everyday life Heidegger provides fundamental philosophical orientation whilst key features of love are brought to the fore through dialogue with Kierkegaard Dante and Dostoevsky are frequent points of reference in addition to a range of literary and religious sources including the Scottish poet Edwin Muir Leading scholar George Pattison concludes that the phenomenon of love requires us to articulate a metaphysics that involves both being and nothingness thereby taking a critical position vis vis both classical theism and existential atheism *The Conservator*,1896 **The Works of the British Poets**
