for the purpose of this thesis portray girls in an adolescent period The adolescents presented in this study are aged between ten and twenty one and are socially economically and politically dependent on their parents or guardians To further complicate matters the experiences of girls of colour are more complex than those encountered by white adolescents As the typical conflicts within the family problems with gender sexual development education and friends are juxtaposed with issues of racism and very often a lower social status In the light of these facts it does not come as a surprise that many ethnic adolescent girls have problems finding their self The first section of the initial chapter of this thesis takes into consideration the stereotypical image of Euro American adolescent girl as it often serves as a contradiction of the popular images of ethnic girls Furthermore the chapter examines stereotypes of African American Chinese American and Mexican American adolescents Despite their variety the stereotypes are the cause of girls victimisation in society The five following chapters analyse the problems more often
