Secret Life Of Paintings:

The Secret Life of Paintings Richard Foster, Pamela Tudor-Craig, 1987 Discusses the symbolism themes and historical background of paintings by artists such as Jan van Eyck Botticelli and Hieronymus Bosch Bruno Fonseca Alan Jenkins, Bruno Fonseca, Karen Wilkin, Isabel Fonseca, 2000 A celebration of a brilliant young artist's tragically short career this revealing look at Bruno Fonseca's life unorthodox training and startlingly diverse paintings drawings and sculpture not only casts light on his own impressive work but also offers unusually acute insight into the creative process The son of a sculptor and a painter mother Bruno Fonseca grew up in an art filled Manhattan household and started creating his own art in early childhood By the age of 18 he had started a rigorous course of study with Augusto Torres in Manhattan where he maintained a studio until his death at age 36 in 1994 Alan Jenkins's perceptive musings about the young artist's accomplishments capture Bruno's quirky charm and summon up the complexity of his relationships with family friends and the history of art Karen Wilkin investigates Fonseca's throwback approach to the study of art based on painstakingly learned ways of seeing and creating that relate more to the 19th century Academy than to today's conceptualizing career chasing art schools Isabel Fonseca's deeply touching memoir of her brother's childhood and last days brings to life his irresistible spirit and quicksilver intelligence **Poussin's Paintings** David Carrier, 1993 Art David A. Scott, 2016-12-31 This book presents a detailed account of authenticity in the visual arts from the Paleolithic to the postmodern The restoration of works of art can alter the perception of authenticity and may result in the creation of fakes and forgeries These interactions set the stage for the subject of this book which initially examines the conservation perspective then continues with a detailed discussion of notions of authenticity and philosophical background There is a disputed territory between those who view the present day cult of authenticity as fundamentally flawed and those who have analyzed its impact upon different cultural milieus operating across performative contested and fragmented ground The book discusses several case studies where the ideas of conceptual authenticity aesthetic authenticity and material authenticity can be incorporated into an informative discourse about art from the ancient to the contemporary illuminating concerns relating to restoration and art forgery **Art and Communication in the Reign of Henry VIII** Tatiana C. String, 2017-07-05 Exploring the intersection between art and political ideology this innovative study of art in Henrician England sheds new light on the ways in which Henry VIII and his advisers exploited visual images in order to communicate ideas to his subjects The works analyzed include water triumphs coronation pageants and funeral processions printed title pages of vernacular Bibles coins portrait miniatures and murals as well as panel paintings With her analysis of these categories of objects and using communication theory as a starting point String presents a new model of communication based on the concepts of magnificence topicality persuasiveness and propaganda Through this model she shows how medium location display and viewership were all considered in the transmission of royal messages Using the art of Henry VIII's reign as a case study String enriches our understanding of the fundamental contribution of

imagery to communication and also provides a model for the study of the dissemination of ideas and the patron artist relationship in other royal courts and historical periods

Van Gogh's Ghost Paintings Cliff Edwards, 2015-06-03 One of the most significant and revealing paintings by the world famous artist Vincent van Gogh was never seen by anyone but the artist himself The painting was so important to the artist that he painted it twice He was so conflicted about the painting that he destroyed it twice Cliff Edwards argues these two unique paintings Vincent created and destroyed are at least as important to understanding the artist and his work as are the two thousand or more paintings and drawings that do exist In *Van Gogh's Ghost Paintings* Edwards invites his readers on a journey that begins in a Zen master's room in Japan and ends at a favorite site of the artist a ruined monastery and its garden in the south of France Recovering the intent of van Gogh and the nature of his ghost paintings becomes a zen koan waiting to be solved The solution offers access to the deepest levels of the artist's life as painter and spiritual pilgrim The journey leads to the artist's choice of the biblical theme of the Garden of Gethsemane The answer to the mystery of the lost paintings illuminates the relationship of joy and suffering discovery and creation religion and the arts in van Gogh's life and work In this fascinating book Edwards solves a long ignored mystery that provides a critical key to the relation of van Gogh's religion and art
