Music, Sexuality and the Enlightenment in Mozart's Figaro, Don Giovanni and Così fan tutte Dr Charles Ford, 2013-01-28 Music Sexuality and the Enlightenment explains how Mozart s music for *Le nozze di Figaro* *Don Giovanni* and *Cos fan tutte* sounds the intentions of Da Ponte s characters and their relationships with one another Mozart by way of the infinitely generative and beautiful logic of the sonata principle did not merely interpret Da Ponte s characterizations but lent them temporal musical forms Charles Ford s analytic interpretation of these musical forms concerns processes and structures in detail and at medium to long term levels He addresses the music of a wide range of arias and ensembles and develops original ways to interpret the two largely overlooked operatic genres of secco recitative and finales Moreover Ford presents a new method by which to relate musical details directly to philosophical concepts and thereby the music of the operas to the inwardly contradictory thinking of the European Enlightenment This involves close readings of late eighteenth century understandings of man and nature self and other morality and transgression and gendered identities and sexuality

with particular reference to contemporary writers especially Goethe Kant Laclos Rousseau Sade Schiller Sterne and Wollstonecraft The concluding discussion of the implied futures of the operas argues that their divided sexualities which are those of the Enlightenment as a whole have come to form our own unquestioned assumptions about gender differences and sexuality This along with the elegant and eloquent precision of Mozart s music is why Figaro Giovanni and Cos still maintain their vital immediacy for audiences today *The Music and Musical Instruments of Japan* Francis Taylor Piggott, 1909
