### **For the Love of Physics** Walter

Lewin, 2011-05-03 YOU HAVE CHANGED MY LIFE is a common refrain in the emails Walter Lewin receives daily from fans who have been enthralled by his world famous video lectures about the wonders of physics I walk with a new spring in my step and I look at life through physics colored eyes wrote one such fan When Lewin's lectures were made available online he became an instant YouTube celebrity and The New York Times declared Walter Lewin delivers his lectures with the panache of Julia Child bringing French cooking to amateurs and the zany theatricality of YouTube's greatest hits For more than thirty years as a beloved professor at the Massachusetts Institute of Technology Lewin honed his singular craft of making physics not only accessible but truly fun whether putting his head in the path of a wrecking ball supercharging himself with three hundred thousand volts of electricity or demonstrating why the sky is blue and why clouds are white Now as Carl Sagan did for astronomy and Brian Green did for cosmology Lewin takes readers on a marvelous journey in *For the Love of Physics* opening our eyes as never before to the amazing beauty and power with which physics can reveal the hidden workings of the world all around us I introduce people to their own world writes Lewin the world they live in and are familiar with but don't approach like a physicist yet Could it be true that we are shorter standing up than lying down Why can we snorkel no deeper than about one foot below the surface Why are the colors of a rainbow always in the same order and would it be possible to put our hand out and touch one Whether introducing why the air smells so fresh after a lightning storm why we briefly lose and gain weight when we ride in an elevator or what the big bang would have sounded like had anyone existed to hear it Lewin never ceases to surprise and delight with the extraordinary ability of physics to answer even the most elusive questions Recounting his own exciting discoveries as a pioneer in the field of X ray astronomy arriving at MIT right at the start of an astonishing revolution in astronomy he also brings to life the power of physics to reach into the vastness of space and unveil exotic uncharted territories from the marvels of a supernova explosion in the Large Magellanic Cloud to the unseeable depths of black holes For me Lewin writes physics is a way of seeing the spectacular and the mundane the immense and the minute as a beautiful thrillingly interwoven whole His wonderfully inventive and vivid ways of introducing us to the revelations of physics impart to us a new appreciation of the remarkable beauty and intricate harmonies of the forces that govern our lives

*Glaciogenic Reservoirs and Hydrocarbon Systems* M. Huuse, J. Redfern, D. P. Le Heron, R. J. Dixon (Geologist), A. Moscariello, Jonathan Craig, 2012 Glaciogenic reservoirs and hydrocarbon systems occur intermittently throughout the stratigraphic record with particular prominence in Neoproterozoic Late Ordovician Permo Carboniferous and Late Cenozoic strata Recent interest in glaciogenic successions has been fuelled by hydrocarbon discoveries in ancient glaciogenic reservoirs in North Africa the Middle East Australia and South America Glaciogenic deposits of Pleistocene age are noteworthy for their content of groundwater onshore and potentially prospective and or hazardous gas accumulations offshore The abundant imprints of Pleistocene glaciations in both hemispheres can be used to reconstruct complex histories

of repeated ice cover and retreat and glacier bed interactions thus informing our view on the dynamics of older ice caps and predictions of future glaciations This volume aims to provide a better understanding of glaciogenic processes their stratigraphic record and reservoir characteristics of glaciogenic deposits The book comprises 3 overview papers and 16 original case studies of Neoproterozoic to Pleistocene successions on 6 continents and will be of interest to sedimentologists glaciologists geophysicists hydrologists and petroleum geologists alike P 4 of cover      *Books in Print* ,1991      *Children's Books in Print*, 2007 ,2006
