Thoughts Are Things - Secrets to the Law of Attraction Dr. Robert C. Worstell, editor, Prentice Mulford, 2007-05-07 Just when you thought you had Law of Attraction mastered you find someone who wrote before it was popular and everybody knew Prentice Mulford was ages ahead of his time Factually what he wrote in the 1800 s is still being discovered today When we dread a misfortune

or live in fear of any ill or expect ill luck we make also a construction of unseen element thought which by the same law of attraction draws to it destructive and to you damaging forces or elements Thus the law for success is also the law for misfortune When you read his philosophy you see a man who tempered his writing with a great deal of hands on people study The advise you get here has been weighed against results So it s great stuff and useful If you want the highly polished stuff that hypes your world this author isn t for you But if you want the pitch straight with no curves then Mumford is the way to get the straight bottom line Get Your Copy Now *Optimizing Human-Computer Interaction With Emerging Technologies* Cipolla-Ficarra, Francisco,2017-06-19 The ways in which humans communicate with one another is constantly evolving Technology plays a large role in this evolution via new methods and avenues of social and business interaction *Optimizing Human Computer Interaction With Emerging Technologies* is a primary reference source featuring the latest scholarly perspectives on technological breakthroughs in user operation and the processes of communication in the digital era Including a number of topics such as health information technology multimedia and social media this publication is ideally designed for professionals technology developers and researchers seeking current research on technology s role in communication **Thoughts Are Things - Secrets to the Law of Attraction** Robert C. Worstell,Prentice Mulford, *The Oxford Handbook of Samuel Johnson* Jack Lynch,2022 A Handbook devoted to the work of Samuel Johnson 1709 1784 organized in three sections that study Johnson s career his major and lesser known works and the subjects that were most important to him as a writer thinker and moralist **Secrecy and Disclosure in Victorian Fiction** Leila Silvana May,2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria s coronation to the century s end May argues that the works of writers such as Charlotte Bront William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May s theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel s thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman s claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May s study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period s emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and

empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian
