History of Perfume Holly Dugan,2011-09-14 In contrast to the other senses smell has long been thought of as too elusive too fleeting for traditional historical study Holly Dugan disagrees arguing that there are rich accounts documenting how men and women produced consumed and represented perfumes and their ephemeral effects She delves deeply into the cultural archive of olfaction to explore what a sense of smell reveals about everyday life in early modern England In this book Dugan focuses on six important scents incense rose sassafras rosemary ambergris and jasmine She links these smells to the unique spaces they inhabited churches courts contact zones plague ridden households luxury markets and pleasure gardens and the objects used to dispense them This original approach provides a rare opportunity to study how early modern men and women negotiated the environment in their everyday lives and the importance of smell to their daily actions Dugan defines perfume broadly to include spices flowers herbs animal parts trees resins and other ingredients used to produce artificial scents smokes fumes airs balms powders and liquids In researching these Renaissance aromas Dugan uncovers the extraordinary ways now largely lost that people at the time spoke and wrote about smell objects ambered civited expired fetored halited resented and smeeked or were described as breathful embathed endulced gracious halited incensial odorant pulvil redolent and suffite A unique contribution to early modern studies The Ephemeral History of Perfume is an unparalleled study of olfaction in the Renaissance a period in which new scents and important cultural theories about smell were developed Dugan s inspired analysis of a wide range of underexplored sources makes available to scholars a remarkable wealth of information on the topic **The Scent of Empires** Karl Schlögel,2021-04-27 Can a drop of perfume tell the story of the twentieth

century Can a smell bear the traces of history What can we learn about the history of the twentieth century by examining the fate of perfumes In this remarkable book Karl Schlögel unravels the interconnected histories of two of the world s most celebrated perfumes In tsarist Russia two French perfumers Ernest Beaux and Auguste Michel developed related fragrances honouring Catherine the Great for the 300th anniversary of the Romanov dynasty During the Russian Revolution and Civil War Beaux fled Russia and took the formula for his perfume with him to France where he sought to adapt it to his new French circumstances He presented Coco Chanel with a series of ten fragrance samples in his laboratory and after smelling each she chose number five the scent that would later go by the name Chanel No 5 Meanwhile as the perfume industry was being revived in Soviet Russia Auguste Michel used his original fragrance to create Red Moscow for the tenth anniversary of the Revolution Piecing together the intertwined histories of these two famous perfumes which shared a common origin Schlögel tells a surprising story of power intrigue and betrayal that offers an altogether unique perspective on the turbulent events

and high politics of the twentieth century This brilliant account of perfume and politics in twentieth century Europe will be of interest to a wide general readership Spritzing to Success with the Woman Who Brought an Industry to Its Senses
