Women's Activism and "Second Wave" Feminism Barbara Molony, Jennifer Nelson, 2017-02-09 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Women's Activism and Second Wave Feminism situates late 20th century feminisms within a global framework of women's activism Its chapters written by leading international scholars demonstrate how issues of heterogeneity transnationalism and intersectionality have transformed understandings of historical feminism It is no longer possible to imagine that feminism has ever fostered an unproblematic sisterhood among women blind to race ethnicity class sexuality nationality and citizenship status The chapters in this collection modify the wave metaphor in some cases and in others re-periodize it By studying individual movements they collectively address several themes that advance our understandings of the history of feminism such as the rejection of hegemonic feminism by marginalized feminist groups transnational linkages among women's organizations transnational flows of ideas and transnational migration By analyzing practical activism the chapters in this volume produce new ways of theorizing feminism and new historical perspectives about the activist locations from which feminist politics emerged Including histories of feminisms in the United States Canada South Africa India France Russia Japan Korea Poland and Chile *Women's Activism and Second Wave Feminism* provides a truly global re-appraisal of women's movements in the late 20th century

Trans Feminist Epistemologies in the US Second Wave Emily Cousens, 2023-08-01 Why do second wave and trans feminism rarely get considered together Challenging the idea that trans feminism is antagonistic to or arrived after second wave feminism Emily Cousens re-orient trans epistemologies as crucial sites of second wave feminist theorising By revisiting the contributions of trans individuals writing in underground print publications as well as the more well known arguments of Andrea Dworkin this book demonstrates that valuable yet overlooked trans feminist philosophies of sex and gender were present throughout the US second wave It argues that not only were these trans feminist epistemologies an important component of second wave feminism's knowledge production but that this period has an unacknowledged trans feminist legacy

The New Sex Wars Brenda Cossman, 2024-12-03 Revisits the sex wars of the 1970s and 80s and examines their influence on how we think about sexual harm in the MeToo era MeToo's stunning explosion on social media in October 2017 radically changed and amplified conversations about sexual violence as it revealed how widespread the issue is and toppled prominent celebrities and politicians But as the movement spread a conflict emerged among feminist supporters and detractors about how punishment should be doled out and how justice should be served *The New Sex Wars* reveals that these clashes are nothing new Delving into the contentious debates from the 70s and 80s Brenda Cossman traces the striking echoes in the feminist divisions of this earlier period In exploring the history of past conflicts the resistance to finding common ground the media's pleasure in portraying the debates as polarized cat fights the simplification of viewpoints as pro and anti sex she shows how they have come to shape the MeToo era From the 70s to today Cossman examines tensions

between the need for recognition and protection under the law and the colossal and ongoing failure of that law to redress historic injustice By circumventing law altogether MeToo has led us to question whether justice can be served outside of the courtroom Cossman argues for a different way forward one based on reparative models that focus on shared desired outcomes and the willingness to understand the other side Thoughtful and compelling The New Sex Wars explores what can be learned from these stories what traps we repeatedly fall into how we have been denied our anger and where to begin to make law work

The Nine Waves of Creation Carl Johan Calleman, 2016-11-15 A guide to aligning your life with the frequencies of the Nine Waves of Creation Explains the quantum physics behind the Waves of the Mayan Calendar system and how their holograms shape the human mind Shows how throughout history each revolution in human consciousness has been driven by the activation of one of the Nine Waves of Creation Reveals how we can consciously work to deactivate the negative patterns of the Sixth Wave and manifest the unity consciousness of the Ninth Wave In the past few years the world has witnessed changes in social consciousness whose sudden development the ruling scientific paradigm has not been able to explain These changes correspond with the activation of new Waves of Creation emanating from the center of the universe that influence human thinking From the Big Bang to the present these Waves guide the evolution of the universe and through their holographic resonance with the human mind profoundly shape revolutions in religion technology economy and social consciousness Presenting a quantum holographic perspective on world history and human consciousness Carl Calleman explains the quantum physics behind the Waves of the Mayan Calendar system and how these Waves allow us to understand the shifting eras on Earth as well as the possibilities of the future He describes how prior to the activation of the 6th Wave in 3115 BCE our social systems were based on a unified cosmic order but the hologram of this Wave shifted society to an all consuming focus on Good and Evil leading to the rise of patriarchal religious structures slavery and warfare He explores how later Waves and their new holograms helped humanity survive the negative effects of the 6th Wave such as the Industrial Revolution of the 7th Wave and the Digital Revolution of the 8th Wave In 2011 the 9th Wave was activated bringing with it an accelerated push for a more egalitarian world a rising awareness of unity consciousness and access to the full power of all Nine Waves of Creation Calleman explains how our individual resonance with each Wave plays a role in the quality of our lives and how we must consciously work to resonate with the higher Waves Revealing how we can become quantum activists in a holographic world by aligning with the 9th Wave the author shows how we each can help manifest the destiny of humanity hinted at in ancient texts

The Three Waves of Reform in the World of Education 1918 - 2018 Ami Volansky, 2023-01-01 This book reviews one hundred years of educational reforms worldwide Characterized by a tension between governing public and professional forces the waves of educational reform reflect myriad efforts to define and fulfill professional and public expectations for the world of education The first wave of reform based on progressive ideals spread across the globe after World War I striving to place the student at the center of the education process and respond to the

diverse needs of children and youth in a world that included massive population shifts The second wave nearly obliterated the ideals of the progressive movement that had prevailed for sixty years Drawing its principles from the business world the second wave imposed competition uniform standards and measurable outputs on students teachers and schools even at the cost of harming at risk populations and encouraging the infiltration of private sector values into public education systems The third wave was launched at the turn of the twenty first century Seeking to adjust instructional methods to modern reality this reform rejected standardized curricula in favor of developing skills such as independent thinking curiosity innovation collaboration among learners and the ability to mine and process information Book I reviews the three waves of reform in the United States England Canada Japan Singapore Hong Kong Australia and Finland Book II focuses on Israel s education system past present and future *Contemporary Switzerland* H. Kriesi,P. Farago,M. Kohli,M. Zarin-Nejadan,2005-06-06 This volume presents the major findings involved in a large scale research programme to describe and analyse the transformation of contemporary Swiss society The contributions focus on three key areas the Swiss way of life the Swiss labour market and the country s political institutions The chapters give an idea of current trends in Swiss society each one framing their argument in a comparative perspective *Panels for Transportation Planning* Thomas F. Golob,Ryuichi Kitamura,Lyn Long,2013-03-14 Panels for Transportation Planning argues that panels repeated measurements on the same sets of households or individuals over time can more effectively capture dynamic changes in travel behavior and the factors which underlie these changes than can conventional cross sectional surveys Because panels can collect information on household attributes attitudes and perceptions residential and employment choices travel behavior and other variables and then can collect information on changes in these variables over time they help us to understand how and why people choose to travel as they do and how and why these choices are likely to evolve in the future This book is designed for a wide audience survey researchers who seek information on methodological advancements and applications transportation planners who want an improved understanding of dynamic changes in travel behavior and instructors of graduate courses in urban and transportation planning research methods economics sociology and public policy Each chapter has been prepared to stand alone to illustrate a particular theme or application The book is divided into topical parts which address the most salient issues in the use of panels for transportation planning panels as evaluation tools regional planning applications accounting for response bias and modeling and forecasting issues These parts describe panel applications in the US Australia Great Britain Japan and the Netherlands Each chapter is supplemented by extensive references more than 400 studies reflecting the work of more than 700 authors are cited in the text **Everywhere and Nowhere** Jo Reger,2012-03-15 Everywhere and Nowhere offers a clear empirical analysis of the state of contemporary feminism while also revealing the fascinating and complex development of feminist communities in the United States *Becoming Teachers of Inner-city Students* James C. Jupp,2013-11-19 Becoming Teachers of Inner city Students takes on the continuing challenges of White

teachers in increasingly de facto re segregated schools of the present Drawing on the author s eighteen years of experience as a classroom teacher and his research on White teachers of inner city students *Becoming Teachers* provides key discussions on professional identity for preservice teachers professional educators and researchers interested in diversity education or urban education Driving at complex recognitions of race class culture language and gender as a basis for teaching and learning with diverse urban students the author s and other White teachers life and teaching stories move beyond prescriptive models of professional identity for preservice and professional teachers to follow Instead life and teaching stories in *Becoming Teachers* demonstrate again and again that in teaching the personal is political professional knowledges are forged in practice and overall that becoming a professional teacher is a process that draws on one s experiences and inner most convictions *Becoming Teachers* updating Vivian Paley s *White Teacher* and reworking Christine Sleeter s multicultural research on White teachers race evasive identities moves discussions on White teacher identity toward a second wave of race visible professional identity for White teachers in the present James Jupp s book is an instruction on how to keep the democratic educational experiment on the workbench Roger Slee Professor and Director of the Victoria Institute for Education Diversity and Life Long Learning at Victoria University Melbourne James Jupp thoughtfully explicates the complexity of the social justice literature in education related to race class culture language gender and other differences in classrooms Jupp is one of the leading scholars in education who challenges static notions of difference and opens up new curriculum spaces for a second wave of critical race work Challenging the field to consider more nuanced possibilities that will advance social justice in the present Jupp provides generous readings for new intercultural alliances Jupp s *Becoming Teachers of Inner city Students* offers a fresh understanding for those who are looking for new ways to understand teachers lives and professional identities Patrick Slattery Professor of Curriculum Texas A M University Jupp does the hard work here of understanding where we have been in conceptualizing the racial identities of White teachers And then he does something harder With abundant intelligence courage and generosity Jupp opens up new pathways for our thinking and feeling and action Read this book Timothy Lensmire Associate Professor of Curriculum Instruction University of Minnesota

White Feminists and Contemporary Maternity D. Hallstein, 2010-03-29 This work explores matrophobia the fear not of one s mother or of motherhood but of becoming one s mother in past and present white feminist analyses of motherhood and mothering By tracing white second wave feminism s strategic choice to organize first as sisters then as daughters O Brien Hallstein argues matrophobia became embedded in past and continues to linger in contemporary feminist analyses As a result contemporary analyses reveal crucially important but limited understandings of contemporary motherhood and mothering This important work concludes that matrophobia can be reduced and eliminated by reorienting analyses to mutual responsiveness between sisters and daughters second and third wave feminists
