

An aerial photograph of a traditional Chinese village. The village is built on a hillside, with numerous small, traditional houses with tiled roofs. A river flows through the center of the village, and a large, prominent building with a blue roof stands out on the right side. The overall scene is a dense, colorful representation of a historical Chinese settlement.

Secret Societies In China In The Nineteenth And Twentieth Centuries:

Secret Societies in China in the Nineteenth and Twentieth Centuries Jean Chesneaux,1971 Secret Societies Reconsidered: Perspectives on the Social History of Early Modern South China and Southeast Asia David Ownby,Mary F. Somers Heidhues,2016-09-16 A discussion of the development of secret societies within China and among Chinese communities in colonial Southeast Asia in the late 18th and 19th centuries **Heterodoxy in Late Imperial China** Kwang-Ching Liu,Richard Hon-Chun Shek,2004-01-01 Ten international academics explore heterodoxy dissent challenging the beliefs and meanings of the established norm in late Imperial China In this process they trace the origins of the cultural and intellectual protests to aspects of Daoism and Buddhism in the Ming 1368 1644 and Qing 1644 1911 The Origins of the Tiandihui Dian H. Murray,Qin Baoqi,1994-07-01 The Tiandihui also known as the Heaven and Earth Association or the Triads was one of the earliest largest and most enduring of the Chinese secret societies that have played crucial roles at decisive junctures in modern Chinese history These organizations were characterized by ceremonial rituals often in the form of blood oaths that brought people together for a common goal Some were organized for clandestine criminal or even seditious purposes by people alienated from or at the margins of society Others were organized for mutual protection or the administration of local activities by law abiding members of a given community The common perception in the twentieth century both in China and in the West was that the Tiandihui was founded by Chinese patriots in the seventeenth century for the purpose of overthrowing the Qing Manchu dynasty and restoring the Ming Chinese This view was put forward by Sun Yat sen and other revolutionaries who claimed that like the anti Manchu founders of the Tiandihui their goal was to strip the Manchus of their throne The Chinese Nationalists Guomindang today claim the Tiandihui as part of their heritage This book relates a very different history of the origins of the Tiandihui Using Qing dynasty archives that were made available in both Beijing and Taipei during the last decades the author shows that the Tiandihui was founded not as a political movement but as a mutual aid brotherhood in 1761 a century after the date given by traditional historiography She contends that histories depicting Ming loyalism as the raison d etre of the Tiandihui are based on internally generated sources and in part on the Xi Lu Legend a creation myth that tells of monks from the Shaolin Monastery aiding the emperor in fighting the Xi Lu barbarians Because of its importance to the theories of Ming loyalist scholars and its impact on Tiandihui historiography as a whole the author thoroughly investigates the legend revealing it to be the product of later not founding generations of Tiandihui members and a tale with an evolution of its own The seven extant versions of the legend itself appear in English translation as an appendix This book thus accomplishes three things it reviews and analyzes the extensive Tiandihui literature it makes available to Western scholars information from archival materials heretofore seen only by a few Chinese specialists and it firmly establishes an authoritative chronology of the Tiandihui s early history Proletarianisation in the Third World Barry Munslow, Henry Finch,2012-07-26 First published in 1984 this collection of twelve case studies examines

the emergence of a free wage labour force in all regions of the third world Although the struggle and conflict through which the proletariat has achieved a degree of class consciousness is not neglected the more dominant theme is that of the process and techniques which have created a working class on the capitalist periphery

Bandits in Republican China Phil Billingsley, 1988 A study of banditry in Republican China describing the cycles whereby banditry spread from the impoverished margins geographically and socially of late Qing society into entire provinces by the 1920s

Modern China I. W. Mabbett, 2024-11-01 Most writing on modern China dwells on those aspects which are new to China since the Communist takeover stressing above all politics Marxism economic and agricultural development First published in 1985 Modern China argues that all this writing creates a false impression of what present day China is really like This book contends that much of traditional China remains particularly at the grass roots level and that Buddhism and the Buddhist tradition continue to exert an influence Politics in communist China is best understood in the context of this tradition Throughout arguments are supported by revealing how tradition continues in the economy in society and the family by examining in detail the Buddhist tradition and by using the case study of education to show the interplay between modern and customary forces

The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly

Of Camel Kings and Other Things Roxann Prazniak, 1999-01-14 From the perspective of village activists across China this book tells the stories of farmers and rural laborers who raised the banner of opposition to constitutional reform during the first decade of the twentieth century The author brings to life the stories of the Camel King of Zunhua county Qu Shiwen and the Four Mountains of Laiyang county and many others who criticized government modernization

efforts known collectively as the New Policy Using county archives including oral histories as well as memoirs periodical literature missionary records and official documents both Chinese and foreign Of Camel Kings and Other Things constructs from fragmented sources a coherent historical view vital to our understanding of China s twentieth century crises and the dilemmas of modernity itself **The Workers of Tianjin, 1900-1949** Gail Hershatter, 1993-08-01 This is the story of the workers of Tianjin Tientsin and how in the first half of the 20th century they helped shape Tianjin s identity as the major industrial centre of North China This text should be of interest to students of the period covered and also to those students of Communist China who wish to understand the antecedents of China s current urban society and trace the roots of powerful continuities The book offers a wealth of detail on material life forms of entertainment local festivals and individual rites of passage and makes use of studies of the local economy carried out by contemporaries and in the People s Republic The Workers of Tianjin is a contribution to both Chinese labour history and urban history
