Love Mystery And Misery Feeling In Gothic Fiction:

Love, Mystery and Misery Coral Ann Howells, 2014-01-13 The current Gothic revival in literature and film encourages us to look again to the earliest Gothic novels written beween 1790 and 1820 when Gothic was the most popular kind of fiction in England Dr Howells proposes a radical reassessment of these novels to emphasize their importance as experiments in imaginative writing Her object the study of feeling is central to Gothic for its spell consists in the feelings it arouses and exercises As pseudo historical fantasy Gothic fiction embodies contemporary neuroses especially sexual fears and repressions which run right through it and are basic to its conventions This study traces the effort to articulate these disconcerting emotions in symbol incident landscape and architecture The chronological design suggests developments in Gothic from the initial explorations of Mrs Radcliffe and M G Lewis through the Minerva Press novelists and Jane Austen's Northanger Abbey to new directions taken by C R Maturin in Melmoth the Wanderer and later by Charlotte Bronte whose Jane Eyre arguably the finest of Gothic novels places the earlier experiments in perspective **Gothic Fiction** Angela Wright, 2007-07-20 What is the Gothic Few literary genres have attracted so much praise and critical disdain simultaneously This Guide returns to the Gothic novel's first wave of popularity between 1764 and 1820 to explore and analyse the full range of contradictory responses that the Gothic evoked Angela Wright appraises the key criticism surrounding the Gothic fiction of this period from 18th century accounts to present day commentaries Adopting an easy to follow thematic approach the Guide examines Contemporary criticism of the Gothic The aesthetics of terror and horror The influence of the French Revolution Religion nationalism and the Gothic The relationship between psychoanalysis and the Gothic The relationship between gender and the Gothic Concise and authoritative this indispensable Guide provides an overview of Gothic criticism and covers the work of a variety of well known Gothic writers such as Horace Walpole Ann Radcliffe Matthew Lewis and many others and Ideology David Aers, Jonathan Cook, David Punter, 2016-03-31 First published in 1981 The primary purpose of this book is to serve as an introduction to writing in the late eighteenth and early nineteenth centuries In addition to major Romantic poets Blake Wordsworth Coleridge and Shelly the authors discuss writers such as Austen Hazlitt and Burke who are usually studied in a different context and genres such as fiction and political writing which are often cut off from the central body of poetry An original and highly stimulated study this book will appeal to all those who are dissatisfied with the conventional categories into which writers and literary movements are usually placed In Lady Audley's Shadow Saverio Tomaiuolo, 2010-10-05 This book is devoted to Mary Elizabeth Braddon's complex relationship with the three main Victorian literary genres the Gothic the Detective and the Realist novel using Braddon's bestselling sensation fiction Lady Audley's Reading the Eighteenth-Century Novel David H. Richter, 2017-05-01 Reading the Eighteenth Secret as a starting point Century Novel is a lively exploration of the evolution of the English novel from 1688 1815 A range of major works and authors are discussed along with important developments in the genre and the impact of novels on society at the time The

text begins with a discussion of the rise of the novel in the long eighteenth century and various theories about the economic social and ideological changes that caused it Subsequent chapters examine ten particular novels from Oroonoko and Moll Flanders to Tom Jones and Emma using each one to introduce and discuss different rhetorical theories of narrative The way in which books developed and changed during this period breaking new ground and influencing later developments is also discussed along with key themes such as the representation of gender class and nationality. The final chapter explores how this literary form became a force for social and ideological change by the end of the period Written by a highly experienced scholar of English literature this engaging textbook guides readers through the intricacies of a transformational period for **Family Fictions** Christopher Flint, 2002-02 By revealing the investment of eighteenth century British prose fiction in contemporary debates about domestic ideology this book addresses the multiple ways in which traditional notions of the family were estranged reconstituted as novel concepts and then finally presented as national social norms It focuses on works by Aphra Behn Daniel Defoe Samuel Richardson Eliza Haywood Horace Walpole Laurence Sterne and Mary Wollstonecraft addressing a number of narratives that historians of the novel have overlooked while linking such better known works as Robinson Crusoe and Pamela to their often neglected seguels Challenging competing critical claims that the household either experienced a revolution in form or that it remained essentially unchanged the author argues that eighteenth century writers employed a set of complementary strategies to refashion the symbolic and affective power of bourgeois domesticity Whether these writers regarded the household as a supplement to such other social institutions as the Church or the monarchy or as a structure resisting these institutions they affirmed the family s central role in managing civil behavior At a time however when the middle class was beginning to scrutinize itself as a distinct social entity its most popular form of literature reveals that many felt alienated from the most intimate and yet explosive of social experiences family life Prose fiction sought to channel these disturbingly fluid domestic feelings yet was in itself haunted by the specter of unregulated affect Recovering the period s own disparate perceptions of household relations the book explains how eighteenth century British prose fiction which incorporates elements from conduct books political treatises and demographic material used the family as an instrumental concept in a struggle to resolve larger cultural tensions at the same time it replicated many of the rifts within contemporary family ideology **Emotions and the Making of Psychiatric Reform in** Britain, c. 1770-1820 Mark Neuendorf, 2021-11-19 This book explores the ways which people navigated the emotions provoked by the mad in Britain across the long eighteenth century Building upon recent advances in the historical study of emotions it plots the evolution of attitudes towards insanity and considers how shifting emotional norms influenced the development of a humanitarian temperament which drove the earliest movements for psychiatric reform in England and Scotland Reacting to a culture of sensibility which encouraged tears at the sight of tender suffering early asylum reformers chose instead to express their humanity through unflinching resolve charging into madhouses to contemplate scenes of

misery usually hidden from public view and confronting the authorities that enabled neglect to flourish This intervention required careful emotional management which is documented comprehensively here for the first time Drawing upon a wide array of medical and literary sources this book provides invaluable insights into pre modern attitudes towards insanity **History of English Laughter**, 2021-11-01 Is there a history of laughter Or isn t laughter an anthropological constant rather and thus beyond history a human feature that has defined humanity as homo ridens from cave man and cave woman to us The contributors to this collection of essays believe that laughter does have a history and try to identify continuities and turning points of this history by studying a series of English texts both canonical and non canonical from Anglosaxon to contemporary As this is not another book on the history of the comic or of comedy it does not restrict itself to comic genres some of the essays actually go out of their way to discover laughter at the margins of texts where one would not have expected it all in Beowulf or Paradise Lost or the Gothic Novel Laughter at the margins of texts which often coincides with laughter from the margins of society and its orthodoxies is one of the special concerns of this book This goes together with an interest in impure forms of laughter in laughter that is not the serene and intellectually or emotionally distanced response to a comic stimulus which is at the heart of many philosophical theories of the comic but emotionally disturbed and troubled aggressive and transgressive satanic and sardonic laughter We do not ask then what is comic but who laughs at and with Anne Rice Reader Katherine Ramsland, 2010-12-22 A collection of the most fascinating whom where when why and how essays articles and interpretations of bestselling author Anne Rice's complete works by a variety of journalists and scholars It includes a history of vampire literature a professional dominatrix s examination of Rice s erotica and a behind the scenes look at the making of the film version of Interview with the Vampire From the adventures of the Vampire Lestat to those of the Mayfair Witches from the evocative historical epic Cry to Heaven to the uninhibited erotica of Exit to Eden and the Sleeping Beauty trilogy The Anne Rice Reader presents a captivating range of perspectives on the imagination of a writer who has enthralled her generation DisPossession Marlene Goldman, 2012-02-21 Much of Canada's contemporary fiction displays an eerie fascination with the supernatural In DisPossession Marlene Goldman investigates the links between spectral motifs and the social and historical influences that have shaped Canada Incorporating both psychoanalytic and non traditional methods of literary analysis Goldman explores the ways in which spectral fictions are an expression of definitive Canadian experiences such as the clashes between invading settler and indigenous populations the losses incurred by immigration and diaspora and the alienation of the female body In so doing Goldman unearths some of the ghosts of Canadian society itself old tensions and injustices that continue to haunt ethnic and gender relations An important contribution to the discussion of the challenges posed by the Gothic to dominant literary political and social narratives DisPossession asserts that Canadian spectral fictions have the power to alter accepted versions of Canadian history by invoking and troubling the process of generating collective memories Shakespeare and the Eighteenth-Century Novel Kate Rumbold, 2016-03-08 The

eighteenth century has long been acknowledged as a pivotal period in Shakespeare's reception transforming a playwright requiring improvement into a national poet whose every word was sacred Scholars have examined the contribution of performances adaptations criticism and editing to this process of transformation but the crucial role of fiction remains overlooked Shakespeare and the Eighteenth Century Novel reveals for the first time the prevalence and the importance of fictional characters direct quotations from Shakespeare Quoting characters ascribe emotional and moral authority to Shakespeare redeploy his theatricality and mock banal uses of his words by shaping in this way what is considered valuable about Shakespeare the novel accrues new cultural authority of its own Shakespeare underwrites and is underwritten by the eighteenth century novel and this book reveals the lasting implications for both of their reputations Eyre ,2007-01-01 Ever since its publication in 1847 Jane Eyre one of the most popular English novels of all time has fascinated scholars and a wide reading public alike and has proved a source of inspiration to successive generations of creative writers and artists There is hardly any other hypotext that has been re worked in so many adaptations for stage and screen has inspired so many painters and musicians and has been so often imitated re written parodied or extended by preguels and seguels New versions in turn refer to and revise older rewritings or take up suggestions from Bront scholarship creating a dense intertextual web The essays collected in this volume do justice to the variety of media involved in the Jane Eyre reworkings by covering narrative visual and stage adaptations including an adaptor's perspective Contributions review a diverse range of works from postcolonial revision to postmodern fantasy from imaginary after lives to science fiction from plays and Hollywood movies to opera from lithographs and illustrated editions to comics and graphic novels. The volume thus offers a comprehensive collection of reworkings that also takes into account recent novels plays and works of art that were published after Patsy Stoneman's seminal 1996 study on Bront Transformations Janet Frame in Focus Josephine A. McQuail,2018-02-14 New Zealand author Janet Frame 1924 2004 during her lifetime published 11 novels three collections of short stories a volume of poetry and a children's book The details of her life her tragic early years her confinement in a psychiatric hospital and her miraculous reprieve overshadow her work and she remains largely neglected by scholars These essays focus on Frame's autobiography short stories and novels Contributors from around the world explore a range of topics including her mother's Christadelphian faith her relationships with two 20th century icons William Theophilus Brown and John Money and a view of Frame in the context of trauma studies Two of the essays were presented at the 2014 Northeast Modern Language Association convention The Gothic Novel and the Stage Francesca Saggini, 2015-08-12 In this ground breaking study Saggini explores the relationship between the late eighteenth century novel and the theatre arguing that the implicit theatricality of the Gothic novel made it an obvious source from which dramatists could take ideas Similarly elements of the theatre provided inspiration to novelists Reading Daughters' Fictions 1709-1834 Caroline Gonda, 1996-03-14 It has been argued that the eighteenth century witnessed a decline in paternal authority and the emergence of more intimate

affectionate relationships between parent and child In Reading Daughters Fictions Caroline Gonda draws on a wide range of novels and non literary materials from the eighteenth and early nineteenth centuries in order to examine changing representations of the father daughter bond She shows that heroine centred novels aimed at a predominantly female readership had an important part to play in female socialization and the construction of heterosexuality in which the father daughter relationship had a central role Contemporary diatribes against novels claimed that reading fiction produced rebellious daughters fallen women and nervous female wrecks Gonda's study of novels of family life and courtship suggests that far from corrupting the female reader such fictions helped to maintain rather than undermine familial and social order

British Women Writers and Race, 1788-1818 E. Wright, 2015-12-11 This book presents a unique sociological examination of British raciology focusing on women s literary works of the late eighteenth and early nineteenth centuries and drawing from a range of academic disciplines particularly literature history and cultural studies Wright traces the emergence of British modernity through the writings of a select group of women writers including Jane Austen Hannah More Fanny Burney Mary Wollstonecraft Mary Shelley and Maria Edgeworth of diverse political and philosophical affiliations and fills a gap in scholarship on feminist accounts of late eighteenth and early nineteenth century women s writing Horrors Gilbert Bonifas, Martine Monacelli, 2014-07-18 Rather than focus on the attraction exerted by the Mediterranean South on Northerners in search of health pleasure leisure and culture the contributors to this book choose to bring out its less enticing aspects and the repugnance these induced in northern Europeans over four centuries through a series of sixteen essays covering a geographical area stretching from Portugal to Turkey and Lebanon from the Balkans to Egypt and embracing several cultures two religious faiths and very diverse populations Most of them were read at an international conference held in Nice in April 2012 and were substantially revised for publication in this volume All contributions centre around the manner in which British German and American travellers tourists writers thinkers all members of Protestant modernizing nations rapidly rising in political and economic power reacted to their physical or merely intellectual encounter with a Mediterranean world whose pure light warm sunshine and marvellous scenery could not make them overlook the fact that the glories of the classical past were now set in the midst of a sordid present George Eliot in Middlemarch and that the successors possibly the descendants of the Romans in the countries of the South were sunk in poverty religious superstition and racial degeneracy What emerges from these studies that draw on a variety of primary sources is nothing but cruelty decrepitude ignorance and obscurantism With its dark side exposed the Mediterranean bears little resemblance to the exquisite lake the fons et origo of form and harmony to which E M Forster compared it in A Passage to India Beyond the portrayal of horrors however all essays attempt to unravel the historical conditions and the nexus of mentalit s that determined or inspired the perception imagination or representation of a dark Mediterranean and Near Eastern world Not only do they make a useful contribution to the elaboration of the Mediterranean as an intellectual construct but their original

angle of vision offers a valuable addition to the intellectual and cultural history of the North telling more perhaps about the values prejudices and certainties of northern Europeans than about the true nature of the Mediterranean South World's a Stage' Charlene Bunnell, 2013-12-16 This book examines the often tragic and nearly always disabling metaphor of thetheatrum mundi world as stage as it plays itself out in the characters of Mary Shelley's novels **American Studies** Jack Salzman, American Studies Association, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 Labors of Fear Aviva Briefel, Jason Middleton, 2023-06-20 2024 Best Edited Collection Midwest Popular Culture Association Midwest American Culture Association MPCA ACA How work and capitalism inspire horror in modern film American ideals position work as a source of pride opportunity and meaning Yet the ravages of labor are constant grist for horror films Going back decades to the mad scientists of classic cinema the menial motel job that prepares Norman Bates for his crimes in Psycho and the unemployed slaughterhouse workers of The Texas Chain Saw Massacre horror movies have made the case that work is not so much a point of pride as a source of monstrosity Editors Aviva Briefel and Jason Middleton assemble the first study of horror s critique of labor In the 1970s and 1980s films such as The Shining and Dawn of the Dead responded to deindustrialization automation globalization and rising numbers of women in the workforce Labors of Fear explores these critical issues and extends them in discussions of recent works such as The Autopsy of Jane Doe Midsommar Survival of the Dead It Follows Get Out and Us Covering films ranging from the 1970s onward these essays address novel and newly recognized modes and conditions of labor reproductive labor emotion work and emotional labor social media and self branding intellectual labor service work precarity and underemployment In its singular way horror continues to make spine tingling sense of what is most destructive in the wider sociopolitical context of US capitalism
