Secret Garden Promo Action Packs:

The American Deep State Peter Dale Scott, 2017-05-02 Now in a new edition updated through the unprecedented 2016 presidential election this provocative book makes a compelling case for a hidden deep state that influences and often opposes official U S policies Prominent political analyst Peter Dale Scott begins by tracing America s increasing militarization restrictions on constitutional rights and income disparity since World War II With the start of the Cold War he argues the U S government changed immensely in both function and scope from protecting and nurturing a relatively isolated country to assuming ever greater responsibility for controlling world politics in the name of freedom and democracy This has resulted in both secretive new institutions and a slow but radical change in the American state itself He argues that central to this historic reversal were seismic national events ranging from the assassination of President Kennedy to 9 11 Scott marshals compelling evidence that the deep state is now partly institutionalized in non accountable intelligence agencies like the CIA and NSA but it also extends its reach to private corporations like Booz Allen Hamilton and SAIC to which 70 percent of intelligence budgets are outsourced Behind these public and private institutions is the influence of Wall Street bankers and lawyers allied with international oil companies beyond the reach of domestic law Undoubtedly the political consensus about America s global role has evolved but if we want to restore the country s traditional constitutional framework it is important to see the role of particular cabals such as the Project for the New American Century and how they have repeatedly used the secret powers and network of Continuity of Government COG planning to implement change Yet the author sees the deep state polarized between an establishment and a counter establishment in a chaotic situation that may actually prove more hopeful for U S democracy

Death and Nightingales Eugene McCabe, 2008-12-03 A deeply moving powerful and unforgettable book Michael Ondaatje Death and Nightingales is an epic story of love deception betrayal and revenge set on a single day in the Irish countryside in 1883 Soon to be a major television event starring Matthew Rhys and Jamie Dornan It is 1883 and the farms of County Fermanagh on the border of Ulster and what we now know as the Republic of Ireland are crisscrossed with religious political and generational tensions Through the events of a single day in the life of Elizabeth Winters we see decades of pain betrayal and resentment build to a devastating climax Against the fearsome beauty of the Fermanagh landscape the fate of McCabe s heroine Beth slowly and suspensefully unfolds Born to a Catholic mother and an unknown Catholic father conceived shortly before her mother s
