Degenerates David Lloyd, 2014-02-15 From the notable emergence of orphan figures in late eighteenth century literature through early and middle period Victorian fiction and as this book argues well into the fin de siècle, this potent literary type is remarkable for its consistent recurrence and its metamorphosis as a register of cultural conditions. The striking ubiquity of orphans in the literature of these periods encourages inquiry into their metaphoric implications and the manner in which they function as barometers of burgeoning social concerns. The overwhelming majority of criticism focusing on orphans centres particularly on the form as an early to middle century convention primarily found in social and domestic works. In effect, the non-traditional aberrant at times Gothic orphan of the fin de siècle has been largely overlooked if not denied outright. This oversight has given rise to the need for a study of this potent cultural figure as it pertains to preoccupations characteristic of more recent instances. This book examines the noticeable difference between orphans of genre fiction of the fin de siècle and their predecessors in works including first wave Gothic and the majority of Victorian fiction and the variance of their symbolic references and cultural implications. *Theatre World 1992-1993* John Willis, 2000-04 Scenes from the plays and portraits of leading actors accompany a statistical record of the current season. **Tynninghame** Judy

Riley, 2022-05-05 For many people Tynninghame on the beautiful East Lothian coast means beaches, sea birds and salt marshes. But this place on the southern boundary of the Firth of Forth was once an important monastic site, the burial place of St Baldred and later a bishop's palace that eventually became the seat of the earls of Haddington. In the early eighteenth century its landscape was dramatically changed by a young woman, Lady Helen Hope, and her husband Thomas Hamilton, 6th Earl of Haddington. The church, the house, the gardens and surroundings have undergone many transformations since they lived here, but somehow their vision has remained intact and unspoiled. Judy Riley reveals a fascinating story weaving together the different threads: archaeological, historical, religious and horticultural, which make up this special place in a corner of East Lothian. **The Magic of Children's Gardens** Lolly Tai, 2017-04 Landscape architect Lolly Tai provides the primary goals, concepts and key considerations for designing outdoor spaces that are attractive and suitable for children, especially in urban environments. Tia presents inspiring ideas for creating children's green spaces by examining nineteen outstanding case studies. Kuwait Transformed Farah Al-Nakib, 2016-04-13 As the first Gulf city to experience oil urbanization Kuwait City's transformation in the mid twentieth century inaugurated a now familiar regional narrative a small traditional town of mudbrick courtyard houses and plentiful foot traffic transformed into a modern city with marble fronted buildings vast suburbs and wide highways In *Kuwait Transformed* Farah Al Nakib connects the city's past and present from its settlement in 1716 to the twenty first century through the bridge of oil discovery She traces the relationships between the urban landscape patterns and practices of everyday life and social behaviors and relations in Kuwait The history that emerges reveals how decades of urban planning suburbanization and privatization have eroded an open tolerant society and given rise to the insularity xenophobia and divisiveness that characterize Kuwaiti social relations today The book makes a call for a restoration of the city that modern planning eliminated But this is not simply a case of nostalgia for a lost landscape lifestyle or community It is a claim for a right to the city the right of all inhabitants to shape and use the spaces of their city to meet their own needs and desires
