students of history and religious studies

Ignite the flame of optimism with is motivational masterpiece, Fuel Your Spirit with **Second Crusade Scope And Consequences** .
