Psychoanalytic Perspectives on Virtual Intimacy and Communication in Film Andrea Sabbadini, Ilany Kogan, Paola Golinelli, 2018-09-03 *Psychoanalytic Perspectives on Virtual Intimacy and Communication in Film* brings together a group of psychoanalysts to explore through film the new forms of communication mainly the internet that enter more and more frequently into the affective lives of people their intimacy and even the analytic room The contributors all practising psychoanalysts analyse the potential and surprising transformations that human relationships including psychoanalysis are undergoing At present it is difficult to value the future importance and predict the possible disquieting consequences of the use and abuse of the new technologies we run the risk of finding ourselves unprepared to face this revolutionary transformation in human connections and affects Will it be possible in a near future that human beings prefer to fall in love with a machine gifted with a persuasive voice instead of a psychoanalyst in person The contributors explore the idea that virtual intimacy could begin to replace real life in sentimental and psychoanalytic relationships Imagination and fantasy may be strengthened and may ultimately prevail over the body excluding it entirely Can the voice of the analyst sometimes transmitted only by telephone or computer produce a good enough analytic process as if it were in person or will it help to foster a process of idealisation and progressive alienation from real life and connections with other human beings The film *Her* 2013 alongside others offers a wonderful script for discussing this matter because of the deep and thoughtful examination of love and relationships in the contemporary world that it provides *Psychoanalytic Perspectives on Virtual Intimacy and Communication in Film* will be of great interest to all psychoanalysts and psychoanalytic psychotherapists interested in the ongoing impact of technology on human relationships

Imperfect Garden Tzvetan Todorov, 2009-02-09 Available in English for the first time Imperfect Garden is both an approachable intellectual history and a bracing treatise on how we should understand and experience our lives In it one of France's most prominent intellectuals explores the foundations limits and possibilities of humanist thinking Through his critical but sympathetic excavation of humanism Tzvetan Todorov seeks an answer to modernity's fundamental challenge how to maintain our hard won liberty without paying too dearly in social ties common values and a coherent and responsible sense of self Todorov reads afresh the works of major humanists primarily Montaigne Rousseau and Constant but also Descartes Montesquieu and Tocqueville Each chapter considers humanism's approach to one major theme of human existence liberty social life love self morality and expression Discussing humanism in dialogue with other systems Todorov finds a response to the predicament of modernity that is far more instructive than any offered by conservatism scientific determinism existential individualism or humanism's other contemporary competitors Humanism suggests that we are members of an intelligent and sociable species who can act according to our will while connecting the well being of other members with our own It is through this understanding of free will Todorov argues that we can use

humanism to rescue universality and reconcile human liberty with solidarity and personal integrity Placing the history of ideas at the service of a quest for moral and political wisdom Todorov's compelling and no doubt controversial rethinking of humanist ideas testifies to the enduring capacity of those ideas to meditate on and if we are fortunate cultivate the imperfect garden in which we live
