Modernism and the Celtic Revival Gregory Castle,2001-05-21 In Modernism and the Celtic Revival Gregory Castle examines the impact of anthropology on the work of Irish Revivalists such as W B Yeats John M Synge and James Joyce Castle argues that anthropology enabled Irish Revivalists to confront and combat British imperialism even as these Irish writers remained ambivalently dependent on the cultural and political discourses they sought to undermine Castle shows how Irish Modernists employed textual and rhetorical strategies first developed in anthropology to translate reassemble and

edit oral and folk cultural material In doing so he claims they confronted and undermined inherited notions of identity which Ireland often a site of ethnographic curiosity throughout the nineteenth century had been subject to Drawing on a wide range of post colonial theory this book should be of interest to scholars in Irish studies post colonial studies and Modernism

Building W. B. Yeats's Later Poetry Tomoko Iwatsubo,2024-09-09 This book explores Yeats s later poetry through the metaphor of the poetic tower where different kinds of building architectural textual political and symbolic were closely interrelated It chronologically examines Yeats s tower poems composed during a period of dramatic personal and national transformation from 1915 to 1932 Within a year after the Easter Rising in Dublin Yeats acquired a half ruined Norman tower in County Galway Ireland which had enthralled him for the past two decades and textually and architecturally constructed it into a focus of his life and work Interweaving the account of the renovation of the actual building and the textual construction in the socio historical contexts the book reveals the evolution of Yeats s multiplex tower as an organizing principle of his later poetry Using the archive of correspondence and manuscript materials of relevant poems including those which have thus far escaped close attention the book offers close textual genetic analyses and a diachronic view of Yeats s tower poetry which with its foundations laid decades earlier he built in the collections from *The Wild Swans at Coole* 1919 to *The Winding Stair and Other Poems* 1933 Highlighting the delicate exchange between poetry and biography as well as between the textual architecture and the actual one identifying a turning point in the making of each tower oriented poem and proposing some draft dating revisions this first book length systematic study on the process of Yeats s creation of the tower casts an unfamiliar light on a familiar yet underexplored landmark in modern poetry and makes his step by step construction work come alive

Yeats,2013-02-17 **Modernist Literary Collaborations between Women and Men** Russell McDonald,2022-10-27 Major figures including W B Yeats Marianne Moore D H Lawrence Ford Madox Ford and Virginia Woolf viewed cross sex collaboration as a valuable and often subversive strategy for bringing women and men s differing perspectives into productive dialogue while harnessing the creative potential of gendered discord This study is the first to acknowledge collaboration between women and men as an important part of the modernist effort to make it new Drawing on current methods from textual scholarship to read modernist texts as material socially constructed products of multiple hands the study argues that cross sex collaboration involved writers working not just with each other but also with publishers and illustrators By documenting and tracing the contours of their desire for cross sex collaboration we gain a new understanding of the modernists thinking about sex and gender relations as well as three related topics of great interest to them marriage androgyny and genius *The Notable Library of Major W.
