In 2004, Jacques Derrida gave one of his final interviews prior to his death. Regarding the future of his work, Derrida advanced two contradictory hypotheses: "I will not be read" and "despite a handful of good readers, I am yet to be read." This book is an homage to the spirit of Derrida and seeks to grasp the significance of his death.

Stories of Love Luchi Penna, 2018-10-05

Stories of Love introduces readers to compelling stories of love. As you read, experience the emotions of new yet familiar characters as they tell their tales of romance. Interspersed throughout the author's poetry is an insightful and thought-provoking sideline. Together, the stories and poetry portray passion in its purest form. Get to know four unique couples. Their narratives focus on the enduring nature of love, from finding the person you want despite obstacles to finding love again after heartache to rekindling love after years of marriage. Each story winds through joys and challenges because even true love is not always easy. Through the experiences of these characters, dance under a streetlight to your favorite song. Find the one you've so soundly sought. Discover contentment in the mere presence of another and feel what it's like to love honestly and fully. Author Luchi Penna is a romantic whose writing style inspires emotion and truth. His musings on love are poetic gems that focus on tenderness and passion; they might even evoke memories you have long since lost.

Love's Knowledge Martha C. Nussbaum, 1990 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements

The Trinity John M. Farrelly, 2005-01-04 The mystery of the Trinity is the central Christian belief that defines God's essence God's ongoing love for humanity and saving grace Yet over the past few centuries especially in the West Christians have either ceased believing in the Trinity or simply no longer recognize its relevance in their ecclesial or individual lives Written in an ecumenical spirit that engages contemporary questions and theological viewpoints The Trinity Rediscovering the Central Christian Mystery articulates the mystery of the Trinity for people formed by modern historical consciousness science awareness of the equal dignity of men and women and respect for world religions By first identifying contemporary problems with the Christian proclamation of the Trinity in our culture and major differences among modern theologians John Farrelly OSB explores Scripture the life and message of Jesus Christ the various stages of the development of Trinitarian doctrine in Christian History the relation of the Trinity to creation and salvation the generation of the Son from the Father within the Trinity and the procession of the Holy Spirit from Father and Son and the meaning of three persons in one God He concludes by reflecting on the implications this renewed theology of the Trinity has for ecclesiology and Christian spirituality in our twenty first century world especially in relation to other world religions

Secrecy and Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more

fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end May argues that the works of writers such as Charlotte Brontë William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May's theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian
