How To Make Love To Foreigners: A Novel Shane O'Brien MacDonald, 2015-05-19 There were live measurements of reactor temperatures Three other buildings that hadn't exploded It was like a movie Will they catch fire Blow up Melt down Or won't they Readers who enjoyed *Youth in Revolt* and *Bridget Jones's Diary* won't want to miss this tale of a pale skinned foreigner navigating life in Japan *How To Make Love to Foreigners* is the diary of Randy Campbell whose life after moving to Japan has taken him places he never expected Fresh off the plane he faces the challenges of learning Japanese navigating the Tokyo train system and compiling a list of women he's quick to bed but terrified of committing to With all this going on around him Randy has to deal with threats from yakuza while filming a documentary the racist comments of a girl who is in love with him and feelings of helplessness when on March 11 2011 an earthquake strikes eastern Japan unleashing a deadly tsunami that envelops a nearby coastline With a radioactive wind drifting towards Tokyo from the crippled Fukushima nuclear plant Randy discovers the terror and absurdities that arise during a devastating catastrophe Inviting us in on the feelings you go through when everything your career the place you live perhaps even your life seems about to be wiped away forever From inside the book These buildings were important to national security There were FBI secret service and CIA offices in some of these buildings They needed guarantees that if another bombing took place no one could just walk in and peruse their files Uh huh but if I was the owner why would I destroy my own buildings These buildings were a terrorist target They were the tallest buildings in New York After the first bombing there were meetings about structural integrity potential casualties financial losses But never in all these discussions did anyone imagine that somebody would try to fly a plane into these buildings Or if they did it would be something small not a commercial airliner You have to think about this not from our point of view but from the perspective of 1994 They really believed that someone was at some point going to drive another

truck into the basement Finish what they d tried to do in 93 This became a real panic after that Timothy McVeigh thing in Oklahoma City Oh yeah that s right That was 95 Yeah The guy parked a fertilizer truck next to the building and the whole thing came down So the consensus at the time was that someone might try to blow up the buildings again From the street level Or the basement Hell even the subway was identified as a possible route What no one wanted to talk about was that if you blew up the building from the basement the entire structure might topple over Like a domino Anything in a thousand foot radius could be destroyed including the other tower I took a sip of my drink That seems highly unlikely I m sure the engineers who designed Chernobyl said the same thing Anyway they came up with a plan that would prevent the building from toppling over A controlled demolition Exactly A completely vertical collapse So the building wouldn t kill as many people I mean nowadays there are residential apartments in that area I looked at Dewey I was interested but unconvinced How many others bought into the same crazy theories

**The Journals and Miscellaneous Notebooks of Ralph Waldo Emerson** Ralph Waldo Emerson, 1975 Like Goethe Ralph Waldo Emerson wanted to be the cultural historian and interpreter of his age its business politics discoveries The journals and notebooks included in this volume and covering in depth the years 1848 to 1851 reflect Emerson's preoccupations with the events of these often turbulent years in America On his return to Concord from his successful lecture trip to England and visit to Paris in 1847 1848 Emerson resumed his familiar life of writer thinker and lecturer Impressions of his recent European travels appear in passages in this volume which are used later in English Traits 1856 He writes of technological and scientific discoveries in America and abroad one of which the discovery of ether was to involve his brother in law in legal embroilment He ponders the meaning for the age or the times of reports on the Dew textile mills in Lawrence Massachusetts of faster steamers daily breaking records of new geological and paleontological findings of theories of race and many other matters that were coming increasingly to the fore in the mid nineteenth century

Many passages on these topics used first in lectures later appear in his essays *Fate Wealth and Power in Conduct of Life* 1860 He was also adding to his critical biographies for *Representative Men* 1850 with special attention to Swedenborg always a source of particular interest for Emerson Between 1850 and 1853 Emerson traveled farther west to lecture than he had hitherto ventured to Pittsburgh Cincinnati St Louis and many other cities in the midwest One notebook in the present volume records his customary perceptive observations of places and people encountered during these western trips The tragic drowning of Margaret Fuller Ossoli and her family on her return from Italy in 1850 prompted Emerson to consider a collaboration on her life and writings and another notebook printed here contains her memorabilia including original entries by Emerson *Memoirs of Margaret Fuller Ossoli* by Emerson William Henry Channing and James Freeman Clarke was published in 1852 Passage of the Fugitive Slave Law in 1850 brought to a boil something in Emerson that had long been simmering Concerned with slavery freedom and the future of the black population in America more than his public record had shown he now delivered himself of an outburst painted vitriolic ironic a more sustained response to a single issue than appears elsewhere in all his journals In this latest move in a compounding national tragedy he could see only chicanery and deterioration the crumbling of America's moral fiber He saw the Fugitive Slave Law in a larger context of a sick age like Tennyson and Arnold in England he lamented in moods of spite and chagrin the loss of faith and of an old world where political men of honor stood firm for the moral law Most of his journal outburst went into his addresses *The Fugitive Slave Law* 1851 and 1854 Journals of Ralph Waldo Emerson Ralph Waldo Emerson, 1912 Emerson in His Journals Ralph Waldo Emerson, 1982 This volume offers the reader the heart of Emerson's journals that extraordinary series of diaries and notebooks in which he poured out his thoughts for over 50 years Drawing from Harvard's 16 volume scholarly edition of the journals but omitting the textual apparatus Porte presents a sympathetic selection that brings us close to Emerson the man

Alexander, 2012-02-16 Thomas Alexander shows that the primary guiding concern of Dewey's philosophy is his theory of aesthetic experience He directly challenges those critics most notably Stephen Pepper and Benedetto Croce who argued that this area is the least consistent part of Dewey's thought The author demonstrates that the fundamental concept in Dewey's system is that of experience and that paradigmatic treatment of experience is to be found in Dewey's analysis of aesthetics and art The confusions resulting from the neglect of this orientation have led to prolonged misunderstandings eventual neglect and unwarranted popularity for ideas at odds with the genuine thrust of Dewey's philosophical concerns By exposing the underlying aesthetic foundations of Dewey's philosophy Alexander aims to rectify many of these errors generating a fruitful new interest in Dewey Journals of Ralph Waldo Emerson, 1820-1872 [1876] ed Ralph Waldo Emerson, Edward Waldo
