Secrets Of Happiness:

8 Secrets of Happiness, 1913 **The Secrets of Happiness** Richard W. Schoch, 2006 A stylish witty book about happiness that explains with authority what happiness actually is and why understanding its history can help us to live happier lives What connects a Greek philosopher with a cult following of prostitutes a Roman civil servant who was unjustly executed and a Persian scholar who traded books for mystic ecstasy This trio Epicurus 341 271 BC Boethius c 480 524 AD and Abu Hamid Al Ghazali 1058 1111 allowed their reflections about happiness to give meaning to their lives and through such individuals and their ideas we can reclaim the lost art of happiness Today influenced by books on the new science of happiness and quick self help panaceas we have settled for a much weaker version of happiness than previous cultures just enjoyment of pleasure and avoidance of pain and suffering It is only through rediscovering the traditions that began in the West with the philosophers of Athens and in the East with anonymous Hindu sages that we can learn how to be genuinely happy again During the journey through ideas philosophical and religious from around the world and across thousands of years Professor Schoch answers questions that are fundamental to our wellbeing but are rarely asked What does it feel like to be happy and can you be happy if others are unhappy Is happiness an emotion or an attitude How much effort do you have to make to be happy and do you have a right to be happy The good life is easier to grasp when you know the answers
